THE peculiar taint or infection which we call Schortions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood.

wherein that finid becomes incompetent to sustain the incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The serofulous contamination is variously caused by mercarial discase, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, heaithy food, impure air. fifth and fifthy habits, the depressing vices, and, above all, by the veneral infection. Whatever be its origin, it is hereditary in the constitution, descending "from parenta to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the pinguities of the fathers upon their will visit the pinguities of the fathers upon their indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercies, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomack! and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, cruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted tempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous

disease. Ayer's Sarsaparilla is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it ing distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil or Glendules Swelling. Evil, or Glandular Swellings, Tumors, Eroptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Authony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Sypailis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series or complaints that arise from impurity of the blood. Minute reports of individual cases may be found in Atter's American Almanac, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of Ayer's Sarsaparrilla, although it is composed of ingredients, some of which exceed the best of Sarsaparrilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any

which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.
