Under this head may be classed—

1st. Scrofula,—This disense is hereditary and is transmitted from generation to generation. It is caused by a transgression of the laws of nature, both moral and physical; in other words, it is caused by rice. Acting as a latent poison, it reduces the vitality of the blood, and weakens the depurating organs, so that they full to discharge or east out the impurities that are confinually generating in the system. A person physically pure or east out the impurities that are continually generating in the system. A person physically pure acquires genorhea, or some other secret disease; he undergoes a course of mercury, the disease is dried up, and the patient pronou need well. Vain delusion. The complaint is not cured, its channel is only diverted. Instead of making its appearance outwardly, it acts on the internal consequences. is only diverted. Instead of in tax me appearance outwardly, it acts on the internal organs, and serofula, which is bequeathed from father to sou, is the result. Many persons who are perfectly free from all immortality and vice are afflicted with scrofula. They are suffering for the sins of their fathers and laboring under the curse inscribed inscribed in the Book of Books. "I will visit the injunities of the fathers muon their children," scribed in the Book of Books. "I will visit the iniquities of the fathers upon their children."

To cure this dreadful complaint it is necessary that the blood should be thoroughly purified, all the organs of the body brought into a healthy state of action, and the system braced up and strengthened by invigorating tonics. Look at the articles used in compounding Mishler's Bitters; see the array of purifying and invigorating medicaments, and say whether there is an article in the whole list of medicines that equals it. We here emphatically assert, without tear of contradiction, that

2d, Running Sores and Ulcers.—Running sores 2d, Running Sores and Ulcers.—Running sores and ulcers invariably indicate a scrofulous taint. They are caused by the efforts of nature to discharge the impurities of the blood. Many persons afflicted with running sores and ulcers succeeded in drying them up and think they are curred when the skin grows over the sore. They are, however, but making bad worse. To the impurities that were discharged from the system through the medium of the core now set internally and cause innumerable diseases and often death. The only true and sure cure for all running sores and ulcers is Mishler's Bitters, a continued and persevering use of which will most certainly effect a mermanuer. ase of which will most certainly effect a permana

4th. Pimples and Blotches.—Pimples and Blotches on the skin are always a sure sign of impure blood. Although never dangerous, except in eases of carbuneles, they are very disagreeable.—Often we will see the most handsome features rendered hideous by great blotches and pimples, and instead of the pleasing look which should irradiate the human face we see nothing but disgusting corruption; for pimples and blotches are nothing but the corrupt accumulations of the system expelled through the medium of the skin. The use of Mishler's Bitters will force these corruptions to be discharged through the natural channels, and thus cures all kinds of pimples and blotches. Ladies who desire a fair complection, free from pimples should bear this fact in mind.

confidence in its honesty and independence for the future.

The political transition of the present day opens to The News a new and wider field of usefulness. Standing now as it always has, on the inviolability of the Constitution, according to the interpretation of the strict constructionists, it presents a rallying ground for all, in both sections, who are friends of a generous conservatism. As a true and tried exponent of sectional amity it occupies a position which makes it the fitting mediator in holding up to the party of order in both sections, interests and principles that gave breadth and vitality to their alliance. As an intersectional agent, devoted to freedom of election, to trial by jury, to the sanctity of the habeas corpus, and opposed now, as for four years of terror it has been, to the centralization that dares to trample on the rights of States. North or South, The News places itself as a candidate for support before the great body of this once free people.

The circumstances of the moment make the dissemination of the principles of The News a duty of individual patriotism. Every man who concurs in its doctrines must if he eatertain a true sense of their with the earnestness of a high trust. Justified, may bound in his love of liberty to do so, the proprietor places the canvass he makes here of the public generally in the hands of those men who give him the approval of their consciences as his individual agents.
