who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found in the following complaints:--Scröfula and Scrofulous Complaints.

Scrofula and Scrofulous Complaints, Erup-tions and Eruptice Diseases, Utcers, Pimples, Blothes, Tumors, Salt Rheum, Scald Head, Syphilis and Syphilitic Affections, Merurial Lisease, Dropsy, Neuralgia, Tic Doloreux, De-billy, Dyspensia and Indigestion, Erusipelas, Rase or St. Anthony's Fire, and indeed the whole class of complaints arising from Impurity

This compound will be found a great promoter of health, when taken in the spring, to ex-pel the foul humors which lester in the blood at pet the four humors which tester in the blood at that season of the year. By the timely expuision of them many tankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of four eruptions and alterious sores, they shall the system will strive to rid their which the system will strive to rid itself of which the system will strive to rid itself of corruptions, it not assisted to do this through the natural channels of the body by an altera-tive involcine. Cleanse out the situated blood whenever you find its impurities bursting thro the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in it when you find it is constructed and stuggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where you belogs will tell you when. Even where no particular disorder is fell, people enjoy bet-ter health, and live longer, for coleansing the blood. Keep the blood healthy, and all is well; but with the papulum of ble disordered, there can be no lasting health. Sooner or later somecan be no lasting treatment thing must go wrong, and the great machinery of life is desordered or overthrown.

During late years the public have been mis-

led by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, litter and painful disappointment has followed the use of the various extracts of Saraparilla which flood the market, until the name itself is justly despised, and has become synon-ymous with imposition and cheat. Still we call this compund Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloguy which rests upon it. And we think we have ground for believing it has virtues which are irresistable by the ordina ry run of the diseases it is intended to cure. Prepared by Dr. J. C. AYER & Co., Lowell, Mass. Max 26, 1860.—This is the case of acute rheumatism treated with propylamine, the first of those to which I called your attention at our last clinic. She is still very comfortable, and is now taking three grains thrise daily.

In this case it has seemed to be followed by very satisfactory results. The second case to which your attention was called at our last lecture, has also continued to do well. I will now bring before you a very characteristic case of acute rheumatism, and it the result be satisfactory, I think, as good jurgmen, we shall justly render our verdict in fuver the conviction.

THE RESULT. A FAYORABLE VERDICT.

JUNE 9, 4860 .- The next of our convalencents i June 9, 4860.—The next of our convalencents is the case of acute rheumatism before you at our climic of May 28th, which I then called a typical case, and which it was remarked was a fair opportunity for testing the worth of our new remedy. It was therefore steadily given in three grain doses every two hours for four days. The patient has got along very nicely, and is now able to walk about, as you see. I do not hesitate to say that I have never seen as severe a case of acute rheumatism so soon restored to health as this man has been, and without being prepared to decide positively as to the value of the remedy we have used, I feel hound to state that in the cases in which we have tried the Chloride of Propylamine, the patients have regained their health much earlier than under the treatment ordinarily pursued. I wish, gentiemen, you would yourselves try it, and report the results.

For a fall report of which the above is a condensed extract, see the Philadelphia Medical and Surgical Reporter. It is the report titer a fair trial
