SPAFF .- On the 14th of October, at his residence near Gebhartsburg, Somerset county, Henry Shaff, aged 84 years, 3 months and 26

Deceased was a son of one of the earliest settlers, Mr. John Shaff, who emigrated from the country of the Upper Rhine, about the middle of the last century. The life of deceased was a bright example to those around him. He was an industrious, fragal, generous man, and a Christian in the practical, as well as the formal, sense of the word. He was the friend of the poor, and his charity was always freely bestowed. Having lived the life of a true man and a thorough Christian, we doubt not that his last words to his pastor, "safe home," were but prophetic of his own translation to a home of eternal bliss and glory.

WASHINGTON MILLER, THOMAS FISHER.

The peculiar taint or infection which we call Scror-ULA lurks in the constitu-tions of multitudes of men. It either produces or is produced by an enfeebled, vitated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous incompetent to sustain the visual forces in their vigorous visual forces in their vigorous faction, and leaves the system tem to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial dis-

caused by mercurial dis-ease, low living, disordered digestion from un-healthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the vene-real infection. Whatever be its origin, it is hered-itary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrotula produces tubercles, and finally names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous diatempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the fiesh" healthy, you cannot have scrofulous the flesh" healthy, you cannot have scrofulous Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflictthat medical science has discovered for this affilication distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil or Glandular Swellings, Tumors, Erun-Evil. or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipe Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minuto reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten. and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This wo now offer to the public under the name of Aven's Sarsaparilla, although it is composed of ingredients, some of which exceed the best of Navacrilla in alterative power. By its aid you was dients, some of which exceed the best of Sarsa-parilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of *Saraparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to
