CELEBRATED HORSE AND CATTLE POWDERS.

THESE Powders have proved, after a trial of several years, to be superior to any preparation of the kind in use. The chief superiority of these Powders arises from the fact that they are composed of medicines that have Laxative, Tonic and Purifying properties. The laxative ejects crudities from the stomach and intestines, the tonic gives strength to the system of the Horse, and the purifying medicines contained in and the purifying medicines contained in them cleanse the blood, and lay the foundation for a vigorous and healthy circulation.

The use of them improves the wind, strengthens the appetite and gives the horse a fine, smooth and glossy skin—thus improving the

smooth and glossy skin-thus improving the appearance, vigor and spirit of this no

These powders are not intended, as most powders are, to bloat the animal, so as to give him the appearance of being at when not really so—but, to remove the disease

and promote his general health.

These powders will strengthen the stemach and intestines, cleanse them from offen-sive matter, and bring them to a healthy state. They are a sure prevention of Lung Fever, and a certain remedy for all diseases incident to the Horse, as Glanders, Yellow incident to the Horse, as Glanders, Yellow Water, Distempers, Founder, Heaves, Slavering, Coughs, Fevers, Loss of Appetite and Vital Energy, &c.—These Powders, if used two or three times a week, through the winter and spring, your horse will never get the Lung Fever, Colic or Botts. A few doses of these powders will remove the worst cough, on any borse. Were owners of horses to feed a few of these powders every year, they might save the lives of many valuable horses.

MILCH COWS. The properties this powder possesses in in-ereasing the quantity of milk in cows, gives it an importance and value which should place it in the hands of every person keep-ing a cow. In fattening cattle, it gives them an appetite, loosens their hide, and makes them thrive much raster.

HOGS. In all diseases of swine, as codghs, picers in the lungs and liver, &c., by putting from half a paper to a paper of these powders in a barrel of swill, the above diseases can be cured or entirely prevented. By using these powders the hog cholera can be prevented. Prepared by S. A. FOUTZ, Westminster, Md. DF For sale at the Drug Stores of Reamer and Harry, Bedford, Pa. Dec. 18—19 FOR SALE OR TRADE!
