A FEW REASONS WHY THE AMERICANW ATCH IS THE BEST.

The foreign watch is mostly made by women and boys, BY HAND. While their labor is cheap, their work is dear at any price. Such watches are made are irregular in construction, and quite as irregular in movement. They are designed only to sell, and the buyer is the party most thoroughly sold. Those who have kept "ancres," "lepines," and "Swiss levers," in professed repair for a few years will appreciate the truth of our statement.

THE PLAN OF THE AMERICAN WATCH. Watch is formed of SOLID PLATES. No jar interferes with the harmony of its working, and so sudden shock can throw its machinery out of gear. In riding or any business pursuit, it is all held together as firmly as a single piece of metal. It is just what all machinery should be-1st. ACCURATE. 2d. SIMPLE. 3d. STRONG.

4th. ECONOMICAL.

We not only secure CHEAPNESS by our system, but QUALITY. We do not pretend that our Watch can be bought for less money than the foreign make-bulings but that for its real value it is sold for one-bulings but that for its real value it is sold for one-bulings. believes, but that for its real value it is sold for onehalf the price.

OUR SOLDIER'S WATCH (named Wm. Ellery) is what its name indicates-Solid, Substantial, and | K always Reliable-warranted to stand any amount of Marching, Riding or fighting.

OUR NEXT HIGHER QUALITY OF WATCH (named P. S. Bartlett) is similar in size and general appearance, but has more jewels, and a more elaborate finish.

OUR LADIES WATCH, recently brought out, is put up in a great variety of patterns, many of them of rare beauty and workmanship, is quite small, but warranted to keep time.

OUR YOUNG GENTLEMAN'S WATCH is neat, not large, and just the thing for the pocket of Young
