Children one much of their Sickness to Colds.—
No matter where the disease may appear to be seated, its origin may be traced to suppressed perspiration or a Cold. Crames and Lung Complaints are direct products of Colds. In short Colds are the harbingers of half the diseases that afflict humanity, for as they are caused by checked perspiration, and as five-eights of the waste matter of the body escapes through the pores, if these pores are closed, that portion of diseases necessarily follows. Keep clear, therefore, of Colds and Coughs, the great precursers of diseases, or if contracted, break them up immediately, by a timely use of Mudame Porter's Curative Balsam. Sild by all Druggists, at 13 cents and 23 cents per bottle.
