I have read what purports day of June, 1865. to be a synopsis of testimony said to have been given by a person calling himself Sanford Conover before the military commission at Wash ington city for the trial of Harrold, Atzerott. Paine and others, respecting the killing of President Lincoln, which is published, in the New York papers of the 5th of Jane instant; and, likewise, what purports to be a full report of said testimony, contained in the same newspapers of the 6th and 7th of June inst. I have noticed that in the said testimony it is stated that said Sanford Conover passed in Montreal by the name of Jas. Watson Wallace. I know James Watson Wallace who has made an affidavit denying that said testimony is true and deposing that some person hath personated him. and that said pretended testimony is false and forged. I am satisfied that the Wallace who made said affidavit is the same Jas. Watson Wallace, who gave his evidence before the Hon, Judge Smith in the St. Albans raiders' trial, as he states. He told me in February, March and April he gave his evidence in the raiders' case. My attention has been directed to various allegations contained in the testimony of Sanford Conover, respecting Hon. Jacob Thompson Hon. Clement C. Clay, Geo. N. Sanders, Esq., John Porterfield, Esq., Gen. Carroll, Doctor Montrose, A. Pallen, Commodors Magruder, Doctor Blackburn, J. W. Booth, and others, and especially to that part relating to myself. and especially to that part relating to myself.

PATENTED JANUARY 12, 1864.

This Rake combines greater improvements, and more effective capabilities, than any ever before offered to the Agriculturist. As the teeth are elevated and depressed by the foot of the driver, his hands are left free to guide his team with precision, and keep it under perfect control.

As each rake-tooth is capable of an independent vertical movement, the rake will operate perfectly over the most uneven surface with a uniform pressure; and will, consequently, RAKE GRAIN & GRASS PERFECTLY CLEAN.

This rake is solidly constructed of durable materials, and is so simple and direct in its operation that any boy who can manage a horse in harness can, with this Rake, do perfect work.

Agents wanted in every county seat throughout the State to sell this HORSE RAKE.

Having lately made new improvements I feel confident that I can give full satisfaction to farmers generally. I would refer the public to Hon. Job Mann, Asa Silver, John James, Adam Dibert, Samnel Boor, Michael Dibert, Isaac Imler, Charles M. Colvin, W. P. Mickel, and others who have used this Rake.

These Bonds are now worth a handsome premium, and are exempt, as are all the Government Bonds, from State, County, and Municipal taxation, which adds from one to three per cent. per annum to their value, according to the rate levied upon other property. The interest is payable semi-annually by coupons attached to each note, which may be cut

off and sold to any bank or banker. The interest at 7-30 per cent. amounts to One cent per day on a \$50 note. Two cents " " \$100 "

Ten " " " \$500 " 20 11 11 11 11 \$1000 11 \$1 " " " \$5000 "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions. The Notes of this Third Series are precisely sim ilar in form and privileges to the Seven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent., instead of 7 3-10ths in currency. Subscribers will deduct the interest in currency up to

The delivery of the notes of this third series o the Seven-thirties will commence on the 1st of June and will be made promptly and continuously after that date.

The slight change made in the conditions of this TRIED SERIES affects only the matter of interest, The navment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in Gold be availed of, would so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and threetenths per cent. in currency. This is
