

ELIXIR PROPYLAMINE,

THE NEW REMEDY FOR RHEUMATISM. A NEW REMEDY, FOR A CERTAIN REMEDY, FOR ACUTE RHEUMATISM, CHRONIC RHEUMATISM, RHEUMATISM OF EVERY KIND, NO MATTER HOW STUBBORN, PROPYLAMINE WILL CONQUER IT, WILL CURE IT.

WHAT IT HAS DONE, IT WILL DO AGAIN. DOCTORS READ, DOCTORS EXAMINE, DOCTORS TRY IT.

THE BEST TESTIMONY, BEST MEDICAL AUTHORITY. DOCTORS KNOW IT, PATIENTS BELIEVE IT, TRIED AND TRUE.

Pennsylvania Hospital.

(From Official Hospital Reports.)
May 19, 1860.—Ellen S., et. c. single, never was very strong. Two years ago she had an attack of acute rheumatism, from which she was confined to her bed for two weeks, and subsequently from a relapse for four more. She has been well since then till last Saturday; while engaged in house-cleaning she took cold, had pain in her back, it could not be decided child. Two days later her ankles began to swell, which was followed by swelling of the knee joints and of the hands. She has now dull pain in her shoulders, and her knees are very tender, red and painful; both hands are affected, but the right is most so. This, then, is a case of acute rheumatism, as it is an attack of rheumatism, rheumatic fever. It is a well marked typical case. We will carefully watch the case, and from time to time call your attention to the various symptoms which present themselves. My chief object in bringing her before you now, is to call your attention to a remedy which has recently been recommended in the treatment of rheumatism. I mean propylamine. Dr. Avenarius, of St. Petersburg, recommends it in the highest terms, having derived great benefit from its use in 250 cases which came under his care. Various commendatory testimonials respecting it have appeared in our journals, and I propose to give another trial. I must confess I am always incredulous as to the worth of new remedies, which are vaunted as specifics; but this comes to us recommended so highly, that we are bound to give it a trial.

SAME CASE FOUR DAYS LATER!

May 23, 1860.—I will now exhibit to you the patient for whom I prescribed Propylamine, and who was laboring under an attack of acute rheumatism. She has steadily taken it in doses of three grains, every two hours, (intermitting it at night). The day after you saw her, I found her much more comfortable, better than she expected to be for a week or more, judging from her former attack. (The patient now walked into the room.) The improvement has steadily progressed, and you cannot fail to notice a marked change in the appearance of her joints, which are now nearly of their normal size. Thus far our experiment would have seemed very successful; but gentlemen, we must wait a little while before we can give a decided opinion as to what it is to be the result of this treatment.

Here is another patient who was placed on the use of the same medicine on Sunday last; she has long been suffering from chronic rheumatism, and I found her at that time with an acute attack supervening upon her chronic affection. The wrists and knees were much swollen and tender. She took the chloride of propylamine in three grain doses every two hours, and you will perceive that the swelling of the joints has much diminished.

THREE DAYS LATER!!

May 26, 1860.—This is the case of acute rheumatism treated with propylamine, the first of those to which I called your attention at our last clinic. She is still very comfortable, and is now taking three grains thrice daily.

In this case it has seemed to be followed by very satisfactory results. The second case to which your attention was called at our last lecture, has also continued to do well. I will now bring before you a very characteristic case of acute rheumatism, and if the result be satisfactory, I think, as good judgesmen, we shall justly render our verdict in favor of propylamine.

He is a seaman, et. 26, who was admitted a few days ago. He has had occasional rheumatic pains, but not so as to keep him bed-ridden. On the 21st of May he began in his right knee, subsequently affected the left knee, and later, the joints of the upper extremities. These joints are all swollen and tender. His tongue is furred; skin, at present, dry, though there has been much sweating. His pulse is full and strong, and about 90. He has now used propylamine for twenty-four hours.

This gentleman is what may be called a strictly typical case of acute rheumatism. There was exposure to cold and wet, and this exposure was followed by a feeling of coldness, severe articular pain, beginning as it usually does, in the lower joints. There is fever and the profuse sweating, so generally attendant on acute rheumatism.

I did not bring this patient before you with the intention of giving you a lecture on all the points connected with rheumatism, but to again give a trial to you this typical case, as I have called it, in which there could not be a fairer opportunity for testing the medicine in question. We are, therefore, avoiding the use of all other medicines, even anodynes, that there may be no misgivings as to what was the efficient remedy. You shall see the case at a future clinic.

THE RESULT.

A FAVORABLE VERDICT.

June 9, 1860.—The next of our convalescents is the case of acute rheumatism before you at our clinic of May 26th, which I then called a typical case, and which it was remarked was a fair opportunity for testing the worth of our new remedy. It was therefore steadily given in three grain doses every two hours for four days. The patient has got along very nicely, and is now able to walk about, as you see. I do not hesitate to say that I have never seen as severe a case of acute rheumatism so soon returned to health as this man has had, and without having prepared to decide positively as to the value of the remedy we have used, I feel bound to state that in the cases in which we have tried the Chloride of Propylamine, the patients have regained their health much earlier than under the treatment ordinarily pursued. I wish, gentlemen, you would yourselves try it, and report the results.

For a full report of which the above is a condensed extract, see the Philadelphia Medical and Surgical Reporter. It is the report of a fair trial by the best medical authority in the country, and makes it unnecessary to give numerous certificates from astonished doctors and rejoicing patients.

A SPEEDY CURE, AN EFFECTUAL CURE, THE SAME RESULT IN EVERY CASE, WHENEVER TRIED, WHEREVER TRIED.

WHAT IT HAS DONE, IT WILL DO AGAIN.

Bullock and Crenshaw, a firm well known to most medical men by the name of the Eliza Propylamine has been introduced, have sold to us the exclusive right to manufacture it according to the original recipe, and we have made arrangements of such magnitude as to enable us to scatter it broadcast amongst suffering humanity.

A WORD TO DOCTORS.

If you prefer to use the same remedy in another form, we invite your attention to the Pure Crystallized Chloride of Propylamine, Pure Propylamine Liquid, Pure Propylamine Concentrated, of which we are the sole manufacturers.

We claim no other virtue for the Elixir Propylamine than is contained in Pure Crystallized Chloride of Propylamine.

THE ELIXIR IS MORE CONVENIENT, AND ALWAYS READY FOR IMMEDIATE USE.

AND MAY BE TAKEN ACCORDING TO DIRECTIONS, BY ANY ONE, BY EVERY ONE, WHO HAS RHEUMATISM OF ANY KIND AT 75 Cts. a Bottle.

THE SOLDIER'S TRUE FRIEND. ALWAYS READY. HOLLOWAY'S OINTMENT.

Long marches, sore and stiff joints, blistered and inflamed feet, all these the Soldier must endure. REMEMBER THIS, when your feet are grasping their muskets to meet danger, think what relief a single pot of this ALL HEALING and COOLING Salve will give to the one you love when far away from home and friends. It hardens and makes tough the feet so that they can endure great fatigue. It soothes and relieves the inflamed and stiffened joints, leaving them supple, strong and vigorous, while for

Sore Cuts and Gunshot Wounds, It stands unequalled, removing and preventing every vestige of inflammation, and gently drawing the edges together, it quickly and completely heals the most frightful wounds.

Wives and Sisters of our Volunteers. You cannot put into the Knapsacks of your Husbands and Brothers, a more valuable or more necessary gift than a supply of this

Extraordinary Military Salve. The lonely sentry walking his rounds at night, exposed to drenching rain and chill night air, is often seized with most VIOLENT PAINS, COUGH and SUFFOCATING HOARSENESS, first symptoms of QUICK CONSUMPTION, but if supplied with Holloway's Pills and Holloway's Ointment, all danger is averted, a few Pills taken night and morning, and the Ointment briskly rubbed twice a day over the throat and chest, will remove the SEVEREST PAINS and stop the most distressing and DANGEROUS COUG. I therefore wish you to try the whole Army.

Soldiers Attention! See to your own health, do not trust to the Army supplies although most valuable. These PILLS and OINTMENT have been thoroughly tested, they are the only remedies used in the European Camps, and have, for over forty years, Doctor Holloway has supplied all the Armies in Europe, and during the CRIMEAN CAMPAIGN he established a depot at Balaklava, for the exclusive sale of these GREAT REMEDIES, many a time his special Agent there has sold over a ton in weight of the Ointment in a single day. These terrible and fatal enemies of the SOLDIER IN CAMP, Diarrhea, Oxydery, Scurvy, Sores & Scrofulous Eruptions, all disappear like a charm before these PILLS and OINTMENT, and now while the cry rings through out the land,

TO ARMS! TO ARMS! Do not let these brave men perish by disease, place in their hands these PRECIOUS REMEDIES, that will enable them to resist the dangerous exposures, the Fevers, the Chills, and the wounds which they cannot avoid, and what is more, cannot frequently get succor in the moment of need, whereas if once they have only to put their hands into their Knapsacks and find a sure remedy there for all the casualties of the battle field. How many thousands of I wish would be saved who would otherwise perish before relief could be obtained.

CAUTION.—None are genuine unless the words "Holloway's New York London," are discernible as a Water-mark in every leaf of the book of directions around each pot or box; the same may be plainly seen by holding the leaf to the light. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

* Sold at the Manufactory of Professor Holloway, 80 Maiden Lane New York, & by all respectable Druggists and Dealers in Medicine, through out the civilized world, in boxes at 25 cents, 62 cents, and \$1 each.

† There is considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

FINKLE & LYON SEWING-MACHINE CO.,

538 BROADWAY, NEW-YORK.

NO person who contemplates purchasing a Sewing Machine for family or manufacturing purposes should fail to send for one of our Circulars, which contains cuts and full descriptions of the several styles, prices and samples of work, all of which we send by mail free. We claim to have the

BEST SEWING MACHINES IN THE WORLD. For either Family or Manufacturing Purposes. And all we ask is a fair trial. Read the following: IMPORTANT FACTS.

FACT No. 1.—This Company being duly licensed, their Machines are protected against infringement of litigation.

FACT No. 2.—These Machines make the lo-istitch—like on both sides—and use a little less than half as much thread and silk as the chain or loop-stitch machines.

FACT No. 3.—These Machines are better adapted than any other sewing-machines in market to the frequent changes and almost endless variety of sewing required in a family. They will sew from one to twenty thicknesses of Marcellise without stopping, and make every stitch perfect. They will even sew from the finest gauze to the heaviest cloth, and even stout, hard leather, without changing the feed, needles, or tension, or making any adjustment of machine whatever.

Is not such a machine best adapted to family use? and if best adapted to family use, why not for every variety of light sewing manufacture? For work too heavy for our Family Machine, we recommend our larger sizes.

FACT No. 4.—These Machines make the most elastic seam of any sewing-machine in use—a fact of very great importance in sewing elastic goods, or goods of any kind, or a bias.

FACT No. 5.—No Machine is more durable or more simple in its construction, or more easily understood. The reputation of these Machines wherever used will fully demonstrate each of the above facts.

FACT No. 6.—These Machines took the Highest Premium at the Franklin Institute, Philadelphia.

FACT No. 7.—These Machines took the Highest Premium at the New Jersey State Fair.

FACT No. 8.—These Machines took the Highest Medal at the American Institute, in the City of New York, together with the Highest Premium for fine Sewing-Machine Work.

FACT No. 9.—These Machines took both the Highest Premiums at the Mechanics' Fair, Utica.

FACT No. 10.—These Machines can do the same thing generally, whenever properly exhibited in competition with other first-class Sewing Machines. But we have space for only one fact more—it is the most important fact of all.

FACT No. 11.—We warrant every Machine we sell to give better satisfaction than any other Sewing Machine in market, or money refunded.
