## FOUTZ'S CELEBRATED HORSE AND CATTLE

POWDERS. . THESE Powders have proved, after a trial of several years, to be superior to any preparation of the kind in use. The chief superiority of these Powders arises from the fact that they are composed of medicines rhat have Laxative, Tonic and Purifying properies: The laxative ejects crudities from the stomach and intestines, the tonic

gives strength to the system of the Horse, and the purifying medicines contained in them cleanse the blood, and lay the foundation for a vigorous and healthy circulation. The use of them improves the wind, stiengthens the appetite and gives the horse a fine, smooth and glossy skin-thus improving the appearance, vigor and spirit of this noble

These powders are not intended, as most powders are, to bloat the animal, so as to give him the appearance of being fat when

not really so—but, to remove the disease and promote his general health. These powders will strengthen the stomach and intestines, cleanse them from offen-sive matter, and bring them to a healthy state. They are a sure prevention of Lung Fever, and a certain remedy for all diseases incident to the Horse, as Glanders, Yellow Water, Distempers, Founder, Heaves, Slavering, Coughs, Fevers, Loss of Appetite and Vital Energy, &c.—These Powders, if used two or three times a week, through the winter and spring, your horse will gover get the ter and spring, your horse will never get the Lung Fever, Coic or Botts. A few doses of these powders will remove the worst cough, on any horse. Were owners of horses to feed a few of these powders every year, they might save the lives of many valuable horses.

MILCH COWS.

The properties this powder possesses in in-ereasing the quantity of milk in cows, gives it an importance and value which should place it in he hands of every person keeping a cow. In fattening cattle, it gives them an appetite, loosens their hide, and makes them thrive much faster.

HOGS In all diseases of swine, as coughs, ulcers in the lungs and liver, &c., by putting from half a paper to a paper of these powders in a barrel of swill, the above diseases can be cured or entirely prevented. By using these powders the bog cholera can be prevented.
