

Local and Personal.

Local and Personal. We have just sent a number of bills to persons indebted to us for job work and advertising. This kind of work is always intended to be cash, but we have waited for months on some of it and for years on others. We must have these bills paid. Had we no debts of our own, we might give a hundred years' grace to those who owe us. But we must pay our debts, and, hence, we are compelled to collect from those who are indebted to us. The books of B. F. Meyers are also unsettled and must be closed up. We are driven to sending bills to all, irrespective of persons, and we hope that we will not be compelled to resort to any thing more stringent. But we must have our books squared up, and a word to the wise is sufficient.

COURT PROCEEDINGS.—QUARTER SESSIONS.

COURT PROCEEDINGS.—QUARTER SESSIONS.—The following cases were disposed of at the last Court of Quarter Sessions for this county: Com. vs. A. J. Dishong and Elizabeth Dishong. Indictment for Nuisance on oath of W. M. Earnest, Palmer and Cessna for Commonwealth, Kimmell and Lingenfelter and Hall, for Defence. Verdict, not guilty. Com. vs. John Feightner, Rachael Bush and Chas. Bush. Indictment for Adultery, &c. Spang, Sharpe and Russell, for Commonwealth, Kimmell and Lingenfelter and Cessna for Defendants. Verdict for the Defendants. Com. vs. Frank Gordon and Moore Barks. Assault and battery on oath of Nehemiah Plegle, Meyers & Dickerson, and Kimmell, for prosecutor, Spang and Keagy for Defendants. Defendant Gordon sentenced to pay a fine of \$5.00 and costs of prosecution. Defendant Barks not arrested. Com. vs. W. S. Fletcher. Larceny on oath of Jacob Hite. Def't pleads guilty and Court sentence him to one year and three months solitary confinement in the Western Penitentiary, and that he pay one dollar fine and costs of suit. Com. vs. Peter Koons. Assault and battery on oath of W. H. Lewis. Verdict, not guilty. Com. vs. Jacob Dean. Assault and snuffery of the peace, on oath of Jacob Smith. Verdict, not guilty. Com. vs. Geo. Hook and John T. Rice. Assault and battery on oath of Harriet E. Zimmerla. Palmer, Spang and Geo. A. Smith for Com., Cessna for Def'ts. Verdict, not guilty, but Def'ts. to pay costs of prosecution. Common Pleas.—F. D. Beegle vs. Daniel Wertz and Joseph Feather.—Ejectment. Spang for Pff, Cessna for Def'ts. Verdict for Def'ts. Wm. Todd vs. David Wolf. Summons Case. (Water Right.) Kimmell, Cessna, Russell and Reed for Pff, Sharpe, Spang and Lingenfelter for Def'ts. Trial lasted three days, at the end of which time jury returned a verdict for Defendant.

BLACK'S PATENT SLED.—We spoke, last week, of a sled invented by D. A. T. Black, Esq., which runs on wheels, or runners, at the pleasure of the driver, but did not fully note its advantages over the ordinary sled. It can be run like a wagon, over bridges, bare ground and streams of water; and Mr. Black's improvement will prevent pushing the horses going down steep hills, and sliding to one side on icy places. It saves a great deal of horse labor and prevents the soles of the sled from wearing out. The improvement is equally applicable to sleighs. For further particulars, address D. A. T. Black, Ray's Hill, Bedford Co., Pa.

WARNING.—We would again warn careless people of the danger attending a careless handling of Kerosene lamps. Our exchanges are filled with accounts of accidents from this cause by which women, children and servants lose their lives. A lamp upset, and the whole mass of oil instantly ignites, running over everything, and setting fire to the clothing of women and children who may be near. People cannot be too careful in handling coal oil. Lamps occasionally explode, and the oil is permitted to burn low, and such accidents frequently terminate in death.

MARRIAGE AND DEATH.—Why is it that the marriage announcements are immediately followed by the obituary notice in our papers? Does death follow so closely on the footsteps of marriage? Is grief the page that carries the train of happiness? Does the tomb open wide its dark and ponderous jaws beside the nuptial couch? 'Tis the plan of life. The gleeful songs of light and merry hearts to-day, to-morrow will turn to funeral chants, and sorrow and lamentation be heard instead of glad, pealing laughter. We read today of our friends' marriage, and wish them joy; to-morrow we see their deaths recorded, and say "peace to their ashes." Our merriest songs are timed by footfalls of death, and the "silver chord is as fragile as a spider's thread, and the "golden bow" is more brittle than glass.

SERIOUS ACCIDENT.—We regret to learn that James Madara, Esq., manager of Bloomfield Furnace, was thrown from his horse, a few days since, and seriously injured. We have not been informed as to the particulars of the accident.

ASSISTANT ASSESSORS.—We learn from the Bedford Inquirer that Capt. John B. Helm, of this place, John Shush, of Snake Spring, and John B. Fluke, of Hopewell tp., have been appointed Assistant Assessors of Internal Revenue for this County.

DON'T FRIGHTEN YOUR CHILDREN.

Don't Frighten Your Children.—We know that it is a habit with many parents to frighten their children into obedience, by threats of imprisonment in dark rooms, or by picturing some great bugaboo, or by trying to carry them off. Little do those who resort to this mode of reasoning (?) with innocent little ones, think of the fearful consequences that may result from such acts. A few days since a bright little lad in Evansville, Indiana, when playing on the steps, was threatened to be shut up in a dark room if he did not go in and stay in the house. The child, frightened, ran in and fell in paroxysms on the floor. He begged his mother not to let the man shut him up, and he would never go on the steps again. He sickened from this fright and never recovered. When conscious he begged his mother to keep the man away and he never would go on the steps again. And when the little fellow was dying he said, "Papa, don't let me die, I never will go on the steps again." We hope this instance may serve as a warning to parents who read the GAZETTE, to be careful how they attempt to frighten their little ones.

SAD ACCIDENT.—We learn from the McConnellsburg papers, that a melancholy accident occurred near that place, a few days ago, which resulted in the death of Miss Laura Hassler, daughter of Maj. John Hassler, Treasurer of Franklin county, and the serious injury of Mrs. Baker, who in company with Miss Hassler and a young lad were driving in a buggy, from Fort Littleton to McConnellsburg. On the summit of Scrub Ridge, the boy alighted from the buggy, when the horse became frightened and ran away, dashing the vehicle to pieces against the rocks on the side of the road, both ladies being violently thrown upon the ground. Miss Hassler receiving injuries which caused her death a few days afterwards. Mrs. Baker was greatly bruised, but was not fatally injured.

BUILD HOUSES.—Our town needs now, more than anything else, an increase of dwelling houses for the people. Many are crowded, two or three families in a house where there should be but one, and rents are only limited by the demand of the landlord. We want small houses that our mechanics and laborers can purchase, and thus put their earnings and savings into a permanent form. If the funds invested in oil speculations had been invested in houses, they could all have been sold at a handsome profit, and the amount re-invested in like manner with a similar result. We call upon our business men to unite and build houses—for each to build one, two or three, as they can spare the means from their business.

A MERITED COMPLIMENT.—We were shown, to-day, a magnificent and costly regalia, of the Order of Odd-Fellows, which was, last week, presented by Bedford Lodge No. 292, to Dr. C. N. Hickok, the District Deputy Grand Master of Bedford County. This is but a just tribute to the Doctor's faithful, and long continued efforts in the cause of Odd-Fellowship. As an advocate of the peculiar principles of the society, the Doctor has few equals, and his numerous public addresses, in this regard, has given him a widely extended reputation. We are glad to record this instance of the appreciation, by his brethren of his services.

SWORN IN.—Robert Steckman, Esq., the newly elected Sheriff, has been sworn in and is now engaged in discharging the duties of his office. Bob will make an efficient officer. The retiring Sheriff, Capt. Aldstadt, goes out of office, with the respect of all who had official transactions with him, and we can say for him, that he was a thorough-going and trusty officer. Michael Diehl has been installed as Poor Director. An honest man is "old Mike," and the public can rest assured that he will be true to their interests.

COUNTY PAPERS.—Postmasters should bear in mind, for their advantage as well as that of the local press, that for every county paper delivered by them to subscribers they are entitled to retain of the post office funds ten and one-half cents per year. It is for their interest, as well as for that of the publisher, that the county papers be preferred, since there is no trouble in making collections or keeping accounts thereof, as on papers printed out of the county, the commission on them will not average more than from six to eight cents a year.

COMPLETION OF THE SAND PATCH TUNNEL.—We learn that the Sand Patch Tunnel, on the Pittsburg and Connellsville Railroad, has at last been cut through. It is located in Larimer township, Somerset county. It is 4,700 feet in length, is 22 feet wide and 19 feet high. The length of the tunnel on the Penna. Central, between Cresson and Altoona, is 3,700 feet, just 1,000 less than the length of the Sand Patch.

COUNTERFEIT COIN.—A counterfeit five cent coin of the new nickle issue, is in circulation, and is calculated to deceive the unwary. The counterfeit is remarkably good so far as the die is concerned, but the metal has that greasy appearance common to compounds of pewter and other baser metallic substances. It is very soft and cuts easily like cheese.—Ball, Sun.

IMPROVEMENTS.—The Commissioners have re-fitted and re-furnished the Court House. It is now one of the most comfortable, as well as one of the neatest, Court Houses in the State. PRESERVING MILK.—An easy way of preserving milk or cream sweet for a long time, or of removing the sourness when it has already come on, is to add to it a small quantity of common soda, pearl ash or magnesia. So it is said.

ALL IN VAIN.—The attempts to

ALL IN VAIN.—The attempts to palm off upon the American public the bogus parodies on the leading Paris perfumes, while Phalon's "Night Blooming Cereus," the finest extract for the handkerchief ever produced either here or abroad, is within the reach of every class. Sold everywhere.

EXEMPT.—Dress-makers and milliners will be very glad to know that from the first day of August, 1866, they are exempt from all taxation, whatsoever. The new law says: "All articles of dress made or trimmed by milliners or dress makers for the wear of women and children, shall also be exempt."

CONVENTION OF SCHOOL SUPERINTENDENTS.—A Convention of County Superintendents of Common Schools of the State, will be held at Harrisburg on the 14th of December next. It will remain in session three days.

DEER KILLED.—A fine large buck was killed in Jack's corner, a few days ago, by Richard Sullivan, of Hopewell township.

PLENTY—Wild Turkeys. Quite a number have been brought to this place within the last two weeks, by our sportsmen.

SEE advertisement of "Snow Powder," in another column.

HOTEL FOR SALE.—Wishing to relinquish business, I will sell at PRIVATE SALE my Tavern Stand in the borough of Saxton, known as the "Waverly House," with 2 lots of ground, upon which is a large number of choice fruit trees, (bearing), and six varieties of choice grapes, well and abundantly fruited; a large house, smoke house, ice house, with every convenience. The hotel contains 30 rooms. If not convenient, the hotel contains 30 rooms. If not convenient, possession given on April 1, 1867. nov20w4

AGENTS WANTED FOR THE MOST POPULAR AND BEST SELLING Subscription Books published. We are the most extensive publishers in the United States, having a large stock of books on hand, and are enabled to sell cheaper and pay agents a more liberal commission than any other company. Our books do not pass through the hands of retail Agents, (as nearly all other subscription works do), therefore we are enabled to give our canvassers the extra per cent, which is usually allowed to General Agents. Experienced canvassers will see the advantages of dealing directly with the publishers. Our series embraces the most popular works on all subjects of importance, and is selling rapidly both North and South. Old agents, and all others, who want the best paying agencies, will please send for circulars and samples, and return them, with their names and addresses, to the National Publishing Co., Philadelphia, Pa.; Boston, Mass.; Cincinnati, Ohio; Chicago, Illinois; St. Louis, Mo.; or Richmond, Va. nov20w4

SNOW POWDER.—Patented May 22, 1866. This is an article for washing without rubbing, except in very dirty places, which will require a very slight rub, and unlike other preparations offered for a like purpose, it does not rot the clothes, but will leave them much whiter than ordinary methods, without the usual wear and tear. It removes grease spots as if by magic, and softens the dirt by soaking, so that rinsing will clean clothes entirely removed. This powder is prepared in accordance with chemical science, and is a process peculiar to itself, which is secured by Letters Patent. It has been in use for more than a year, and has proved itself an universal remedy wherever it has been used. Among the advantages claimed are the following, viz: It saves all the expense of soap usually used on cotton and linen goods. It does most of the labor of rubbing, and wear and tear. It cleanses windows if it is ungrasped.—With one quarter the time and labor usually required it imparts a beautiful gloss and lustre, much superior to any other mode. No water is required except to moisten the powder. Directions with each package. And can be readily appreciated by a single trial. The cost of washing is from five or six persons will not cost THREE CENTS.

THE MANUFACTURERS OF THIS powder are aware that many useless compounds have been introduced to the public which have rotted the cloth, or failed in removing the dirt, but knowing the intrinsic excellence of this article, they confidently proclaim it as being adapted to meet a demand which has long existed, and which has heretofore remained unsupplied. Manufactured by BOWE & STEVENS, 139 N. 3rd St., Philadelphia, Pa. Also, manufacturers of Family Dry Colors. For sale by Grocers and Dealers everywhere. nov20w4

There is some good meadow land, and facilities for making more; also, a large Orchard of choice fruit.

REASONS WHY THE AMERICAN WATCH, MADE AT WALTHAM, MASS., IS THE BEST. It is made on the best principle. It is composed of solid plates. No part of its interior affords any opportunity for the entrance of dirt, and the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by hand, and the work is as accurate, as well as for its effectiveness, and is therefore properly made. The watch is what all mechanism should be—accurate, simple, strong and economical. Except some high grade watches, which for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, and are put together, and require constant repairs to keep them in any kind of order. All persons who have carried watches, and who have seen the "English Patent Levers," are perfectly well aware of the truth of this statement.

At the beginning of our enterprise, more than ten years ago, it was our object to make a thoroughly good low-priced watch for the million, to take the place of these foreign impositions, the saleable at home and perfectly worthless everywhere. How well we have accomplished this may be understood from the fact that after so many years of public trial we now make more than half of ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this device of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very highest grade known to chronometry, and unsurpassed by anything made in the world. For this purpose we have used the most perfect machinery, and in addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, and are now performing their work with consummate delicacy and exactness. The choicest and most approved materials are used, and the work is done with the best workmen in our service.
