We hope that there will be no necessity for the repetition of this notice to delinquents. THE Rump Congress adjourned on Saturday. Honest men, everywhere, will draw a long breath of relief. The country will thank God for a deliverance greater than that of the Jews from bondage, or Egypt from vermin. The policy of the ruling faction has been fanatical, tyrannical and revolutionary. Their legislation has been the most reckless, extravagant and dangerouever known in the history of the country. Millions were spent as flippantly as though money had no value. The appropriations reached more than six hundred millions, nearly as much as any year during the war. Scarcely a bill was passed without the negro in it: and the sums spent to support the vast national scheme of negro pauperism were almost fabulous. They passed the bill to pay liberal bounties to negro volunteers by the usual party majoriity; but when the bill for the equalization of bounties of white soldiers came up, the increased pay at first proposed (\$85 per month) was reduced nearly one half, and even then it only passed by a vote of 51 to 50, every Democrat, except two, voting in its favor. As a fit finale of their prolifigate career, they increased their own pay from \$3,000 to \$5,000 per session, making the snug little sum of \$10,000 to every member of each (ongress besides mileage. Every citizen should read their proceed ings carefully. No other proof is needed that they will establish a central despotism and bankrupt the country if they are continued in power.
