It has been constructed from t e most reliable authentic sources, and will be found an invaluable aid to those engaged in lecturing on the Holy Land, by return of mail

or in imparting instruction to school classes on the subject to which it refers. It aims to give an exact idea of the city as it appeared in ancient times. It is taken as a "birds eye" or "bulloon" view, the beholder being, in imagination, placed at a considerable elevation, so as to take a comprehensive view of the city and of

the whole country for some distance around.

The View is accompanied with an Outline Key, in which the different localities are numbered, and and a Descriptive Manual containing all the information necessary to enable one to use the View to advantage in teaching or lecturing.

A portion of the Sanday-School Times is occupied with NARRATIVES and other matter particularly interesting to young persons. Teachers will find in it much that they will like to read to their classes—interesting matter prepare, to their hands, and such as they cannot find elsewhere. For the same reasons, members of Bible-classes, and the older scholars generally, with he grantly, heapfiolder schollars generally, will be greatly benefited by the perusal of this piper.

The Sunday-School Times has every week a re-

port of the choicest matter, selected from the NOON PRAYER-MEETINGS, which are so interesting to

all classes of Christians.

Besides a large amount of general religious intelligence, the Sunday-School Times contains all the most secent Sunday-School rows. It reports all the important CONVENTIONS of Sunday-school teachers. It discusses the questions which most interest and perplex teachers and parents, respecting the est and perpiex teachers and parents, respecting the various methods of religious training for the young, the means of gaining the attention and the affections of children, and especially of securing their conversion and bringing them to Christ. The subject of Mission-Schools for cities, and of Sundayschool missionary work for the interior, is thoroughly canyassed. Indeed there is hardly a toroughly canyassed. Colerain. S. H. Mountain Herb Pills.

ABOVE, we present you with a perfect likeness of Tezuco, a chief of a tribe of the strange Artec Nation, that once ruled Mexico. You will find a full account of him and his people in our Pramphlets and Almanacs—to be had gratis, from the Agents for these Pills. The Inventor and Manufacturer of "Judson's Mountain Herb Pills," has spent the greater part of his life in traveling, having visited nearly every country in the world. He spent over six years among the Indians of the Rocky Mountains and of Mexico, and it was thus that the "Moustain Herb Pills" were discovered. A very interestin account of his adventures there, you will find in our Almanac and Pamphlet.

It is an established fact, that all diseases arise from EMPURES BLOOD!

IMPURE BLOOD:

The clood is the life! and when any foreign or unhealthy matter gets mixed with it, it is at once distributed to every organ of the body. Every nerve feels the poison, and all the vital organs quickly complain. The stomach will not digest the food perfectly. The liver ceases to secrete a sufficiency of bile. The action of the heart is weakened, and so the circulation is feeble. The lungs hecome clogged with the poisonous matter; hence, a secrete a sufficiency of bile. The action of the heart is weakened, and so the circulation is feeble. The lungs become clogged with the poisonous matter; hence, a cough—and, all from a slight impurity at the fountain-head of life—the Blood! As if you had thrown some earth, for instance, in a pure spring, from which ran a tiny rivulet, in a few minutes the whole course of the stream becomes disturbed and discolored. As quickly does impure blood fly to every part, and leave its sting behind. All the passages become obstructed, and unleas the obstruction is removed, the lamp of life soon dies out. These pills not only purify the blood, but regenerate oil the secretions of the body; they are, therefore, unrivalled the secretions of the body; they are, therefore, unrivalled

Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. ious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In Debility, Nervous Affections, Emactation, Dyspessia, Constipation, Diarrhosa, Dysenters, Incipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Missmenstruation, Whites Chlorosis, Liver Complaint Chronic Headaches, Rheumatism, Intermittent Feveramples on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the continued dumination of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no discription nor written attestation would render credible. Invalids so long bed-ridden as to have become longotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from pretracted travel in a distant land. Some very signal instances of this sind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic eversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for reason familiar to medical men, the operation of this preparation of from must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, withoubeing exciting and over-heating; and gently regut larly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases.

In unchecked Duarrhoa, even when advanced t Dystentery, confirmed, emaciating and apparently malignant, the effects have been equal decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate Inciprent Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances. In Scrofulous Tuberculosis, this medicated iron has had far more the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them. In the local pains, loss of flesh and strength, de-
