WE CAN CONTROL the local State capitals, and it may be, slowly shape political thoughts, but we cannot combat existing ideas with force.

There is some speculation here as to the political tone of the forthcoming message of the President.

REASONS WHY AN AMERICAN WATCH MADE AT WALTHAM, MASS., IS THE BEST.

It is made on the best principle. It is composed of solid plates. No jar can interfere with the harmony of its working, and no sudden shock can damage its machinery.

How well we have accomplished this may be understood by the fact that in so many years of public trial we have made more than half of all the watches sold in the United States, and that no others have ever given such universal satisfaction.
