"Sympathy with Rebellion."

In the last issue of the Gazette, we printed a short editorial on the subject of Gen. Freextract from the Louisville Journal (the strongest Union paper in Kentucky) condemning the action of Gen. Frement. The Union-Shriekers (there are two kinds of Upronists in this ers) at once declared that the little editorial was evidence "strong as proofs of holy writ" that we are in sympathy with rebellion. Not a "Republican" could be found that did not endorse the proclamation of Gen. Fremont. It suited them exactly. It was just right, and any man that said any thing against it, was a miserable, croaking traitor. So wilfully blind and stupidly besotted are these men that any thing that is done by one of their leaders, is right in their estimation, and instead of discussing the matter impartially in their own minds, they straight way set about inventing reasons and excuses therefor. How desperately leader-ridden they are, is sufficiently attested by the fact that whilst they are ready to swear by Gen. Fremont's proclamation, they are now we frankly confess our gratification at this ac- faithful and careful officers. tion of the President. Whilst we have unreservedly condemned some of his acts, we shall ever be ready to give the President our approval when his conduct deserves it. If the modification by the President, of Fremont's Abolition proclamation, should operate to prevent the dreadful curse of the liberation of the negro slaves of the Southern States, Mr. Lincoin will truly have done a service to his country for which the blessings of future generations will rest upon his memory.

Misrepesentation.

One of the speakers at a recent meeting held at Rainsburg, for the purpose of obtaining "recruits," took occasion, we are informed, to tell the people that " Democrats should not be against the war because their paper tells them to be." Now, we have never counseled Democrats, since the war began, to be against the war; on the other hand we have always urged our readers to support and uphold the Government; we have assisted in raising volunteer companies, and have given of our substance to minister to the soldiers' comfort. There is but this difference between the views of the gentleman who misrepresented us at Rainsburg, and those entertained by ourself and promulgated in these columns, viz: That, in his opinion, it is necessary and right that the Executive should violate the Constitution in a tually by a strict adherence to the Constitution than by a disregard of the limitations and injunctions of that sacred instrument.

The Theory of our Government.

A lew days since, I read the following extract, which deserves the careful consideration, of every American citizen; it is taken from the New York World, an organ of he Lincoln Administration, and is as follows:
