Ayer's Samaparilla

TS a concentrated extract of Para Sarsaparilla, antidote for diseases Sarsaparilla is reputed to cantile store in Bedford. cure. Such a remedy is surely wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be

Disease, Dropsy, Neuralgia, Tic Doloreux, De-billin. Duspensia and Indigestion, Erssipelas,

of the Blood. This compound will be found a great promo-ter of health, when taken in the spring, to ex-pel the foul humors which tester in the blood at that season of the year. By the timely expul-sion of them many rankling disorders are nip-ped in the bad. Multitudes can, by the aid of this remedy, spare themselves from the endu-rance of foul eruptions and ulcerous sores, thro-which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an altera-tive medicine. Cleanse out the vitiated blood whenever you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and won teclings will tell you when. Even where the vents; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, prople enjoy bet-ter health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with the papulum of life disordered, there Attest, can be no lasting health. Sooner or later something must go wrong, and the great machinery Freferads and Refatives of life is disordered or overthrown.

During late years the public have been misled by large bottles, prefending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla. but often no curative properties whatever. Hence, bitter and painful disoppointment has followed the use of the various extracts of Saresparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compund Sarsaparilla, and intend to supply such a remedy as shall rescue the name HOLLOWAY'S PILLS AND OINTMENT from the load of obloquy which rests upon it. And we think we have ground for believing it bas virtues which are irresistible by the ordinary run of the diseases it is intended to cure. Prepared by Dr. J. C. AYER & Co., Lowell,

and it the result be satisfactory, I thank as made jurymen, see shall justig render our service in jown the is a seaman, et. 26, who was admitted a flow days ago. His had occasional rheametic pains but not so as to keep his bed, antil eight days ago. The pains began in his right knee, subsequently affected the left knee, and later, the joints of the upper ex-termities. These joints are all swollen tense and tender. His tongne is furred; skin, at present, dry, though there has been much sweating. His pulse is full and strong, and chout 90, He has now used propslamine for twenty-four hours. This gentleman is what may be called a strictly typical case of acute rheumatism. There was ex-posure to cold and wet, and this exposure is follow-ed by a feeling of coldness, severe articular para, beginning as it usually does, in the lower joints. There is fever and the profuse sweating, so gener-ally attendant on acute rheumatism. I did not bring this patient before yon with the intention of giving you a lectore on all the points connected with rheumatism, but to again give a stri-al to the new remedy we are testing, and to exhibit to you this typical case, as I have called it, than which there could not be a fairer opportunity for testing the medicine in question. We are there-fore, avoiding the use of all other medicines, even anodynes, that there may be no misgivings as to which was the efficient remedy. You shall see the

anodynes, that there may be no misgivings as to which was the efficient remedy. You shall see the

TRIED AND TRUE. Pennsylvania Hospital.

(FROM OFFICIAL HOSPITAL REPORTS.)

MAY 19, 1860 .- Ellen S., mt. 28, single, never was very strong. Two years ago she had an attack of acute rheumatism, from which she was coafined to her bed for two weeks, and subsequently from a relapse for four more. She has been well since then till last Saturday; while engaged in house-cleaning she took cold, had pain in her back, feit cold but had no decided chill. Two days later her ankles began to swell, which was followed by swelling of the knee joints and of the hands. She has now dull pain in her shoulders, and her knuckles are very tender, red and painful; both hands are affected, but the right is most so. This, then, is a case of acute rheamatism, or, as it is now fashionably call-ed, rheamatic fever. It is a well marked typical case. We will carefully watch the case, and from time to time call your attention to the various symptoms which present themselves. My chief object in bringing her before you now, is to call your attention to a remedy which has recently been recommended in the treatment of rheumatism. mean propylamine. Dr. Awenarius, of St. Petersburg, recommends it in the highest terms, having derived great benefit from its use in 250 cases which came under his care. Various com nendatory teacame under his care. Various commendatory tea-timonials respecting it have appeared in our jour-nais, and I propose therefore to give it another trial. I must confesse I am always incredulous as to the worth of new remedies, which are vaunted as specifics; but this comes to us recommended so highly, that we are bound to give it a trial.

SAME CASE FOUR DAYS LATER !

MAY 23, 1860 .- I will now exhibit 10 you the patient for whom I prescribed Propylamine, and who was then laboring under an attack of acute rheumatism. She has steadily taken it in doses of three grains, every two hours, (intermitting it at night) The day after you saw her, 1 found her much mor comfortable, better than she expected to be for a week or more, judging from her other attack. (The patient now walked into the room.) The improve-ment has steaddy progressed, and you cannot fail to notice a marked change in the apparance of her joints, which are now nearly of their natural size. Thus far our experiment would have seemed very successful; but gentlemen, we must wait a little while before we car. give a decided opinion as to what is to be the result. FALL TERM COMMENCING AUG. 12TH '61.

Here is another patient who was placed on the use of the same medicine on Sunday last; she has ong been suffering fiom chronic rheumatism, and I found her at that time with an acute attack super-vening upon her chronic affectiog. The wrists and knuckles were much swollen and tense. She took the chloride of propylamine in three grain doses every two hours, and you will perceive that the swelling of the joints has much diminished.

Fourth Street, Brooklyn, E. D. PRICE, 37 CENTS PER BOTTLE. A liberal discount made to dealers. Address Principal Office, Tribune Buildings, Max 26, 1860.—This is the case of acute rheum-atism treeted with propylamine, the first of those the case of Simon L.
