rity of the blood. In many persons this impurity born in the system; while others acquire it arough improper treatment of scores of disease Under this head may be classed-

1st, Scrofula,-This disease is hereditary and is transmitted from generation to generation. It is caused by a transgression of the laws of nature, both moral and physical; in other words, it is caused by vice. Acting as a latent poison, it reduces the vitality of the blood, and weakens the caused by vice. Acting as a latent poison, it reduces the vitality of the blood, and weakens the lepurating organs, so that they fail to discharge or acting in the system. A person physically pure nequires gonorhea, or some other secret disease; he undergoes a course of mercury, the disease; he undergoes a course of mercury, the disease is dried up, and the patient pronounced well. Vain lelusion. The complaint is not cured, its channel is only diverted. Instead of making its appearance outwardly, it acts on the internal organs, and serofula, which is bequeathed from father to son, its the result. Many persons who are perfectly free from all immorality and vice are afflicted with serofula. They are suffering for the sins of their lathers and laboring under the curse inscribed increased in the Book of Books. "I will visit the iniquities of the fathers upon their children."

To cure this dreadful complaint it is necessary that the blood should be thoroughly purified, all the organs of the body brought into a healthy start. nat the blood should be thoroughly purified, all eorgans of the body brought into a healthy state f action, and the system braced up and strengthe-sed in compounding Mishler's Bitters; see the ar-sed in compounding Mishler's Bitters; see the ar-sed purifying and invigorating medicaments, all say whether there is an article in the whole st of medicines that equals it. We here emphat-ally assert, without fear of contradiction, that

tanctions, it is a stimutant and a tonic and it will cure Scrofula.

2d, Running Sores and Ulcers.—Running sores and ulcers invariably indicate a scrofulous taint. They are caused by the efforts of nature to discharge the impurities of the blood. Many persons afflicited with running sores and ulcers succeeded in drying them up and think they are cured when the skin grows over the sore. They are, however, "but making bad worse," for the impurities that were discharged from the system through the medium of the sore now act internally and cause internally can be discovered and persevering use of which will most certainly effect a permanent e of which will most certainly effect a permanent

It is generally an eruption of vesicles in small, distinct ulcers, accompanied with a smarting, tingling sensation, with a tendency to creeper spread over the adjoining surface. Mishler's bitters are a sure cure for this disease.

DEVOTED TO Literature, Science and Art, and the Political Principles of 1776 and 1787.

C. CHAUNCEY BURR, EDITOR.

The success of THE OLD GUARD has been as remarkable as it ought to be gratifying to the friends of a true American literature. It has steadily doubled its circulation each year of its publication, and its publishers have found it necessary to annually enlarge it, to meet the full expectations of its patrons, as well as to realize their own ideal of a first-class Family and Literary Magazine, combined with sound political principles.—
To still farther carry out this design, The Old Guard for 1867 will be printed on new type, and enlarged sixteen additional pages, making in all nearly One Thousand Pages of reading matter yearly for the low price of three dollars! Arrangements have also been made to secure the very best literary talent of the country. We will commence in the January number a thrilling Romance, written expressly for The Old Guard, entitled,

JOSCELYN; A Tale of the Revolution; By Wm. Gilmore Simms, Esq., of S. C.,

the peer of Cooper and Irving, taking the reader back to the birth of the American principle of government, and introducing him to the rebels of 1776. John Esten Cooke, Esq., of Virginia, auth-or of "Surry of Eagle's Nest," &c., &c., will fur-nish a series of graphic sketches, entitled "The

ON SATURDAY, JANUARY 6, 1866, Messrs. TICKNOR & FIELDS began the pubof a weekly journal entitled EVERY SATURDAY: A JOURNAL OF CHOICE READING,

SELECTED FROM FOREIGN CURRENT LITERATURE.

Much of the best literature of the day is found in the English and Continental magazines and periodicals; and it is the design of the Publishers of this new journal to reproduce the choicest selections from these for American readers, in a form at once attractive and inexpensive. The publishers believe that such a journal, conducted upon the plan which they propose, will be not only entertaining and instructive in itself, but interesting and valuable as a reflex of foreign periodical literature of the better class.

EVERY SATURDAY is intended for town and country, for the fireside, the seaside, the railway and the steamboat. Its plan embraces Incidents of Travel and Adventure, Essays Critical and Descriptive, Serial Tales, Short Stories, Poems, Biographies, Literary Intelligence, etc., in connection with judicious selections from the admirable popular papers on science which are constantly appearing in foreign periodicals. The value of these papers arises from the fact that scientific subjects, however harsh and dry in themselves, are here treated in so graphic and picturesque a style as to charm the reader while instructing him.

It will be, in short, the aim of its publishers that EVERY SATURDAY shall commend itself by its freshness and variety to all classes of intelligent and cultivated readers.

ess and variety to all classes of intelligent and EVERY SATURDAY will contain each week thirty-two large octavo pages, handsomely printed in dou-ble columns, with an engraved title.

REASONS WHY

MADE AT WALTHAM, MASS.,

IS THE BEST.

It is made on the best principle. It is composed of SOLID PLATES. No jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery, (itself famous for its novelty, as well as for its effectiveness) and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "ancres," "lepines," and "English Patent Levers," are perfectly well aware of the truth of this statement.

At the beginning of our enterprise, more than ten years ago, it was our first object to make a thoroughly good low-priced watch for the million, to take the place of these foreign impositions, the refuse of foreign factories, which were entirely un-saleable at home and perfectly worthless every-

saleable at home and perfectly worthless everywhere.

How well we have accomplished this may be understood from the fact that after so many years of public trial we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very highest Grade Known to chronometry, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for less money than foreign watches but we do assert, without fear of contradiction, that for the SAME MONEY our product is incompably superior. All our watches, of whatever grade, are fully warranted.

Cotton and linen goods.

It saves most of the labor of rubbing, and wear and tear.

Also, for cleaning windows it is unsurpassed.—

With one quarter the time and labor usually required it imparts a beautiful gloss and lustre, much superior to any other mode. No water required except to moisten the powder.

Directions with each package.

And can be readily appreciated by a single trial. The cost of washing for a family of five or six persons will not exceed trike ECENTS.

The manufacturers of this powder are aware that many useless compounds have been introduced to the public which have rotted the cloth, or failed in removing the dirt, but knowing the in trinsic excellence of this article, they confidently proclaim it as being adapted to meet a demand which has long existed, and which has heretofore remained unsupplied.

From the Philad'a Evening Bulletin, Mar., 10.] We are gratified to hear of the continued success, in New York, of our townsman, Mr. H. T. Helmbold, Druggist. His store, next to the Metropolitan Hotel, is 28 feet front, 230 feet deep, and five stories in height. It is certainly a grand establishment, and speaks favorably of the merit of his articles. He retains his Office and Laboratory in this city, which are also model establishments of their class.

HORSE AND CATTLE POWDERS.

THESE Powders have proved after a trial of several years, to be superior to any preparation of the kind in use. The chief superiority of these powders arises from the fact that they are composed of medicines that have Laxative. Tonic and Purifying properties. The laxative ejects crudities from the stomach and intestines, the tonic gives strength to the system of the Horse, and the purifying medicines contained in them cleanse the blood, and lay the foundation for a vigorour and healthy circulation. The use of them improves the wind, strengthens the appetite and gives the horse a fine, smooth and glossy skin—thus improving the appearance, vigor and spirit of this noble animal.

These powders are not intended, as west years. HORSE AND CATTLE to various means of effecting sales, such as copying parts of advertisements of popular remedies, and

These powders will strengthen the stomach and intestines, cleanse them from offensive matter, and bring them to a healthy state. They are a sure preventive of Lung Fever, and a certain remedy for all diseases incident to the Horse, as Glanders, Yellow Water, Distempers, Founder, Heaves, Slaveirrg, Coughs, Fevers, Loss of Appetite, and Vital Energy, &c.—These Powders, if used two or three times a week, through the winter and spring, your horse will never get the Lung Fever, Colic or Botts. A few doses of these powders will remove the worst cough, on any horse. Were owners of horses to feed a few of these powders every year, they might save the lives of many valuable horses.
