SHERROR OFALS

Long marches, sore and stiff joints, blistered and inflamed feet, all these the Soldier must endure, MOTHERS, REMEMBER THIS, when your sons are grasping their muskets to meet danger, think what relief a single pat of this ALL HEALING and COOLING Salve will give to the one you love when far away from home and friends. It hardens and makes tough the feet so that they can endure great fatigue. It southes and relivers the inflamed and stiffened joints, leaving them supple, strong and vigorous, while for Subte Cuts and Gunshat Wounds

Sabre Cuts and Gunshof Wounds.

It stands unequalled, removing and preventing eve-ry vestige of inflammation and gently drawing the edges together, it quickly and completely heals the most frightful wounds.

Wives and Sisters of our Volunteers.

You cannot put into the Knapsacks of your Hus bands and Brothers, a more valuable or more neces sary gift than a supply of this

# Extraordinary Military Salve.

The lonely sentry walking his rounds at night, exposed to drenching rams and chill night air, is often seized with most VIOLENT PAINS, COUGH and SUFFOCATING HOARSENESS, first symp-toms of QUICK CONSUMPTION, but if supplied with Holloway's Pills and Holloway's OINTAIST. with HolLoway's PiLLs and HolLoway's OINTMENT, all danger is averted, a few Pills taken night and morning, and the Ointment briskly rubbed twice-a day over the throat and chest will remove the SE-VEREST PAINS and stop the most distressing and DANGEROUS COUGH. Therefore we say to the whole Armr.

## Soldiers Attention !

Soldiers Attention ! See to your own health, do not trust to the Army supplies although most valuable. These PILLS and OINTMENT have been thoroughly tested, they are the only remedies used in the European Camps and Barnicks, for over forty years Doctor Holloway has supplied all the Armies in Europe, and during the CRIMEAN CAMPAIGN he established a depat at Balaclava, for the exclusive sale of these GREAT REMEDIES, many a time his special Agent there has sold over a ton in weight of the Ontment in a single day. These terrible and fatal enemies of the SOLDIER IN CAMP.

Diarrhea, Dysentery, Scurvy, Sores & Scrofu-

lous Eruptions, all disappear like a charm before these PILLS and OINTMENT, and now while the cry rings through-out the land,

TO ARMS! TO ARMS!!

Do not let these brave men perish by disease, place in their hands these PRECIOUS REMEDIES, that will enable them to resist the dangerous expo-sures, the Fevers, the Chills, and the wounds which they cannot avoid, and what is more, cannot fresures, the Fevers, the Chills, and the wounds which they cannot avoid, and what is more, cannot fre-quently get succor in the moment of need, whereas if our brave men have only to put their hands into their Knapsacks and find a sure remedy there for all the casualties of the battle field. How many thou-sands of lives would thus be saved who would other-wise perish before relief could be obtained.

SAME CASE FOUR DAYS LATER ! Max 23, 1860.—I will now exhibit 10 you the pa-tient for whom I prescribed Propylamine, and who was then laboring under an atlack of acute rheuma-tism. She has steadily taken it in doses of three grains, every two hours, (intermitting it at might). The day after you saw her, I found her much more comfortable, better than she expected to be for a week or more, judging from her other attack. (The patient now walked into the room.) The improve-ment has steadily progressed, and you cannot fail to notice a marked change in the apparamee of her joints, which are now nearly of their natural size. Thus far our experiment would have seemed very successful; but gentlemen, we must wait a little while before we can give a decided opinion as to what is to be the result. Here is another patient who was placed on the use of the same medicine on Sunday last; she has long been suffering from chronic rheumatism, and I found her at that time whollen and tense. She took

therefore steadily given in three grain two hours for four days. The patient h very nicely, and is now able to walk a see. I do not hesitate to say that I hav to health as then make the advantage of devile the health as then and withou pared to device positively as to the value dy we have wred. DR. WM. B. HURD'S thruckles were much swollen and tense. She took the chloride of propylamine in three grain dosse every two hours, and you will perceive that the swelling of the joints has much diminished. TOOTH POWDER. This Powder possesses the CARBONIC WITHOUT THE INJURIOUS PROPERTIES OF CHARCOAL, and is free from all Acids or Alkalies that can t the least injure the Teeth.

# THREE DAYS LATER !!

THISEE DATS LATER: MAY 26, 1860.—This is the case of acute rheum-tism treated with propylamine, the first of those to which I called your attention at our last clinic. She is still very comfortable, and is now taking three grains thrice daily. In this case it has seemed to be followed by very satisfactory results. The second case to which your attention was called at our last lecture, has also continued to do well. I will now bring before you a very characteristic case of acute rheumatism, and if the result be satisfactory, I think, as good jurymen, see shall justly render our wordiet in favor of propylamine.

and if the result be satisfactory, T think, as good purposed, see shall justly render our wordict in favor it programme. He is a seaman, et. 26, who was admitted a few days ago. Has had occasional theumetic pains, but not so as to keep his bed, notil eight days ago. The pains began in his right knee, subsequently affected the left knee, and later, the joints of the upper ex-tremities. These joints are all swollen tense and tender. His tongue is forred; skin, at present, dry, though there has been much sweating. His palse is full and strong, and zbout 90. He has now used propslamine for twenty-four hours. This gentleman is what may be called a strictly typical case of acute rheumatism. There was ex-posere to cold and wet, and this exposure is follow, do y a feeling of coldness, severe articular pain, beginning as it usually does, in the lower joints. There is fever and the profuse sweating, so gener-ally attendant on acute rheumatism. I did not bring this patient before you with the inconnected with cheamatism, but to again give a tri-al to the new remedy we are testing, and to exhibit to you his typical case, as I have called it, than which there could not be a fairer opportunity for testing the medicine in question. We are, there-fore, avoiding the use of all other medicines, even anodynes, that there may be no misgivings as to which was the efficient remedy. You shall see the case at a inture clinic.
