FOUTZ'S CELEBRATED HORSE AND CATTLE

POWDERS. THESE Powders have proved, after a trial of several years, to be superior to any preparation of the kind in use. The chief superiority of these Powders arises from the

fact that they are composed of medicines rhat have Laxative, Tonic and Purifying properies: The laxative force and Puritying properies: The laxativa ejects crudities from the stemach and intestines, the tonic gives strength to the system of the Horse, and the purifying medicines contained in them cleanse the blood, and lay the foundation for a vigorous and healthy circulation. The use of them improves the wind, atrengthens the appetite and gives the horse a fine, smooth and glossy skin—thus improving the appearance, vigor and spirit of this noble animal.

These powders are not intended, as most powders are, to bloat the animal, so as to give him the appearance of being fat when not really so-but, to remove the disease

and promote his general health.

These powders will strengthen the stomach and intestines, cleanse them from offensive matter, and bring them to a healthy state. They are a sure prevention of Lung state. They are a sure prevention of Lung Fever, and a certain remedy for all diseases incident to the Horse, as Glanders, Yellow Water, Distempers, Founder, Heaves, Slavering, Coughs, Fevers, Loss of Appetite and Vital Energy, &c.—These Powders, if used two or three times a week, through the winder and spring your horse will never set the two of three times a week, through the winter and spring, your horse will never get the
Lung Fever, Coite or Botts. A few doses of
these powders will remove the worst cough,
on any horse. Were owners of horses to
feed a few of these powders every year, they
might save the lives of many valuable horses.

MILCH COWS. The properties this powder possesses in increasing the quantity of milk in cows, gives it an importance and value which should place it in the hands of every person keeping a cow. In attening cattle, it gives them an appetite, loosens their hide, and makes them thrive much taster.

HOGS.

In all dresses of swine, as coughs, alcers in the longs and liver, &c., by putting from half a paper to a paper of these powders in a barrel of swill, the above diseases can be cured or entirely prevented. By using these powders the hog cholera can be prevented. Prepared by S. A. FOUTZ,

This is derived chiefly from the food we eat, but if the food is not properly digested, or if, from any cause whatever, the necessary quantity of iron is not taken into the circulation, or becomes reduced, the whole system suffers. The bad blood will irritate the heart, will clog up the lungs, will stupefy the brain, will obstruct the liver, and will send its disease-producing elements to all parts of the system, and every one will suffer in whatever organ may be predisposed to disease. organ may be predisposed to disease.
The great value of
