N APERIENT AND STOMACHIC PREPAR, A tion of IRON parified of Oxygen and Carbon y combustion in Hydrogen. Sanctioned by the nighest medical authorities, both in Europe and the

highest medical authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of from can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In cases of Gieneral Debility, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved sizessful to an extent which no d-scription nor written attestation would render credible. Invalids as long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of temale sufferers, emacuated victims of apparent marasmus, sanguineans exhautered. hal instances of this kind are attested of remale sufferers, emaciated victims of apparent marssmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for reason In Versian Agrections of all kinds, and for reason familiar to medical men, the operation of this preparation of him must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, withoubeing exciting and over-heating: and gently regut larly aperieni, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

costiveness, without ever being a gastric pargative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases.

In unchecked Diarrhaa, even when advanced to Dystentery, confirmed, emaciating and apparently

In the local pains, loss of flesh and strength, de-bilitating cough, and remittent hectic, which gene-rally indicate Lucipient Consumption, this remedy has allayed the slarm of friends and physicians, inhas allayed the clarm of friends and physicians, in-several very gratifying and interesting instances. In Scrofulous, Tuberculosis, this medicated iron has had far more the good effect of the most cau-tiously balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In Rheumatism, both chronic and inflammatory, in the latter, however, more decidedly, it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles. and muscles.

In Internationt Fevers it must necessarily be a In Internationt Fevere it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt happy and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.
