POWDERS.

THESE Powders have proved, after a trial of several years, to be superior to any preparation of the kind in use. The chief superiority of these Powders arises from the fact that they are composed of medicanes that have Laxative, Tonic and Paratyning properses: The laxative ejects crudities from the stomach and intestines, the tonic gives strength to the system of the Horse, and the putifying medicines contained in them ceanse the blood, and lay the foundation for a vigorous and healthy circulation. Thouse of them improves the wind, strengthens the appearance, vigor and spirit of this noble animal.

These powders are not intended, as most powders are, to bloat the animal, so as to give him the appearance of being fat when not really so—but, to remove the disease and premote his general health.

These powders will strengthen the stomach and firestines, cleanse them from offensive matter, and bring them to a healthy state. They are a sure provention of Long Fever, and a certain remady for all diseases incident to the Horse, as Glanders, Yellow Water, Histempers, Founder, tleaves, Slavering, Coughs, Pevers, Loss of Appetite and Vita Energy, 8c.—These Powders, if used two ot three times a week, through the winger and apring, your horse will sever get the Lung Fever, Colic or Botts. A few doses of these powders will remove the worse cough, on any horse. Were owners of horses to lead a few of three powders very year, they might save the lives of many valuable horses.

MILCH COWS.

The properties this newder pussesses in increasing the quantity of milk in cowrs, gives it an importance and value which about place it in the hands of every person keeping a cow. In fattening cattle, it gives them an appetite, losses their hide, and makes them thrive much faster. HOGS.
