Pinnples, Pustules, Biotches, Bolls, Bluins, and all Skin Diseases.

J. C. Arra & Co. Gents: I feel it my duty to acknowledge what your Sarapardills has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and cars with one sore, which was puinful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilia), for I knew from your reputation that any thing you made must be good. I sent to Circinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a tesspoorful over a mouth, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has grone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain over gratefully. Yours.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of Dropsy, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous attack of Melignant Ergapelas by large doses of the same; say, he cures the common Erystom by it constantly.

I have cured many inveterate cases of Leucarthoea by it, and some where the complaint was caused by sileration of the uterat. The uteration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ain, writes, "A dangerous ownian tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last revort before cutting, and it proved effectual. After taking your remely eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

New Onleans, 25th August, 1859.
Dr. J. C. Aven: Sir, I cheerfully comply with the request of your secart, and report to you some of the effects. I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Venezed and Mercurial Disease. One of my patients had Sphillitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had caten away a considerable part of it, so that I believe the disorder would soon reach his brais and kill him. But it yielded to my administration of your Sarsaparilla: the ulcers healed, and he is well again, not of course without some dissignation to his face. A woman who had been treated for the same disorder by mecury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day site suffered excurding pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkshie results with it have not surprised me. THE INSULATED FRAME preserves the original tone of the instrument in all its purity, secuing it for all time against that most disagreeable nequality of tone invariably found in all other Iron Frame Piano Fortes. It greatly strengthens the case, and thus keeps the Piano Forte much longer in tune. It gives the instrument a much fuller, richer, and sweeter tone. It adapts the Piano to al climates, and to all changes of atmosphere, and in all respects it is pronounced by our best "artistes" he greatest improvement of the age in Piano Forte construction; producing an instrument acknowledged to be superior to all others made in this country or Europe.
