EDITED BY SIMON SYNTAX, ESQ.

Friends of education who wish to enlighten the public on the subject of teaching the "young idea how to shoot," are respectfully requested to send communications to the above, care of "Bedford Gazette."

FEMININE VS. MASCULINE.

Bedford County has only 13 female teachers!! The official report says so! Ye gods! whither are we tending? Why havn't we more? One third of the teachers in the state are females. At this rate we should have sixty, since we have 184 in all. Why havn't we our full share. They would teach better, and be a clear gain in dollars and cents.

Female teachers do teach more skillfully .-They seem just made for the business. With them ability to teach is natural; with men it must generally be acquired by practice or by "normal instruction." They possess livelier Frame Piano Fortes. It greatly strengthens the sensibility and can sympathize with pupils more readily. They are more refined in manner and feeling; and they would drive out of richer, and sweeter tone. It adapts the Piano to al our school-rooms much coarseness and vulgarity with which they are now disgraced and polluted. They request; men command. They win confidence and love; men enforce obedience. They govern by tact; men by power. try or Europe. All experience demonstrates their superior nat- A few testimonials from some of the most emural ability to teach. Few deny it who have seen the matter fully tested. There should be more of them in this county and throughout the central part of the state. The female teacher is an article much needed in this market.

They dislike us because they don't understand us. They don't get along well. We have seen them tried. We don't want them. Give us home products.—

The argument, that one can not teach where he is well known, is all twaddle—it is worse, it is indiculous and ruinous. It only applies to the incompetent. These may find it necessary to go where their ignorance is not known and where for a brief time they can cover it up. This itinerancy should cease, and especially among females .preciated. Give us home teachers. They succeed. We have seen them tried.

One hundred of the schools of this county this would be again of many thousand dollars annually. But, says the objector, "they can't govern." But we know better. They can govern. A skillful lady can control any pupil that is fit to be in the school-room at all! Think of it. IF It must be very encouraging to the friends of education throughout the county, that in these beligerent times when business is nearly paralyzed, and everything is swallowed up by the all-absorbing question, the present civil war, we have a medium through which we can discuss matters pertaining to the cause of common schools, and to education generally. This shows a healthy state of feeling toward our rebellion and fight the enemies of civil and religious liberty everywhere, the duties which we owe to our race, make the education of the masses a matter of no less, if not of more importance. "We must educate! we must educate, or we must perish by our own prosperity."exclaims a celebrated writer.

OAKLAND, Ind., 6th June, 1860.

J. C. ATER & CO. Gents: I Seel it my duty to acknowledge what your Sarsaparilla has done for man. Having inherited a Scrotlenes infection. I have suffered from it in various ways for years. Sometimes it burst out in Ulears on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scale and ears with one sore, which was painful and leathsome beyond description. I tried many medicines and several physicians, but without much railer from any thing. In fact, the disorder grow worse. At length I was rejoleed to read in the Gospil Messenger that you had prepared an atterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scale, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully.

Dr. J. C. Ates: Sir. I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Veneral and Mercurial Disease. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration hadeaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla, the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffered exercicating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Dr. J. C. Aten: Sir, I have been afflicted with a painful chronic Rheumatism for a long time, which befiled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Jules V. Getchell, of St. Louis, writes: "I have been

the Liver. My belowed passier, the Rev. Nr. Espy, advised
me to try your Farsaparilla, because he said he knew yoe,
