Home again! Home again! From a foreign shore; And now I'll get some handsome clothes From LIPPEL'S Clothing Store. Far I have roamed the world around, But none like their's can find; To such as I could get abroad, I had to be resigned.

But oh, it caused my heart to ache, My countenance to fall, To buy such clothes from others, When I thought of LIPPEL'S Hall.

Oh. you are highly favored,
Who live on Juniata shore,
For you can always get your clothes
At LIPPEL'S Clothing Store. And all who have to travel,
Will these my words recall;
For none make clothes as good and cheap
As those at LIPPEL'S Hall.

Under this head may be classed—

1st, Scrofula,—This disease is hereditary and it ransmitted from generation to generation. It is caused by a transgression of the laws of nature, both moral and physical; in other words, it is caused by rice. Acting as a latent poison, it reduces the vitality of the blood, and weakens the depurating organs, so that they fail to discharge or cast out the impurities that are continually generating in the system. A person physically pure acquires gonorhea, or some other secret disease; he undergoes a course of mercury, the disease is dried up, and the patient pronounced well. Vain delusion. The complaint is not cured, its channel is only diverted. Instead of making its appearance outwardly, it acts on the internal organs, and serofula, which is bequeathed from father to son, as the result. Many plersons who are perfectly free from all immorality and vice are afficied with serofula. They are suffering for the sins of their fathers and laboring under the curse inscribed in seribed in the Book of Books. "I will visit the iniquities of the fathers upon their children."

2d, Running Sores and Uleers.—Running sores and uleers invariably indicate a scrofulous taint. They are caused by the efforts of nature to discharge the impurities of the blood. Many persons afflicted with running sores and uleers succeeded in drying them up and think they are cured when the skin grows over the sore. WITH AUTHENTIC POBLICALIS OF JACKSON, and his successor EWELL, on Steel. This is the only authentic history of this distinguished leader which has been written. It has been repared from Official Reports, contemporary naratives, and personal acquaintance, and is complete and full.

Much of the best literature of the day is found in the English and Continental magazines and periodicals; and it is the design of the Publishers of this new journal to reproduce the choicest selections from these for American readers, in a form at once attractive and inexpensive. The publishers believe that such a journal, conducted upon the plan which they propose, will be not only entertaining and instructive in itself, but interesting and valuable as a reflex of foreign periodical literature of the better class.

EVERY SATURDAY is intended for town and country, for the fireside, the senside, the railway and the steamboat. Its plan embraces Incidents of Travel and Adventure, Essays Critical and Descriptive, Serial Tales, Short Stories, Poems, Biographics, Literary Intelligence, etc., in connection with judicious selections from the admirable popular papers on science which are constantly appearing in foreign periodicals. The value of these papers arises from the fact that scientific subjects, however harsh and dry in themselves, are here treated in so graphic and picturesque a style as to charm the reader while instructing him.

It will be, in short, the aim of its publishers that Eveny Saturnay shall commend itself by its freshness and variety to all classes of intelligent and

confidence in its honesty and independence for the future.

The political transition of the present day opens to The News a new and wider field of usefulness. Standing now as it always has, on the inviolability of the Constitution, according to the interpretation of the strict constructionists, it presents a rallying ground for all, in both sections, who are friends of a generous conservatism. As a true and tried exponent of sectional amity it occupies a position which makes it the fitting mediator in holding up to the party of order in both sections, interests and principles that gave breadth and vitality to their alliance. As an intersectional agent, devoted to freedom of election, to trial by jury, to the sanctity of the habeas corpus, and opposed now, as for four years of terror it has been, to the centralization that dares to trample on the rights of States. North or South, The News places itself as a candidate for support before the great body of this once free people.

The Science of Middleine stands SIMPLE, PURS, and MAJKSTIC.—having Fact for its Basis, Induction for its Pillar, Truth alone for its Capital.

A WORD OF CAUTION.

Health is most important; and the afflicted popular necessaries from the stomach and intestines, the tonic gives strength to the system of the Horse, and the partifying medicines contained in them cleanse the blood, and lay the foundation for a vigorous and healthy circulation. The use of them improves the wind, strengthens the appetite and gives the horse a fine, smooth and glossy skin—thus improving the appearance, vigor and spirit of this noble animal.

These powders are not intended, as most pow ters are, to bloat the animal, so as to give him the oppearance of being fat when not really so—but, o remove the disease and premote his general

health.

These powders will strengthen the stomach and intestines, cleanse them from offensive matter, and bring them to a healthy state. They are a sure preventive of Lung Fever, and a certain remedy for all diseases incident to the Horse, as Glanders, Yellow Water, Distempers. Founder, Heaves, Slaveiring, Conglas, Fevers. Loss of Appetite, and Vital Energy, &c.—These Powders, if used two or three times a week, through the winter and spring, your horse will never get the Lung Fever, Colic or Botts. A few doses of those powders will remove the werst cough, on any horse. Were ewners of horses to feed a few of these powders every year, they might save the lives of many valuable horses.

MILCH COWS.

The properties this powder possesses in increasing the quantity of milk in cows, gives it an importance and value which should place it in the hands of every person keeping a cow. In fattening eattle, it gives them an appetite, lossens their hide, and makes them thrive much faster.

HOGS. MILCH COWS.

HOGS.

In all diseases of swine, as coughs, where in the lungs and liver, &c., by putting from half a paper to a paper of these powders in a barrel of swill, the above diseases can be cured or entirely prevented. By using these powders the hog cholera can be prevented.
