FOUTZ'S CELEBRATED HORSE AND CATTLE

POWDERS. TIMESE Powders have proved after a trial of several years, to be superior to any preparation of the kind in use. The chief superiority of these powders arises from the fact

that they are composed of medicines that have Laxative, Tonic and Purifying properties.—
The laxative ejects crudities from the stomach and intestines, the tonic gives strength to the system of the Horse, and the purifying medicines contained in them cleanse the blood, and clear the foundation for a vigorous and healthy contained in the medicines contained in the medicines to the blood, and contained in the medicines are defined as the blood, and contained the synd, are nothers the anaetic and gives the system of the Horse, and the purifying medicirculation. The use of them improves the wind, strengthens the appetite and gives the horse a fine, smooth and glossy skin-thus improving the appearance, vigor and spirit of this noble animal.

These powders are not intended, as most powders are, to bloat the animal, so as to give him the appearance of being fat when not really so-but, to remove the disease and pro-mote his general health.

These powders will strengthen the stom-ach and intestines, cleanse them from offen-sive matter, and bring them to a healthy state. They are a sure prevention of Lung Fever, and a certain remedy for all diseases incident to the Horse, as Glanders, Yellow Water, Distempers, Founder, Heaves, Slavering, Coughs, Fevers, Loss of Appetite, and Vital Energy, &c .- These Powders, if used two or three times a week, through the winter and spring, your horse will never get the Lung Fever, Coic or Botts. A few doses of these powders will remove the worst cough, on any horse. Were owners of horses to leed a few of these powders every year, they might save the lives of many valuable horses. MILCH COWS.

The properties this powder possesses in in-creasing the quantity of milk in cows, gives it an importance and value which should place it in the bands of every person keep-ing a cow. In fattening cattle, it gives them an appetite, feesens their hide, and makes

Neither of these Islands is liable to overflow, and both are well protected by stones and trees against washing. By reference to the map of Pennsylvania, it will be observed that the Clarion river empties into the Allegheny at a point due South from Oil Creek, and as oil is found at Freeport, on this line further South, we have every reason to believe

Oil Creek, and as oil is found at Freeport, on this line further South, we have every reason to believe that these fislands are in the very centre of the great Oil Belt of Pennsylvania. Besides all this they lie tar below the Coal Mensures.

The Company also owns one acre and sixty-one perches of land, about 35 miles above the Upper Island, at the mouth of Ritchey Run, near the fown of Emlenton, Venango county, Pa., upon which is the celebrated Fox and Widel well, with new engines, derrick, buildings, &c., &c., and the well is bored to the depth of 420 feet. This well was tubed at 350 feet, and in few hours pumping yielded about one barrel of oil; but the proprietors degrained to sink it deeper, and the company will, as soon as possible, sink this well if necessary, to the depth of 1000 feet or more. The "Stump Island Company" own the whole of this well, fixtures and land, and the "Development Fand" will be amply sufficient to complete this well, and sink others in the Island. There is besides, from enough on

in the Island. There is besides, room enough on the Ritchey Run tract for several more wells. The property owned by this Company is all practical boring territory, and persons acquaintes with the lands along the Allegheny and other oil streams will bear witness that we have more practical bor-ing surface than many of the 300 acre tracts con-tain. In addition to this, our basis will compare. favorably with the large majority of Companies whose capital stock is five times as great.
