

DEMOCRATIC MASS MEETING.

Rally for the White Man's Government!

The Democrats, and all other citizens of Bedford county, in favor of re-instating the communities lately in revolt, as members of the Union, without any condition except obedience to the Constitution and Laws of the Republic, all who are opposed to Negro suffrage...

E. F. KERR, Ch'n. Dem. Co. Com.

PROSCRIPTION.—Those business men, in Bedford who belong to the Abolition party, (with a few honorable exceptions) have commenced a regular system of proscription of Democratic tradesmen.

A MODEL FARM.—We paid a visit, a few days ago, to the place of our old friend, P. J. Shoemaker, Esq., of Friend's Cove, and found it to be one of the most beautiful and best cultivated farms in Bedford county.

"THEN AND NOW."—That eminent "political economist" and prince of humbugs, Henry C. Carey, says, among other things, in contrasting the present with the condition of the country at the close of Mr. Buchanan's Administration, that then,

"Millions of men and women would have been seen who were wholly or partially unemployed, because of inability to find persons able and willing to pay for service."

Yes, those who were unemployed then, went into the army, and there are about one million persons less seeking employment now than there were at the breaking out of the war.

"Hundreds of thousands of workmen, farmers and shopkeepers, would have been seen holding articles of various kinds for which no purchasers could be found."

How much better is it now! Workmen are compelled to "strike" for higher wages; farmers pay more than the increase in price for their produce, in addition to the Buchanan prices, for muslins, coffee and other articles of consumption; and as for the shop-keepers, they are compelled to demand high rates to enable them to pay the increased prices of wholesale dealers and the high rents of their shops caused by war taxes.

"Thousands of mills, factories, furnaces, and workshops large and small, could have been seen standing idle while surrounded by persons who desired to be employed."

Aye, the rolling-mills, factories, furnaces and work-shops, were made lively by government contracts for the making of numerous weapons designed for human butchery. The sword, the cannon, the bayonet, were manufactured during the past four years. But how is it now?

Already furnaces are blowing out and iron-works of every description suspending operations. Call you this prosperity?

"High above all these would have been seen a National Treasury wholly empty, and to all appearance little likely ever again to be filled."

And, now, that same National Treasury is filled with borrowed money to pay the current expenses of the government, and would fall short of the payment of the public debt three thousand millions of dollars! The people are taxed to death to keep up the credit of the government, so as to enable it to keep on borrowing, while a standing army of nearly 300,000 men, alone, eats up all the revenue raised annually from all sources. Is this an improvement on Buchanan's administration?

We cannot allow any man who has voted the Copperhead ticket to escape the common odium of the party, &c.—Bedford Inquirer.

Pray, who made you a judge in Israel? But who cares for your judgment, anyhow? And, according to your rule, the people will not let any man "escape" who votes a ticket supported by you, as according to your logic, the man who votes the same ticket cast by you, votes for negro suffrage.

MAIL FACILITIES IN THIS COUNTY.—It is a queer thing, but for once in our life, we find ourselves agreeing with our neighbors of the Inquirer. Either we must have become "loyal," or the Inquirer has turned a somersault. Our readers can judge for themselves as to how this matter stands, when they read the following which we copy, word for word, from the Inquirer of August 4, with our special endorsement:

"The Post Master General has established a Post-office at Bedford Springs and appointed A. G. Allen, Esq., Post Master. This is a very good move and we would desire a few more of the same sort. It appears to us that Bedford county is cursed by the worst system of postal arrangements that ever embarrassed any people. We have five hundred subscribers who, on an average of every other week, are deprived of their paper for three or four days because there is no mail agent on the Broad Top road, or not a sufficient number of mail bags, or again, because the Department has strenuously refused to put a daily mail on route No. 2569, or change the tri-weekly mail to a day later. We hope that somebody will wake up to the importance of giving us decent mail facilities. There are other portions of the county that have even worse arrangements.

What has become of the skulking blackguard who anonymously assailed the Bloody Run Blues and Capt. Morgart, through the columns of the Inquirer? Is he afraid to come out from his hiding place?

DIEHL.—In this place, on Wed. day, the 2d inst., Adam Diehl, youngest son of Henry and Rebecca Diehl, of Friend's Cove, this county, aged 21 years, 7 months and 16 days.

"Extracts from the Record."

The following "extracts from the record" of the Bedford Inquirer, speak for themselves: "Let the Seceding States go! How evident is it that God, for a great and beneficent purpose of his own, has permitted this insanity to come upon them. Let them go to work out their own destiny by themselves!

Wherever that boundary may be established, it will be moveable, southward, if Eastern Virginia, or Virginia entire, chooses to go with secession. Virginia will retain whenever the interests of freedom there shall predominate over the slaveholding interests. Till then let her go, if she will.—Bedford Inquirer, April 5, 1861.

THEY ARE WELCOMED WITH JOY BY THE INHABITANTS.—Bedford Inquirer April 7, 1865.

Now to be plain, we know several dozen of colored men that would sooner see march to the ballot box and cast their ballots than an equal number of Copperheads we can name.—Bedford Inquirer, June 3, 1865.

THEY WILL CURE A WEAKNESS OF THE BACK, Pain in the side, a Lameness of the Knee or of the Ankle, or Cold Feet, sooner and with more comfort than any other application.

WE NEED THE VOTES OF ALL THE COLORED PEOPLE, it is numbers not intelligence, that counts at the ballot box.—It is right intention and not philosophical judgment, that casts the vote.—Speech of H. W. Davis, copied into Inquirer without comment.

RECONSTRUCTION.—The process of reconstruction seems likely to prove a tedious and somewhat troublesome task. The result of the Virginia election shows the difficulty of so adjusting the matter as to insure a proclamation of loyal men. The President's proclamation does not seem likely to exclude a sufficient number of unrepenting rebels to secure this most important object. Unless some other means are devised, the rebellious states will in all probability be reorganized with Governments hostile to the Union.—Bedford Inquirer, June 9, 1865.

MANGES—HINER.—In Schellsburg, on the 20th of June, by Peter Dewalt, Esq., Mr. Abraham B. Menges and Miss Ann Catherine Hiner, all of Napier township.

FLEETNER—BLACKBURN.—At the house of the bride's father, on the 8th inst., by the same, Benjamin S. Fletcher and Rebecca Blackburn, all of Napier township.

A MOST IMPORTANT DISCOVERY! Inventing to Agents, Farmers, and others.—We are making a single machine which combines the best and cheapest parts—Wine and Cider Press, the drier Clothes Wringer, and the most powerful Lifting Jack in the world.

A FEW REASONS WHY THE AMERICAN WATCH IS THE BEST.

It is made on the best principle, while the foreign watch is generally made on no principle at all. The foreign watch is mostly made by women and boys, at hand. While their labor is cheap, their work is dear at any price. Such watches are made without plan, and sold without guarantee. They are irregular in construction, and quite as irregular in movement. They are designed only to sell, and the buyer is the party most thoroughly sold. Those who have kept "runners," "shipines," and "Swiss levers," in professed repair for a few years will appreciate the truth of our statement.

THE PLAN OF THE AMERICAN WATCH. Instead of being made of several hundred little pieces, screwed together, the body of the American Watch is formed of SOLID PLATES. No jar interferes with the harmony of its working, and no sudden shock can throw its machinery out of gear. In riding or any business pursuit, it is all held together as firmly as a single piece of metal. It is just what all machinery should be—1st. ACCURATE. 2d. SIMPLE. 3d. STRONG. 4th. ECONOMICAL.

OUR SOLDIER'S WATCH (named Wm. Ellery) is what its name indicates—Solid, Substantial, and always Reliable—warranted to stand any amount of Marching, Riding or Fighting.

OUR NEXT HIGHER QUALITY OF WATCH (named P. S. Bartlett) is similar in size and general appearance, but has more jewels, and a more elaborate finish.

OUR LADIES' WATCH, recently brought out, is put up in a great variety of patterns, many of them of rare beauty and workmanship, is quite small, but warranted to keep time.

THE PROOF of the merits of our Watch may be found in the fact that we now employ over seven hundred workmen in our factories, and that we are still unable to supply the constantly increasing demand.

OUR THREE-QUARTER PLATE WATCH is thinner and lighter than the others we have described. Its fine chromometer balance is delicately adjusted to correct the variation caused by changes of temperature. These watches are the fruits of the latest experiments in chronometry, and are made by our best workmen, in a separate department of our factory. For the finest time-keeping qualities they challenge comparison with the best works of the most famous English and Swiss makers.
