J. W. BRADLEY'S New Patent DUPLEX ELLIPTIC (or double) SPRING SKIRT.
This invention consists of DUPLEX (or two) ELLIPTIC PUBE REFINED STEEL SPRINGS, ingenicusty braided tightly and firmly together edge to
edge, making the toughest, most flexible, elastic
and durable spring ever used. They seldom bend,
or break, like the Single Springs, and consequently preserve their perfect and beautiful shape more
than twice as long as any single spring skirt that
ever has or can be made.

Church Pews. Arm Chairs, for promenade and house dress, as the skirt can be folded when in use to cocupy a small place as easily and conveniently as a sitk or muslin dress.

A lady having enjoyed the pleasure, comfort and great convenience of wearing the Duplex Elliptic Steel Spring Skirt for a single day will never afterwards willingly dispense with their use. For Children, Misses and Young Ladies they are superior to allothers.

The Hoops are covered with 2 ply double twisted thread, and will wear twice as long as the single yarn covering which is used on all single steel hoop skirts. The three bottom rods on every skirt are also double steel, and twice or double covered to prevent the covering from wearing of the rods when dragging down stairs, stone steps, &c., &c., which they are constantly subject to when in use. All are made of the new and elegant corded tapes, and are the best quality in every part, giving to the wearer the most graceful and perfect shape possible, and are unquestionably the lightest most desirable confortable and coronwell skirt most desirable confortable and coronwell skirt.

ON SATURDAY, JANUARY 6, 1866, Messrs. TICKNOR & FIELDS began the publication of a weekly journal entitled EVERY SATURDAY:

A JOURNAL OF CHOICE READING, SELECTED FROM FOREIGN CURRENT LITERATURE.

Much of the best literature of the day is found in the English and Continental magazines and periodicals; and it is the design of the Publishers of this new journal to reproduce the choicest selections from these for American readers, in a form at once attractive and inexpensive. The publishers believe that such a journal, conducted upon the plan which they propose, will be not only entertaining and instructive in itself, but interesting and valuable as a reflex of foreign periodical literature of the bar.

CELEBRATED HORSE AND CATTLE THESE Powders have proved after a trial of several years, to be superior to any preparation of the kind in use. The chief superiority of these powders arises from the fact that they are composed of medicines that have Laxative. Tonic and Purifying properties. The laxative ejects crudities from the stomach and intestines, the tonic gives strength to the system of the Horse, and the purifying medicines contained in them cleanse the blood, and lay the foundation for a vigorous and healthy circulation. The use of them improves the wind, strengthens the appetite and gives the horse a fine, smooth and glossy skin—thus improving the appearance, vigor and spirit of this noble animal.

These powders are not intended, as most powders are, to bloat the animal, so as to give him the appearance of being fat when not really so-but to remove the disease and promote his general health.

health.

These powders will strengthes the stomach and intestines, cleanse them from offensive matter, and bring them to a healthy state. They are a sure preventive of Lung Fever, and a certain remedy for all diseases incident to the Horse, as Glanders, Yellow Water, Distempers, Founder, Heaves, Slaveirrg, Conghs, Fevers, Loss of Appetite, and Vital Energy, &c.—These Powders, if used two of three times a week, through the winter and spring, your horse will never get the Lung Fever, Colie or Botts. A few doses of these powders will remove the worst cough, on any horse. Were owners of horses to feed a few of these powders every year, they might save the lives of many valuable horses.

MILCH COWS.

they might save the lives of many valuable horses.

MILCH COWS.

The properties this powder possesses in increasing the quantity of milk in cows, gives it an importance and value which should place it in the hands of every person keeping a cow. In fastening cattle, it gives them an appetite, loosens their hide, and makes them thrive much faster.

HOGS.

In all disenses of swine, as coughs, ulcers in the lungs and liver, &c., by putting from half a paper to a paper of these powders in a barrel of swill, the above diseases can be cured or entirely prevented. By using these powders the hog cholers can be prevented.
