THE PROGRAMME.

At the request of the Chairman of the Business Committee, we, to-day, re-publish the rogramme for the annual meeting of the Bedford co. Teachers' Association. We hope that very teacher will read it, and that those whose names occur on it as lecturers or essayists, will Miss A. L. BRIM, Teacher on Piano Forte. This intuition, under the supervision of the above named persons, assisted by other competent of the different districts of the county, and anticipate an interesting meeting. The programme is a good one, and the subjects for discussion are full of interest. We hope that the teachers will prepare themselves on the latter, and thus make the themselves on the latter, and thus make the sessions of the Association both interesting and

The deteriorating influence which the war, no doubt, exerts on all educational matters, should induce those who are now standing on the watch-towers of Education, to labor the harder and more incessantly to keep up a deep feeling of interest in the cause which they have espoused. Let the teachers remember this and let there be such a gathering of them at the time and place designated in the programme, as shall astonish the "oldest inhabitant."

Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

Oakland, Ind., 6th June, 1869.

J. C. Ayer & Co. Gents: I feel it my duty to acknowledge what your Sursparilla has done for mê. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Semetimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a tenspoonful over a month, and used almost three bottles. New and healthy skin son began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully.

Dr. J. B. S. I have cured many inveterate ease of Leucorrhea by it, and some where the complaint was caused by ulceration of the uterus. The ulceration listed was soon cared. Nothing within my knowledge equals it for these female derangements."
Edward S. Marrow, of Newbury, Ala., writes, "A dangerous overlan tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cared by your Extract of Sarsaparilla. Our physician thought untiling but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

Symptom or the classes remains."

New Onleans, 25th August, 1859.
Dr. J. C. Ayer: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Saraparilla.

I have cursed with your Saraparilla.

I have cursed with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the curs of Veneral and Mercured Disease. One of my patients had symbilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Saraparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his ness, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my alministration of your Saraparilla: the ulcers healed, and he is well again, not of course without some dissiparation to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered exeruciating pain in her joints and bones. She, too, was cared entirely by your Saraparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours. G. V. LAKIMER, M. D.
