J. W. BRADLEY'S New Patent DUPLEX ELLIPTIC (or double) SPRING SKIRT.

This invention consists of DUPLEX (or two) ELIPTIC PURE REFINED STEEL SPRINGS, ingeniously braided tightly and firmly together edge to edge, making the toughest, most flexible, elastic and durable spring ever used. They seldom bend, or break, like the Single Springs, and consequently preserve their perfect and beautiful shape more than twice as long as any single spring skirt that ever has or can be made.

The wonderful flexibility and great comfort and pleasure to any lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crawded assemblies, Operas, Carriages, Railroad Cars, Church Pews, Arm Chairs, for promenade and house dress, as the skirt can be tolded when in use to occupy a small place as easily and conveniently as a silk or muslin dress.

A lady having enjoyed the pleasure, comfort and great convenience of wearing the Duplex Elliptic Steel Spring Skirt for a single day will never afterwards willingly dispense with their use. For Children, Misses and Young Ladies they are superior to all others.
