

ANOTHER BLUNDER NEAR NEWPORT NEWS.

Severe Fight between the Rebels and a Union Scouting Party.

Fortress Monroe, July 13, 1861.—A scouting party from the Seventh New York Regiment, numbering thirty-seven men, under command of Lieutenants Hevengen and Mosebeck, fell into an ambush, yesterday noon, nine miles above Newport News, and lost thirteen men, including the two Lieutenants, killed or missing. They were attacked by a company of cavalry, one hundred strong, and on retreating to the woods were met by a strong force of infantry.

Two or three of the Germans are known to be killed, and Lieutenant Hevengen was seen for a while under his horse, which was shot. Four or five of the horsemen were killed. Of the missing, those not killed are undoubtedly prisoners in the rebel hands.

Seven companies of the Seventh went out in the afternoon and picked up some stragglers, and found one or two dead bodies of the rebels. The conflict was most sanguinary. The expedition was undertaken without Colonel Phelps's knowledge or consent. Colonel Benedict was at the first on Col. Allen's court martial, and knew nothing of the movement.

The Recent Battle near Carthage.

St. Louis, July 11, 1861. Lieutenant Toskin, Colonel Siegel's Adjutant and bearer of dispatches to Colonel Harding, gives the following additional particulars of the battle near Carthage:

The State troops were placed on a ridge in a prairie with five pieces of artillery, one twelve pounder in the center, two six pounders on the right and left, cavalry on each flank and infantry in the rear.

The artillery of Colonel Siegel approached within eight hundred yards, with four cannon in the center, a body of infantry and a six pounder, under Lieutenant Colonel Hassenden on the left, Colonel Solomon's command with a six-pounder on the right, and a body of infantry behind the center artillery.

Col. Siegel's left opened fire with sharpness and soon the engagement became general. The rebels had no grape and their artillerists being poor, their balls flew over the heads of the Unionists. After two hours' firing the enemy's artillery was silenced and their ranks broken. About 1,500 rebel cavalry then attempted to outflank Siegel and cut off his baggage train, which was three miles back, when a retrograde movement was ordered. The train was reached in good order, surrounded by infantry and artillery, and the retreat of the Union troops continued until a point was reached where the road passed through a high bluff on each side, where the enemy's cavalry were posted in large numbers. By a feint, as if intending to pass around the bluff, Siegel drew the cavalry in a solid body into the road at a distance of one hundred and fifty yards from his position, when by a rapid movement of his artillery he poured a heavy cross fire of canister into their ranks. At the same time the infantry charged at a "double quick," and in ten minutes the State troops scattered in every direction. Eighty-five riders were captured, and sixty-five shot guns and a number of revolvers and Bowie knives were picked up from the ground.

Colonel Siegel did not surround Carthage, as reported yesterday, but attempted to reach a piece of woods north of the town, and after two hours' desperate fighting, in which all the forces on both sides were engaged, and in which Lieut. Toskin thinks the enemy lost nearly two hundred killed, he succeeded in doing so; and the rebels retired to Carthage, and Siegel fell back on Sarcoxie, whence he proceeded next day to Mount Vernon.

Lieutenant Toskin left on the evening of the 7th inst., and rode to Rolla, one hundred and fifty-three miles, in twenty-nine hours. He met General Sweeney's command, five miles, and Col. Brown's command sixteen miles, from Mount Vernon, pressing forward to reinforce Siegel.

Lieutenant-Colonel Wolf was not killed, as reported.

DEMOCRATIC MEETING IN JACKSON CO. OHIO.—From all quarters we hear of peace movements, which have for their advocates the "soldiers" of the country. The people of Jackson county, Ohio, held an immense mass-meeting at Jackson Court House on the 5th inst., at which the following resolutions were unanimously passed:

Resolved, That (waiving the question of the constitutional power of the Federal Government to coerce a State into submission) we do not believe that aggression by arms, or the prosecution of a war under any pretext except as is plainly laid down and provided for in the Constitution of the United States, is or can be a possible remedy against existing difficulties now distracting the country; and that, so believing, we hold it to be not only our privilege, but our duty, as good citizens and friends of the Union, to unite our efforts to procure, by compromise, the re-union of the States, and of that fraternal feeling which binds the States together.

Resolved, That we regard the right of every citizen to investigate the acts, motives, and policy of our Government officials, as not only a privilege guaranteed by the Constitution of the United States, but hold it to be a matter of duty on the part of all citizens, who are worthy the name of freemen, to carefully and diligently investigate and scrutinize the acts, motives and policy of all agents of the people, in the exercise of the powers conferred upon them by the Constitution and laws of the country.—Whereas, we deprecate and denounce every attempt to abridge or deny this privilege, as anti-Republican, tyrannical and despotic.

DEMOCRATIC MEETING IN TERRE HAUTE, IND.—There was a large and demonstrative Democratic meeting at Terre Haute, Indiana, on the 19th inst., which handed the Republican programme without gloves. The meeting was presided over by Judge Claypool.—Col. Dawling made a thrilling speech, in which he deprecated this unnatural war and said that the olive branch should be held out to the people of the South. He was an advocate of compromise, and was willing to make any honorable sacrifice to bring about peace and preserve the Union.—He was followed by Hon. John S. Davis ex-member of Congress, who stated that at any time during the last session of Congress a compromise of our troubles might have been effected, and the war now upon us, averted. He said that he intended to stand by the freedom of speech and the press, at all hazards. The meeting was also addressed by Hon. D. W. Voorhes, member of the present Congress. A resolution was passed to thoroughly organize the Democratic party, and enter the field at once in opposition to the traitorous and destructive schemes of the Republicans.

PIMPLES AND SKIN DISEASES.—Are the result of impure blood.

The blood becomes thick and clogged. The skin is not able to cast off the impurities so important to health. How many young men and women we see with their faces covered with pimples and blotches, who are endeavoring to remove them by the use of soaps and washes of various kinds. This is very dangerous and should never be practiced by persons desirous of health. Mothers who have children afflicted with sores and eruptions, should never dry them up by external applications, for in this way they will drive in the humors and produce ill health for the child during its whole life time. There is no mother that likes to see her children afflicted with feeble health.

JUDSON'S MOUNTAIN HERB PILLS are prepared expressly for the cure of eruptions of the skin, such as Pimples, Blotches, Sores, &c. They cleanse the blood of all impurities, producing a beautiful, clear and healthy skin, so much admired by taste and refinement.

DEAD.—EARNEST—On the 9th inst., Miss Rebecca, daughter of Michael Earnest, of Bedford township, in the 22d year of her age.

The deceased was stricken down in the morning of life by the left monster Consumption, and after many days and nights of wearisome suffering, which was borne with Christian fortitude, she departed hence in the Lord.

PIANO FORTES.

PIANO FORTES. PATENT INSULATED PULL IRON FRAME. NEW SCALE, GRAND AND SQUARE. PIANO FORTES.

REDUCTION REDUCED. The Best Piano Fortes, at the greatest reduction, ever made in price for cash. IMPROVE THE PRESENT OPPORTUNITY TO PURCHASE, AND BUY THE BEST, FOR THE CASH AMOUNT OF MONEY.

You never again will get so large a discount for your cash.

LIGHT & BRADBURY'S PATENT INSULATED PULL IRON FRAME. NEW SCALE, GRAND AND SQUARE. PIANO FORTES.

THE INSULATED FRAME preserves the original tone of the instrument in all its purity, securing it for all time against that most disagreeable inequality of tone invariably found in all other Iron Frame Piano Fortes. It greatly strengthens the case, and thus keeps the Piano Forte much longer in tune. It gives the instrument a much fuller, richer, and sweeter tone. It adapts the Piano to all climates, and to all changes of atmosphere, and in all respects it is pronounced by our best 'artists' as the greatest improvement of the age in Piano Forte construction; producing an instrument acknowledged to be superior to all others made in this country or Europe.

A few testimonials from some of the most eminent Pianists and Musicians in the world, in regard to the Superiority of our New Scale Patent Insulated Piano Fortes.

"I have examined the Piano Fortes of Light & Bradbury's with entire satisfaction. I know not that there are any others better, either in our own country or elsewhere."

"Dr. LOWELL MASON." "In volume, richness, evenness and purity of tone, and in delicacy of touch, they certainly excel, and in that beautiful singing quality so desirable, yet so seldom found."

"WILLIAM MASON." "I have never played upon so rich and heavy a tone Square Piano Forte."

"ARTHUR NAPOLEON." "I am astonished and delighted with the New Scale Iron Frame Piano Fortes made by you. There must be a splendid future for Light & Bradbury's Piano Fortes."

"GEO. F. ROOPE." "I have never played upon so fine an instrument."

"GEO. F. BRISTOW." "I consider them as to beauty, richness, fullness, and equality of tone, as well as their agreeable, elastic touch, equal, if not superior, to any Pianos made in this country or Europe."

"KARL WELS." "They have all the requirements for a superior interpretation of both classical and modern compositions."

"MAURICE STRAKOSH." "It affords me pleasure to add my testimony to the many artists who speak in the highest terms of the superior excellence of your New Scale Patent Insulated Iron Frame Piano Fortes, and I must say that your New Scale very far surpasses all your former efforts, producing an instrument far superior in all the excellencies that constitute a perfect Piano Forte, to any with which I am acquainted."

"THEO. ZISFELD." "Having examined your New Scale Iron Frame Pianos, we must express our delight and pleasure at their superior excellence. For their peculiar rich volume of tone, fine elastic touch, and in all the requisites necessary for perfection in the instrument, we must say, in all our experience, we have seen nothing to compare with them, and we can most cordially recommend them to our friends and the public."

"CHAS. FRADDEL." "CARL BERGMAN." "I take much pleasure in giving my testimony in favor of the beautiful Pianos which I have recently seen made by your firm. In power, quantity, and equality of tone, they certainly excel; while for that peculiar rich, singing tone, that is so invaluable as an accompaniment to the voice, sustaining and blending with it, I have rarely met with their equal."

"C. BASSINI." "It is with pleasure I give my testimony to the excellence of your Pianos in general, and especially to the admirable new invention of Mr. Lighte, by improvement which I regard as the most important yet made in the manufacture of first-class instruments."

"LOUIS ERNST." "I take pleasure in stating my favorable opinion of your New Scale Iron Frame Piano Fortes. Among many superior Piano Fortes manufactured in New York, they certainly must rank second to none of them for strength, purity, and richness of tone, together with extraordinary vibratory qualities. I have also had frequent opportunities, in the schools, during the past four years, to notice the durability of your instruments, and this under severe and unrelenting trials."

"GEO. H. CURTIS." "The high reputation which they have obtained for their fine brilliant tone, pleasant touch and power, have given them the preference over those of all other manufacturers, in the Public Schools of New York, in which over one hundred are now in daily use, some twelve or fifteen of which are in departments where I have had the pleasure of teaching, and where I have used them for the last five years."

"MARCUS COLEBURN." "Being pleased with your steady progress in improving the quality of your Pianos, I cannot refrain from saying to you, after some fourteen years' knowledge of them, that the New Scale with Iron Frame, which I have seen, I think the best Piano I ever saw. I say this after having purchased over two hundred of your Piano Fortes."

"F. H. NASH." "Our Square Pianos range in price from \$250 to \$600. Our Grand Pianos " " " " \$800 upwards. All our Pianos are WARRANTED, without limit as to time. Send for a circular, which contains complete price list and descriptions, and hundreds of references to persons in every section of the country, who have purchased our Pianos."

JUDSON'S Mountain Herb-Pills.

AN APERTIENT AND STOMACHIC PREPARATION of IRON purified of Oxygen and Carbon by combustion in Hydrogen, sanctioned by the highest medical authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that preparation of iron can be compared with it. Impurities of the blood, depression of vital energy, and otherwie sickly complexions indicate its use and efficacy in almost every conceivable case. It has been used in all maladies in which it has been tried, and proved absolutely curative in each of the following complaints, viz:

In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhoea, Dropsy, Jaundice, Consumption, Scrophulous Tuberculosis, Salt Rheum, Anæmia, Chlorosis, Intermittent Fevers, Chronic Headaches, Hæmorrhages, Liver Complaints on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very singular instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, dangerous exhaustion, critical changes, and that complication of nervous and dyspeptic eversion as if and exercise for which the physician has not time.

In Nervous Affections, of all kinds, and for reason familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the latter property, among others, when being exciting and over-heating it is greatly remedial, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably efficacious in permanent cases of Piles, upon which it also operates to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases. In unchecked Diarrhoea, even when advanced to Dysentery, confirmed, emaciating and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which usually indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scrophulous Tuberculosis, this medicated iron has had far more the good effect, than the most cautiously balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In Rheumatism, both chronic and inflammatory, in the latter, however, more decidedly, it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In Intermittent Fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt happy and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills price 50 cents per box, for sale by druggists and dealers. Will be sent free to any address, on receipt of the price.

For terms, orders, &c., should be addressed to R. B. LOCKE & Co., General Agents, 20 CEDAR STREET, N. Y. July 20th, '60.
