

THE peculiar taint or infection which we call Scrop-ULA lurks in the constitutions of multitudes of men. It either produces or men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the sys and decay. The scrofulous

contamination is variously caused by mercurial discase, low living, disordered digestion from un-healthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal inflection. Whatever be its origin, it is hered-itary in the constitution, descending "from parents to children unto the third and fourth generation;" to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says. "I will visit the iniquities of the fathers upon their children." The diseases it originates take various mames, according to the organs it attacks. In the hungs, Scrofula produces tubereles, and finally Consumption; in the glands, swellings which sup-purate and become floerous sores; in the stomach and bowels, derangements which produce indi-gertion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same rem-edy, viz, purification and invigoration of the edy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous dis-tempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flow?" heating. the flesh" healthy, you cannot have scrofulous

Ayer's Sarsaparilla is compounded from the most effectual antidotes that medical science has discovered for this afflict-ing distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues trub extraordinary in their effect upon this class of complaints, is indisputably proven by the grea titude of publicly known and remarka as made of the following diseases: Evil, or Glandular Swellings, Tumors, Erup tions, Pimples, Blotches and Sores, Erysipelas Rose or St. Anthony's Fire, Salt Rheum, Scale Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitie Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole set Minute reports of in in AYER'S AMERICAN ALMANAC, which is furnishe to the druggists for gratuitous distribution, where may be learned the directions for its use, and som of the remarkable cures which it has made when all other remedies had failed to afford relief. Thos cases are purposely taken from all sections of the country, in order that every reader may have ac-cess to some one who can speak to him of its benecess to some one who can speak to him of its bene-fits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to discase and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these con-siderations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of Aven's SAMSAPABILLA, although it is composed of ingre-dients, some of which exceed the best of Saran-parilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any We know the public have been deceived by

many compounds of *Surseparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a your different medicine from any other which has very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them

IMPORTANT

It is well known to the medical profession that IRON is the Vital Principle of Life Element of the blood. This is derived chiefly from the food we eat; but if the food is not properly digested, or if, ease, but it the rood is not properly digested, or if, from any cause whatever, the necessary quantity of iron is not taken into the circulation, or becomes reduced, the whole system suffers. The bad blood will irritate the heart, will clog up the lungs, will stopefy the brain, will obstruct the liver, and will send its disease-producing elements to all parts of the system, and every one will suffer in whatever over the brain to disease. may be predisposed to disease. The great value of
