# D. W. AMOS' PATENT

This rake, combines greater improvements, and more effective capabilities, than any ever before of-

fered to the agriculturist.

As the teeth are elevated and depressed by the foot of the driver, his hands are left free to guide his team with precision, and keep it under perfect control. As each rake-tooth is capable of an independent vertical movement, the rake will operate perfectly over the most uneven surface with a uniform pressure, and will, consequently,

RAKE MOWN GRASS PERFECTLY CLEAN. As the teeth of the rake have two movements, stany ground will not obstruct its movement, nor in e the several teeth, and it will rake without injury

the heaviest grass.

As the teeth form their own springs, the cumbersome, costly, and complex springs, beretofore used, are entirely dispensed with, and in case of treakage any Farmer can at ease replace the broken tooth. As the rake-teeth are lifted automatically by mechanism, controlled by the foot of the driver, he is enabled to operate the machine with very little fatigue and without using his hands at all. As the driver has both hands with which to manage his team, he can START, TURN, or go FORWARD he can, at the proper moment, elevate them to discharge their load, and instantly drop them at the ex-

ss of time. This rake is solidly constructed of durable materials, and is so simple and direct in its operation that any boy who can manage a borse in narness,

act moment and place to commence raking without

can, with his RAKE, do perfect work.

(C) All persons wanting a good Rake will please give me a call in due time, as I will have a great many to make this sesson.

TO READ WHO SAYS SO OF

From the Rev. Levi G. Beck. Pastor of the Baptist Church, Pemberion, N. J., formerly of the North Exptist Church, Philadelphia. I have known Hoofland's German Bitters favora-

bly for a number of years. I have used them in my own family, and have been so pleased with their ef-fects that I was induced to recommend them to ma-ny others, and know that they have operated in a strikingly beneficial manner. I take pleasure in thus publicly proclaiming this fact, and calling the attention of those afflicted with the diseases for which they are recommended, to these Bitters, knowing from experience that my recommendation will be sustained. I do this more cheerfully as Hoofland's Bitters is intended to benefit the afflicted, and is "not a rum crink." Yours truly,

Although not disposed to tavor or recommend Par-Although not dispose to ravor or recommend car-ent Medicines in general, through distruct of their ingredients and effects, I yet know of no sufficient reasons why a man may not testify to the benefits he believes himself to have received from any simple preparation, in the hope that he may thus con-tribute to the benefit of others.

I do this the more readily in regard to Honfland's German Bitters, prepared by Dr. C. M. Jackson, of this city, because I was pr judiced against them for many years, under the impression that they were chiefly an alcoholic mixture. I am indebted to my friend, Robert Shoemaker, Eq., for the removal of this prejudice by proper tests, and for encouragement to try them, when suffering from great and long continued debility. The use of three bottles of these butters, the beginning of these butters, the beginning of of these biters at the beginning of the present year, was followed by evident relief and restoration to a degree of bodily and mertal vigor, which I had not felt for six months before, and had almost despaired of regaining. I therefore thank God and my friend for directing me to the use of them.
