Scrofula and Scrofulous Complaints, Erup-

J. W. DIVELBISS. February 14, 1862.

# BEAUTIFUL COMPLEXION.

Disease, Dropsy, Neuralgii, Tic Doloreux, De-bility, Dyspepsia and Indigestion, Erysipelas, Rose or St. Anthony's Fire, and indeed the whole class of complaints arising from Impurity of the Blood. This compound will be found a great promo-ter of health, when taken in the spring, to ex-pel the foul fumors which ister in the blood at that senson of the year. By the timely expul-sion of them many rankling disorders are nip-ped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endu-

ped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endu-rance of foul eruptions and observes, theof which the system will strive to rid itself of the natural channels of the body by an altera-tive medicine. Sense out the virtated blood whenever you fine its impurities builting thro-the skin in piroples, eruptions, or sores: cleanse it when you find it is obstructed and sluggish in the skin in pimples, eruptions, or sores: cleanse it when you find it is obstructed and sluggish in the verns; cleanse it whenever it is toul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy bet-ter health, and live longer, for cleansing the blood. Keep the blood healtry, and all is well; but with the papulum of hile disordered, there can be no lasting health. Sooner or later some-thing must go wrong, and the great machinery During late vears the public have been mis-

all danger is averted, a few Pills taken night and morning, and the Ointment briskly rubbed twice a day over the throat and chest will remove the SE-VEREST PAINS and stop the most distressing and DANGEROUS COUGH. Therefore we say to the whole Aimp, whole Armr.

### Soldiers Attention !

See to your own health, do not trust to the Army stepplies although most valuable. These PILLS and OINTMENT have been thoroughly tested, they are the only remedies used in the European Camps and supplied all the Armies in Europe, and during the CRIMEAN CAMPAIGN he established a depot at Balaclava, for the archive sale of these GREAT. Balaclava, for the exclusive sale of these GREAT REMEDIES, many a time his special Agent there has sold over a ton in weight of the Ointment in a single day. These terrible and fatal enemies of the single day. These terrible and fatal enemies of the SOLDIER IN CAMP.

all disappear like a charm before these PILLS and OINTMENT, and now while the cry rings throughout the land.

### TO ARMS! TO ARMS!!

Do not let these brave men perish by disease, place in their hands these PRECIOUS REMEDIES, that will enable them to resist the dangerous expo-sures, the Fevers, the Chills, and the wounds which they cannot avoid, and what is more, cannot fre-quently get succor in the moment of need, whereas if our brave men have only to put their hands into their Knapsacks and find a sure remedy there for all the casualties of the battle field. How many thousands of lives would thus be saved who would otherwise perish before relief could be obtained.

CAUTION.—None are genuine unless the words "Hollowar, New York and Lowdow," are dis-cernible as a Water-mark in every leaf of the book of directions around each pot or box; the same may be plainly seen by holding the leaf to the light. # A SPEEDY CURE, AN EFFECTUAL CURE. THE SAME RESULT IN EVERY CASE, WHENEVER TRIED, WHEREVER TRIED. HUNTINGBON & BROAD TOP R. R. WHAT IT HAS DONE, II WILL DO AGAIN.

<sup>77</sup> P<sup>3</sup> w after you saw her, 1 found a He is a striger than she expected days age. His but from her other stract not so as to keep his betty some.) The imp-pains began to his right knee, so cannot fail the left knee, and later, the joints of cannot fail tremities. These joints are all swollen tells her trender. His tongue is furred; skin, at present, dry, though there has been much sweating. His pulse is full and strong, and a bout 90. He has now used propriations for twenty-four hours.

used propalamine for twenty-four hours. This gentleman is what may be called a strictly typical case of acute rheumatism. There was ex-

00

typical case of acute rheumatism. There was ex-posure to cold and wet, and this exposure is follow-ed by a feeling of coldness, severe articular pain, beginning as it usually does, in the lower joints. There is fever and the profuse sweating, so gener-ally attendant on acute rheumatism. I did not bring this patient before you with the intention of giving you a lecture on all the points connected with rheumatism, but to again give a tri-al to the new remedy we are testing, and to exhibit to you this typical case, as I have called it, than which there could not be a fairer opportunity for testing the medicine in question. We are, there-fore, avoiding the use of all other medicines, even anodynes, that there may be no misgivings as to which was the efficient remedy. You shall see the case at a inture clinic.

THE RESULT.

A FAVORABLE VERDICT.

the case of acute theumatism before you at our clin-ic of May 26th, which I then called a typical case,

and which it was remarked was a fair opportunity for testing the worth of our new remedy. It was

therefore steadily given in three grain doses every two hours for four days. The patient has got along very nicely, and is now able to walk about, as you see. I do not hesitate to say that I have never seen as severe a case of acute rheumatism so soon restored to health as this man has been, and without being pre-

to health as this man has been, and without leing pre-pared to decide positively as to the value of the reme-dy we have used. I feel bound to state that in the cases in which we have tried the Chloride of Propylamine, the patients have regained their health much earlier than under the treatment ordinarily pursued. I wish, gentlemen, you would youmelves try it, and report the results. For a full report of which the above is a con-densed extract, see the Philadelphia Mcdical and Surgical Reporter. It is the report titer a fair trial by the best medical authority in this country, and makes it unnecessary to give numerous certificates from astonished doctors and rejoicing patients. A SPEEDY CURE.

JUNE 9, 1860 .- The next of our convalescents is

case at a inture clinic.

Bullock and Crenshaw, a firm well known to most medical men, by whom the Elixir Propylamine has been introduced, have sold to us the exclusive right to manufacture at according to the original recipe, and we have made arrangements of such magnitude as to enable us to scatter it broadcast amongst suf eriors humanity. ering humanity.

DOCTORS READ,

DOCTORS KNOW IT, PATIENTS BELIEVE IT,

TRIED AND TRUE.

Max 19, 1860.-Ellen S., æt. 28, single, never was very strong. Two years ngo she had an attack of acute theumatism, from which she was coafined to her be4 for two weeks, and subsequently from a relapse for four more. She has been well since then relapse for four more. She has been well since then till last Saturday ; while engaged in honse-cleaning she took cold, had pin in her back, felt cold but had no decided chill. Two days later her ankles began to swell, which was followed by swelling of the knee joints and of the bands. She has now dall pain in her shoulders, and her knuckles are very broder eat and mainful both bands are affected pain in her shoulders, and her abovates are very tender, red and painful; both bands are affected, bot the right is most so. This, then, is a case of acute rheumatism, or, as it is now fashionably call-ed, rheumatic tever. It is a well marked typical case. We will carefully watch the case, and from time to time call your attention to the various symptoms which present themselves. My chief hint is beinging ber bafers not now is to call object in bringing her before you now, is to call your attention to a remedy which has recently been recommended in the treatment of rheumatism. I mean propylamine. Dr. Awenarius, of St. Peters-burg, recommends it in the highest terms, having derived great benefit from its use in 250 cases which large. came under his care. Various commendatory tes-timonia's respecting it have appeared in our journals, and I propose therefore to give it another trial. I must confesse I am always incredulous as to the worth of new remedies, which are vaunted as specifics: but this comes to us recommended so highly. that we are bound to give it a trial.

# SAME CASE FOUR DAYS LATER! Max 23, 1860 .- I will now exhibit 10 you the pa

tient for whom I prescribed Propylamine, and who tism. She has steadily taken it in doses of three grains, every two hours, (intermitting it at night). The day after you saw her, 1 found her much more comfortable, better than she expected to be for a comfortable, better than sub expected to be for week or more, judging from her other attack. (The patient now walked into the room.) The improve-ment has steadly progressed, and you cannot fail to notice a marked change in the apparance of her joints, which are now nearly of their natural size. Thus far our experiment would have seemed very memory of the morteman we must wait a little successful; but gentlemen, we must wait a little while before we car. give a decided opinion as to what is to be the result.

what is to be the result. Here is another patient who was placed on the use of the same medicine on Sunday last; she has long been suffering from chronic rheumatism, and I found her at that time with an acute attack super-vening upon her chronic affectiog. The-wrists and knuckles were much swollen and tense. She took the chloride of providentiation in the grain duese the chloride of providentiation of the same metal, may be cultivated—Calisthen-ic evere ses are necessary—here the Stadents meet each day for systematic physical exercise. S22.50 Will pay for board, including fur-nished rooms, room rent, fuel and tuition in common English, per term of eleven weeks. Extras, at moderate charges, even less the able of the same metal, may be cultivated—Calisthen-ic evere ses are necessary—here the Stadents S22.50 Will pay for board, including fur-tuition in common English, per term of eleven weeks. Extras, at moderate charges, even less the able of the same metal is the same set of the charges is the same set of the same bereformed to the same set of the same set o the chloride of propylamine in three grain doses every two hours, and you will perceive that the swelling of the joints has much diminished.

# THREE DAYS LATER !!

May 26, 1860 .- This is the case of acute rheumatism treated with propylamine, the first of those to which I called your attention at our last clinic. She

satisfactory results. The second case to which your attehtion was called at our last lecture, has also continued to do well. 1 will now bring before January 10, 1802.

# DOWNER'S

PATENT HEMMER AND SHIELD. . FOR HAND SEWING.

Is pronounced by all who have used it "just the thing?' for those using the needle, as it completely protects the finger, and makes a neat and uniform hem while the operator is sewing. One half the labor of sewing is saved by using this

Remarkably Simple and Novel Invention. No lady should be without it. It is also "just the hing" for girls to use learning to sew. Its remarkable cheapness brings it within reach of

the million. Sample sent by mail on receipt of price,

### 25 CENTS,

Descriptive Circulars furnished on application. A liberal Discount to the Trude.

Enterprising Agents (wanted in every town and county throughout the United States and Canada,) will find most profitable employment in selling this useful article, as it meets with ready sales wherever offered-has no competition-and profits are very

\$150 Per Month can be Realized.
