The Coming State Convention.

The Democracy of the State, are called fices of Auditor General and Surveyor General, and will, doubtless, give expression to its views upon the momentous questions raised by the inauguration and prosecution of the present unhappy war. We have no doubt that a platform of principles will be erected by that body, on which all true, conservative, constitutional union men can safe ly stand. It will be the duty of the convention, as the representatives of a people iled, to make a free and bold declaration of the political doctrines which have heretofore ensured, in their results, alike the protection of the citizen and the stability of the government. It behooves Democrats, in this darkest hour of the trial of republican institutions, to proclaim anew the principles of the fathers and thus to take a firm and defiant position in favor of the rights of the citizen and in opposition to the centralization of power at the Federal Capital. That fallacious and dangerous doctrine which holds that officials and presidential satraps are the rulers and masters of the people, instead of their agents and servants, and that the will of those appointed to execute the law, ple, to rebuke and make war upon this monstrous idea. It is for the Democracy to deidol of a deluded and besotted majority. It is the time the operation was performed, she visited one of her neighbors and partook of a in the sunlight of liberty. And when the long, almost interminable record of the dark and disgraceful deeds of the present Administration shall have been gone over, its enormities exposed and denounced and their authors held up to merited execration and scorn, we would appeal to the people to come to the rescue, to rise in their might against the corruption, fraud and tyranny which rule the day and to hurl from power the political knaves and statesmen charlatans who have already steered the ship of state too long toward the Scylla of Northern Negroism.

Unsophisticated people and those who are fond of being "led by the nose," are horrified at the idea of any body suspecting Mr. Lincoln of being an abolitionist. These amiable creatures will hardly refuse to credit lowing remark made by Owen Lovejoy, an

It is conceded by all that perilous times are upon us. The inquiry naturally arises, whence come they? A slight pause, a little reflection would point to the corruptness of our public men. Another question presents itself. Has not the time arrived when the people should set themselves firmly against the spirit of political demagogue-lam, by having the office seek the man, instead of the infamous practice of using any and every dishonorable means to secure the success of persons unfit for the stations they seek? Washington, June 11 .- Advices received at the War Department state that Jackson's army the war Department state that Jackson's army attacked Gen. Shields' advance on Monday morning, near Port Republic. The conflict is said to have been maintained for four hours by about 2,000 of our men against the main body

Conrad's Store. As soon as this was effected the enemy in turn retired. The fighting is said to have been very severe and the loss heavy on both sides. No particulars have reached the

Department.

A private letter states that General Shields had previously succeeded in destroying a large quantity of supplies belonging to the rebels, found at Milford and at Conrad's Store.

The damage by the recent rains, including the carrying away of bridges over the south branch of the Shenandoah river, materially interfered with the commissariat arrangements and the movements of troops.

DETAILS OF THE BATTLE AT PORT REPUBLIC. LURAY, VA., via Washington, June 10.—Col. Carroll, commanding the Fourth brigade, consisting of the Eighty-fourth Pennsylvania, Eleventh Pennsylvania, Seventh Indiana and first Virginia regiments, altogether about 1600 strong, reached Port Republic on Sunday. He immediately reconncitered and found the enemy in

the town, and a skirmish ensued.

Col. Carroll concluded to hold the bridge, and ordered it not to be burned, putting guns in po-sition commanding it. The night was passed quietly, but at six o'clock on Monday morning he was opened upon by some twenty heavy guns which the enemy had put in position during the

Our forces then tried to reach the bridge repeatedly, to destroy it, but were met by storms of bullets, and had to retire. A large cavalry force then crossed and attacked our troops, while their infantry followed, our men opposing them at every step, often driving them back with Our numbers, however, even after heavy loss. Tyler's Third brigade arrived, were much inferior to the enemy, his force being at least five to one, and our position became unten-

Colonel Carroll, discovering the force of the enemy to be so overwhelming, ordered his command to fall back, our men fighting every foot of the way. After falling back some three or four miles, a body of cavalry were sent to attack us, but were received in such a manner as to compel them to retire, when the engagemen ended, having lasted about five hours.

Our loss in killed and wounded is not known Our loss in killed and wounded is not known, but it is large, as is also that of the enemy.—We lost a considerable number of prisoners.

Col. Carroll's horse fell during the fight, injuring him badly. Capt. Reilly, of Gen. Shields' staff, was badly injured in the head. He re-ceived praise from all for his gallant bearing during the fight.

Col Buckley, of the Twenty-ninth Ohio, was badly wounded. His men charged three times to get possession of him, but he was carried off

Gen. Ashby, of the cavalry notoriety, was positively killed during the fight at the bridge over Middle river, as we learn from prisoners taken. This was one of the most hotly of tested fights of the whole war, as indicated the loss compared with the numbers engaged. The men on both sides fought like demons.— Capt. Keogh charged with a body of cavalry and held the bridge for-a considerable time un-der a considerable storm of grape.
