off is with pleasure I give my testimony to the excellence of your Pianos in general, and especial-al to the admirable new invention of Mr. Lighte, ny improvement which I regard as the most impor-tant yet made in the manufacture of first-class intruments.

"LOUIS ERNST." "I take pleasure in stating my favorable opin-ion of your New Scale Iron Frame Piano Fortes. Among many superior Piano Fortes manufactured in New York, they certually must rank second to none of them for strength, purity, and richness of tone, together with extraordinary vibratory quali-ties. I have also had frequent opportunities, in the schools, during the past four years, to notice the durability of your instruments, and this under se-larability of your instruments, and this under se

"The high reputation which they have obtained or their fine brilliant tone, pleasant touch and power, have given them the preference over those of all other manufactures, in the Public Schools of New York, in which over one hundred are now i daily use; some twelve or fifteen of which departments where I have had the pleasure of ing, and where I have used them for the last five years.

"MARCUS COLBURN."

"Being pleased with your steady progress in im-proving the quality of your Pianos, I cannot refrain from saying to you, after some fourteen years knowledge of them, that the New Scale with Iron Frame, which I have seen, I think the best Piano I ever saw. I say this after having purchased over two hundred of your Piano Fortes.
