

DEMOCRATIC MEETING!

The Democracy of Bedford county will as-mble in Grand Mass Meeting, at the Court House, in Bedford, on MONDAY EVENING

Court week, November 17th. The object of the meeting is to celebrate the imph of the Democracy in the verdict ren-red by the people on the political issues pre-nted at the late election, as well as to push on a grand column of Democracy in the verdict rensented at the late election, as well as to push on the grand column of Democracy, until fanati-ciam, negroism, and all other isms are crushed and the Union, if possible, restored. The Democratic council fires are burning brightly. Need we say, turn out? No! The masses are right and will be there. J. W. LINGENFELTER,

Soldiers Vote and All.

We are indebted to the Somerset Herald & Whig, the Republican organ in Somerset, for the subjoined table, which shows the result for Congress in the district, with the army vote counted in, to be 143 majority for Coffroth, the Democratic candidate. The Abolitionists died in great agony on the Congress question, but they had to "pog out," willing, or unwilling. After looking at the following figures, will the Inquirer man still attribute the defeat of 'little Neddy,' to that patent fact of his, that the "Abolition ists" are all in the army?

Mr. Buchanan's Letter. We publish, on our first page, the letter of Ex-President Buchanan, in reply to some statenents recently made public by Gen. New York, New Jersey and Illinois Democratic by Overwhelming Majorities!

Who are the Traitors Now?

Democrats, rejoice ! The clouds are breaking ! The blue sky of the Union appears beyond ! The scroll of the Constitution is once more un rolled to gladden the sight of patriots' eyes! Let us rejoice and thank the good Providence that has vouchsafed us this happy dispensation Heaven be blessed there is hope for our country, at least, as against the horrors and terrors of Abolition. The following returns are enough to inspire the gloomiest mind with brighter anticipations for the future:

NEW YORK.

New York city gives 31,774 majority for Seymour, the Democratic candidate for Governor, elects an entire Democratic delegation to Congress, among whom are Fernando Wood, Benjamin Wood and James Brooks, who were ounced and traduced as "Secessionists" and traitors, from the beginning of the war until the night of the election. Every ward in the city is Democratic. A pretty commentary, truly, on Greely, Raymond, Beecher & Co.

The State of New York elects Horatio Sey our, Democrat, Governor, by a majority of from 12,000 to 15,000 over Wadsworth, Abolitionist! Nineteen Democrats and twelve' Abolitionists have been elected to congress, being a Democratic gain of nine members. The patriot, Fillmore, has been sustained, and the renegade and demagogue, Dickenson, has been re-pudiated. The issue was square in the Empire State, between the friends and enemies of the freedom of the press, freedom of speech, the right of trial by jury and the writ of Habeas Corpus, Constitutional liberty and the Union as it was, and the verdict of this great state, that heaven, is in favor of the right.

NEW JERSY, "True blue," elects Joel Parker, Democrat Governor, by 10,000 majority, four Democrats and one Abolitionist to Congress and a Demo-cratic legislature. Hurrah for New Jersey. ILLINOIS

has elected eight Democrats to Congress, by dis tricts, to five Abolitionists. J. C. Allen, Democratic Candiaate for Congress at large, has carried the State, but his majority is not yet as certained. Illinois is largely Democratic. WISCONSIN

Sends two Democrats and three Abolitionists to Congres, as far as heard from, with one district in doubt. The two members elected are Democratic gains. The Democrats have made large gains in the popular vote in this state. and it is believed that we have carried it.

MINNESOTA. This State is reported Democratic. We have no reliable or full returns, but what reports we have are very favorable to the Democrats.

- MICHIGAN.

The Abolition majority in the State has been greatly reduced and may be whittled down to fear for his safety, as he is in the care of the othing by the full returns. We have rumors concerning the result. DELAWARE.

THE COUNTY INSTITUTE.

The executive committee of the Bedford County Teachers' Association met at St. Clairsville, on Wednesday evening, November 5, 1862.

On motion, the following preamble and colution were unanimously agreed to: Whereas, various circumstances combine

to make the Holidays an unfavorable time for holding a successful Institute; and where-as, information from different parts of the county leads your committee to suppose that the attendance at such Institute would be unusually small; Therefore, Resolved, That the executive committee

commend that no Institute be held during the coming holidays, but that the associa tion hold its next meeting on Friday and Saturday, the 13th and 14th of April, 1863. On motion, the following address was or-

their course carefully, and taken such steps as seem to them best calculated to promote the great cause for which the association was organized.

These are times in which education, or, indeed, any of the ordinary pursuits and in-terests of life command but little attention. Solicitude on account of our national froubles absorbs every other feeling; and neither teachers nor others are giving the same hearty attention to the work in which they are engaged as formerly. This feeling alone would, it is thought, make an Institute, during the coming holidays, a doubtful experiment; but other reasons point to the same

conclusion. Many, indeed nearly all, of the teachers ho attend the annual Institute and take an active part in its proceedings, are no longer in the county. A number of important places in our program of exercises have thus become vacant. Your committee have not been able to procure lecturers from abroad as they were instructed and confidently ho-ped to do. In some parts of the county the salary has been reduced-a fact to be deprecated by every friend of free schools .-The expense of attending the Institute will be greater than usual, owing to the action last winter with reference to gratuitous entertainment. The amendments to the school haw passed last winter, oblige teachers to keep up semi-monthly District Institutes, and many teachers will feel that this is as much as they can, in such times as these afford to do. As Christmas and New Year come in the middle of the week, and as the schools are nearly all dismissed on these days, a week's vacation besides for the Institute would cause more than usual inter-ference. It need only be added, that the County Superintendent, who has, during his recent examining tour, seen and conversed with nearly all the teachers in the county, cordially agrees with your committee in their recommendation.

But while your committee earnestly re-

Cessna's Separation Bill. We find the following in the Somerset Herald & Whin of the 5th inst .:

"The State has gone for the Breckenridgers by about 3,000 majority. The official returns have not yet been received. In the Legislature, he locos have a majority of one on joint ballot, have not yet been received. In the Legislature, the locos have a majority of one on joint ballot, which gives them a United States Senator in place of Wilmot; provided they can stick to-gether. Hon. John Cessna's "Separation bill" has borne early and glorious fruit for his party, as had this district not been divided, we would have elected a Republican member for Bedford, which would have eiter us a majority a interwhich would have given us a majority on joint ballot, and a United States Senator. The Re-publicans of Bedford who voted for Cessna last ar, must feel jubilant over the result of their section of their own candidate. The eighty, reso, Republicans of this county who were wheedled into betraying McPherson by voting for Coffroth, have also much reason to congrat-ulate themselves, as a glance at the returns will hate themselves, as a glance at the returns will how them that the change of their votes defeat-it McPherson and elected Coffroth. Will men never learn the importance of a few votes? The defection of a few votes in Bedford last year, and Somerset this, has lost us a United States Senator and a Congressman."

There is some truth in the above paragraph, ind yet the whole truth is far from being given. It is true that "Mr. Cessna's "Separation Bill" has borne early and glorious fruit for his party," but it is not true that, "had this district not amor for restord. All half by the analysis of the analysis of the member elect from Somerset, is a out 1000, whilst the majority for Mr. Cesena a the county, is 1209. Thus, it will be seen, the the two counties remained connected as a genries, D. Germa would have been returned in which the former were completely victorious.

The contest in this state was unexpectedly close, owing to the introduction of Federal bay onets in the Democratic districts. The election is represented to have been a mere farce. Not-

withstanding, according to the Philadelphia Journal, the Democrats have carried the State by a small majority.

MISSOURI.

In this state the people are under military rule and the election, we presume has gone by default, as in Maryland, for the last two years. It is said that F. P. Blair, Rep., (brother of the P. M. General) has been beaten for Congress in St. Louis.

MASSACHUSETTS.

After the accounts from enslaved Dol aware, Missouri comes with appropriate fitness the story of that old political harlot, Massachusetts. But even upon her sterile soil, the conservative plant has taken root. One Abolitiouist wa defeated for Congress. The state has gone for the Abolitionists, at was expected, but by a largely decreased majority.
