The Bedford Gazette. THE CHOLERA.—Hall's Journal of Health gives the following suggestions, THE CHOLERA.-Hall's Journal of which deserve the immediate attention of all who wish to avoid the scourge of cholera, which threatens to attack us next summer:

Ist. Every householder owes it to himself, to his family, to his neighbors, to the community in which he resides, to have his house, from cellar to garret, from the street curb to the rear line of his lot, most scrupulously cleansed by

sweeping, washing, and whitewashing. 2d. Every man who has any authority in city or town government should consider himself bound by the oath of office, and by every consideration of humanity, to give himself no rest until every street, alley, close gutter, and sewer is placed in a state of as perfect cleanliness as possible, and kept so until the frosts of next season come.

3d. These cleansings should be done now in February and March because

now, in February and March, because, if put off until warm weather, the very effort necessary for the removal of filth will only tend, in the essential nature of things, to hasten the appearance of the disease, to increase its malignity, and to extend the time of its devasta-tions; because the suns of spring and summer the sooner warm into life, and intensify the viperic and malignant in-fluence which in its remorseless tread wrecks so much of human happiness and desolates so many hearthstones.

FIRE.—On the evening of the 28th ult., a two story log house, at the foot of Dry Ridge, belonging to Mr. V. Wertz, and occupied by Miss Sarah Wertz and Mr. J. Mundle's family, was entirely destroyed by fire. The family of Mr. Mundle succeeded in saving the greater portion of their furniture, but Miss Wertz, who was absent from home at the time, lost nearly all of her bed and body clothing, and about one hundred dollars in gold and silver.
