CELEBRATED HORSE AND CATTLE POWDERS.

HESE Powders have proved, after a trial of several years, to be superior to any preparation of the kind in use. The chief superiority of these Powders arises from the fact that they are composed of medicines rhat have Laxative, Tonic and Purifying properties The laxative piects crudities from the stemach and intestines, the tonic gives strength to the system of the Horse, and the purifying medicines contained in the moleanse the blood and the purifying medicines contained in them cleanse the blood, and lay the foundation for a vigorous and healthy circulation. The use of them improves the wind, stiengthens the appetite and gives the horse a fine, amouth and glossy skin—thus improving the appearance, vigor and spirit of this noble animal.

These powders are not intended, as me

These powders are not intended, as most powders are, to bloat the animal, so as to give him the appearance of being fat when, not really so—but, to remove the disease and promote his general health.

These powders will strengthen the stomach and intestines, cleanse them from offensive matter, and bring them to a healthy sate. They are a sure prevention of Lung Fever, and a certain remedy for all diseases incident to the Horse, as Glanders, Yellow Water, Distempers, Founder, Heaves, Slav-ering, Coughs, Fevers, Loss of Appetite and Vital Energy, &c.—These Powders, if used two or three times a week, through the win-

two or inree times a week, through the winter and spring, your horse will never get the
Lung Fever, Coic or Botts. A few doses of
these powders will remove the worst cough,
on und horse. Were owners of horses to
feed a few of these powders every year, they
wight have the lives of many valuable horses.

MILCH COWS. The properties this powder possesses in in-ereasing the quantity of milk in cows, gives it an importance and value which should place it in he hands of every person keep-

ing a cow. In fattening cattle, it gives them an appetite, loosens their hide, and makes them thrive much faster. HOGS

In all diseases of swine, as coughs, ulcers in the lungs and liver, &c., by putting from balf a paper to a paper of these powders in a barrel of swill, the above diseases can be cured or entirely prevented. By using these powders the hog cholera can be prevented.
