

AGENTS TO OBTAIN SUBSCRIPTIONS TO THE GAZETTE.

Circulate your County Paper. The following named gentlemen have been appointed Agents to obtain subscriptions to the Gazette.

A PREP BEHIND THE CURTAIN.

There appears to be a free fight on the U. S. Senator question. Not only does the quarrel rage among the Democrats, but it has been extended even to the ranks of the Democracy.

On the thirtieth of January last, Gov. Curtin sent his annual message to the Legislature, concluding it with these words:

"My uniform course during the late war, was to avoid the discussion of the policy of the General Government, while giving a hearty support to the National authorities in all their measures to suppress this rebellion."

Here we find Gov. Curtin giving unequivocal support to the restoration policy of President Johnson, and promising in the most positive manner, that he would abstain from all discussion of that policy.

Our object in referring to this matter is two-fold. First, as one of the Democratic arbiters appealed to by the Mongrel candidates to settle their Senatorial difficulty, it becomes our duty to warn our Radical friends against repeating the mistake they made in electing Edgar Cowan.

As for our Democratic friends, let them know that, although Gov. Curtin has frequently received the support of Democratic representatives in the Legislature, when those of his own party turned their backs upon him, he has always proved false to his promises made in return for such kindness.

It is enough to know that he did break it. The fact is that he is incapable of fidelity to any thing, or any body. The very fact that he publicly and in the most solemn manner declared himself in favor of the President's policy, at the same time announcing that he would not, in the future, discuss the measures of the Federal Government, and afterwards took the stump in opposition to the President's policy and in favor of the opposite doctrine, is conclusive proof of this assertion.

We might also call upon the stand at least a dozen of the prominent Radicals in this State, who would be compelled, if they spoke the truth, to testify to the faithlessness we charge upon him. Nay, we can prove by Gov. Curtin's admission, over his own signature, that he proved false to his promise to Francis Jordan, Esq., to make the latter Attorney General, during the first three years of his administration, and that while the Governor acknowledged his faithlessness, in this instance, he also admitted that he himself did not know why he did not keep his promise to Mr. Jordan.

THE CONTROL OF THE FEDERAL PATRONAGE.

Some people imagine that the Democratic party, during the late political canvass, had under its control the patronage of the Federal Government.—This is a most absurd mistake. Why, in Pennsylvania, more than one-half the Federal offices are at this day filled by opponents of the Democracy.

THE BARGAIN AND SALE IN THE LEGISLATIVE NOMINATIONS FOR THIS DISTRICT.

It will be remembered that when the Mongrel conferees of this Representative and Senatorial district met in this place, last summer, to nominate candidates for Representatives and Senator, there was a hitch in their proceedings, which lasted until Simon Cameron, who was then at the Springs, arrived in town.

The Fulton Republican seems to have been embraced in the general purchase made by Simon Cameron when the Senatorial and legislative nominations were made in that district, and it is part of the property delivered. The contract to deliver the Representatives to Cameron by a few purchasable politicians will be somewhat difficult, although the Republican is struggling earnestly to clear the way for it.

AN ORIENTAL MAXIM.

A quaint philosophy of the East speaks as follows: "If a man knows, and knows what he knows, he will lead a happy life. If he does not know, and knows that he does not know, he will lead a tolerable life. But if he does not know, and does not know that he does not know, he will lead a wretched life."

THIRTY-EIGHT MILLIONS.

One of the appropriation bills before Congress sets apart \$38,000,000 for the Freedmen's Bureau. We call that paying for the whistle!

It appears that GEARY has gone over, body and breeches, to the clan Cameron. His appointment of Ben. Brewster, as Attorney General, and Major Tom. Maguire, as Private Secretary, (both of them "life-long Democrats") also hurts the feelings of many of his Republican supporters.

HON. T. H. PURDY has sold his paper, the Northumberland Democrat, to Messrs. J. E. Eicholtz and J. J. Auten. We are sorry that we are no longer to read Mr. Purdy's pungent and trenchant editorials.

We learn that Gov. Geary has appointed R. H. Brewster, of Philadelphia, Attorney General, and Francis Jordan, formerly of this place, Secretary of State. The latter was an applicant for the Attorney Generalship. Poor little John Cessna! How disappointed he must feel!

We are informed by a telegraphic despatch, that Highspire, Dauphin county, at the election held in that place, on Friday last, elected the whole Democratic ticket by a large majority.—"There is life in the old land yet," even in Dauphin county.

TALK about the intelligence of New England! That section dominates in Congress, yet that body has passed a tariff bill which imposes a duty on "linseed" and at the same time exempts "flaxseed."

We are under obligations to Hon. C. R. Buckalew, of the U. S. Senate, and Hon. W. H. Koontz, M. C., for documentary favors.

"K" TO THE RESCUE.

We give place to the following communication, handed us by a prominent "Republican," because we "sympathize" with him (not politically, but literally) and because so far as duty to friends and readers will allow, we are always ready to give all sides "a hearing." "K" is certainly correct as to the smallness of anonymous articles written for the purpose of vilification.

THE GALAXY.—This new candidate for public favor, is rapidly increasing in popularity. The Philadelphia Legal Intelligencer thus speaks of the December number of this work:

Editors:—I have noticed, for several weeks, a number of publications in your paper and in the Inquirer, over fictitious names, as per example, "Pilgrim," "Homespun," and "Uncle Toby." The first communication over any of these names appeared in the Inquirer. It was "Pilgrim's" effort at Southampton.

But I am surprised to see how you editors (of both papers) sometimes bore your readers with such unprofitable communications of would-be great composers of literature. What nonsense is such an article, put in measure, as appeared in your paper a year or more ago, over the signature of Uncle Toby! You may have given it room in your columns through sympathy, because the Inquirer had refused it place.

THE LADY'S FRIEND, for January, has been received and we do not hesitate to pronounce it a superb number. This excellent magazine is not surpassed by any of a similar kind in the country, and should be in every household.

again it should be about four years from now, so as to raise the inference that he has become wiser, and then he should let his first letter be an apology for that little act of his life, in which he tried to steal the honors of the "Keystone Railroad" man, reposing in the "Shadow of the Mountain," as a warrior taking his rest.

There are now seventy-eight manufactory of cotton, calico and woollen goods in Georgia. General Grant is convalescent from his recent illness, a severe cold, and is again at duty.

FROM THE CLEVELAND COAL REGION.

MESSRS. MEYERS & MENDEL.—Thinking a few lines from this county might be acceptable to you, I will give you some items. The oil well at our neighboring town of Wellersburg, Pa., is down 850 feet. The last 150 feet was solid rock and took four months regular drilling.

A rich lead mine has been discovered in East Tennessee. Gen. Thomas will be president of a company to work it. A Boston minister has been preaching against tilting hoops. He says he can't shut his eye to the abomination any longer.

A dreadful accident occurred near Barton, Md., on Friday, 14th inst. The engine of a coal train upset, whilst running at full speed, killing the engineer and his little son and a man by the name of Barcus. Three others were so badly hurt that their recovery is said to be impossible.

PERIODICALS.

THE GALAXY.—This new candidate for public favor, is rapidly increasing in popularity. The Philadelphia Legal Intelligencer thus speaks of the December number of this work: The present number completes the second volume, and great inducements are offered for the coming year.

—Negotiations are pending for the introduction from China by the new mail steamship line, of a large force of laborers for the Central Pacific railroad. The hog cholera is prevailing in various sections of Indiana. In Warwick county most of the farmers have lost their entire stock by this disease.

—The temperance movement is making great headway in St. Louis. A new hall, to cost \$20,000, is about to be commenced. Frequent earthquake shocks in Sacramento and other points along the Pacific coast, remind the inhabitants that many things are passing away.

—New York city polled almost as many votes at the late State election as the entire State of Massachusetts—only four thousand less. Negotiations are pending for the introduction from China by the new mail steamship line, of a large force of laborers for the Central Pacific railroad.

—The temperance movement is making great headway in St. Louis. A new hall, to cost \$20,000, is about to be commenced. Frequent earthquake shocks in Sacramento and other points along the Pacific coast, remind the inhabitants that many things are passing away.

it is an excellent number. Address L. A. Godey, N. E. corner sixth Chestnut sts., Philadelphia.

—A Western editor says: We learn from South America that there is "war on the Plate," and Prentice adds: When General Butler was in New Orleans there was a terrible war on the plate—the gold and silver plate. —The owner of the farm known as Dutch Gap, finding that the island might be cut off by the cutting of Butler's canal could not be conveniently put to use without some means of communication with the mainland, has gone to work filling up one end of the canal, in order to create a causeway; and the great canal will soon be among the things that were.

THE WAR IN PARAGUAY.—The war on the River Plate has, for some time been taking a turn specially unfavorable to Brazil. There are indications that there may be still greater troubles in store for the South American Empire. Paraguay has long been in negotiation with Bolivia for the conclusion of an alliance, and the last mail brings a report that a treaty, offensive and defensive, has been concluded, according to which Bolivia will supply to Paraguay a contingent of 2,500 men, carry the war into Brazil, and, if possible, repudiate that country. If this report should be confirmed Brazil will find it exceedingly difficult, if not impossible, to defend its Western Provinces, the only communication with which in former years was by rivers now made impassable by the guns of the Paraguayans. It is also confirmed that both the Presidents of the Argentine Republic and Uruguay are powerless to aid any longer in carrying on the war. The latter may any moment be unseated by his opponents at home; and the former is even said to be favorable to the alliance between Paraguay and Bolivia.

THE DRY TORTUGAS PRISONERS.—The Washington Republican of yesterday says: We learn that Judge Wayne, of the Supreme Court of the United States, will, under the recent decision of that tribunal against the right of military commissions to try citizens not in the military or naval service, issue a writ by which Dr. Mudd, one of the assassin conspirators, will be removed from confinement at the Dry Tortugas and brought before a civil tribunal for trial.

THE NORTH CAROLINA COMMISSION.—The Raleigh Sentinel of Friday says: "Gov. Worth, Judge Ruffin and Gov. Swain returned from Washington city last night to this city, having accomplished their mission entirely to their satisfaction. They speak in high terms of the courtesy and promptness of the President, and his readiness to execute with fidelity his obligations to the entire country. Their intercourse with the officials of the Government and leading members of Congress was entirely courteous and pleasant, and they return with the hope, mingled with much anxiety, that coming events will not be as direful and destructive to the peace and welfare of the South as recent developments have led our people to fear."

ABOUT FEET.—A lady writer, who can doubtless spring for herself a nkle exquisitely fragile—speaks thus sensibly and sharply in regard to the new edict of imperial fashion which prescribes short skirts and small crinolines. Mind you, ladies fair, they are the words of your sex, not ours—but though not a party we are interested lookers on. All of upper tandom and japonicadum is in a flutter of anxious excitement about the new fashion of short skirts. The new aristocracy that came in with the war (confidentially) cannot all of their boast of little feet, the arching instep and slender make that should accord with their brilliant surroundings. Mesdames Oil, Shoddy and Peat, are rather large and bony, with ill-kept nails and stubby as to the hands, and the feet are certainly not models for a sculptor, if we may judge from observation and an eye quick to observe these little mistakes in nature. Complexions may be made, forms made over, and capacities may be bought for new and rustling greenbacks; but what skill can fashion into symmetry a clumsy foot and ankle? How can gloves ever be made to hide the size of the hand? Thus the short skirts, just escaping the ground, and a very small crinoline, though presenting so piquant and neat an appearance, are surveyed with horror by those who cannot disclose "little feet that peep in and out like mice."

GOOD IDEA.—An exchange well says that in view of the financial changes which have taken place during the past five years; our school arithmetics should be revised and adapted to the present state of things; the price given in the example should be those of the present day; the difference between gold and currency recognized; the mode of computing the national income tax explained; different class of U. S. securities described, and examples given to show the result of investment in them. —It is said that the Government detectives are unable to find L. Lad, the tavern keeper at Surrattsville, who gave testimony for the Government on the trial of Mrs. Surratt, Paine, and others, and also George Wilkman, another witness, who held a Government office as deputy clerk. This is not strange. The wonder is that many more have not "turned up missing," considering that they are wanted by a court which will not put a premium upon lying.

"My dear," said a husband to his affectionate better half, after a little squabble, "you'll certainly never be permitted to go to heaven." "Why not?" "Because you will be wanted as tormenter below." MISCEGENATION.—"A good-looking, intelligent, well dressed, tidy and prepossessing white girl," of Ohio, has married a big Sambo, about seven degrees blacker than a bucket of coal tar. Mated doves. Two souls with but a single thought, Two colors mixed as one.

It is proposed to light the streets of a certain village with red-headed girls. Quadrat, of the Lexington Gazette, says if he lived there he'd play tipple every night and hug the lamp-posts.

SPECIAL NOTICES.

DR. SCHEENCK'S PULMONIC SYRUP. This great medicine cured Dr. J. H. Schenck, the proprietor, of Pulmonary Consumption, when it had assumed its most formidable aspect, and when speedily death appeared to be inevitable. His physicians pronounced his case incurable, when he commenced the use of this simple but powerful remedy. His health was restored in a very short time, and no return of the disease has been apprehended, for all the symptoms quickly disappeared, and his present weight is more than two hundred pounds.

Since his recovery, he has devoted his attention exclusively to the cure of Consumption, and the diseases which are usually complicated with it, and the cures effected by his medicines have been very numerous and truly wonderful. Dr. Schenck makes professional visits to several of the larger cities weekly, where he has a large concourse of patients, and it is truly astonishing to see poor consumptives that have been lifted out of their carriages, and in a few months healthy, robust persons. Dr. Schenck's PULMONIC SYRUP, SEAWATER TONIC, and MANDEKAE PILLS, are generally all required in curing Consumption. Full directions accompany each, so that a very one can take them without seeing Dr. Schenck. If you give advice free, it is best to see him. He gives advice free, but for a thorough examination with his Respirator his fee is three dollars.

Please observe, when purchasing, that the two likenesses of the Doctor, one when in the last stage of consumption, and the other as he now is, in perfect health, are on the Government stamp up.

Sold by all druggists and dealers, price \$1.50 per bottle, or \$7.50 the half dozen. All letters for advice should be addressed to Dr. Schenck's principal office, No. 15 North Sixth street, Philadelphia, Pa.

TO OWNERS OF HORSES AND CATTLE.—TOMAS' DERRY CONDITION POWDERS are warranted superior to any others, or to pay for the cure of Distemper, Worms, Bots, Coughs, Hiccups, Colic, &c., in Horses, and Colds, Coughs, Loss of Milk, Black Tongue, Horn Distemper, &c., in Cattle. These Powders were formerly put up by Simpson J. Tobias, son of Dr. Tobias, and since his death, the demand has been so great for them, that Dr. Tobias has continued to manufacture them. They are perfectly safe and innocent; no need of stopping the working of your animals. They increase the appetite, give a fine coat, cleanse the stomach and urinary organs; also increase the milk of cows. Try them, and you will never be without them. Hiram Woodruff, the celebrated trainer of trotting horses, has used them for years, and recommends them to his friends. Col. Philip P. Bush, of the Jerome Race Course, Fortham, N. Y., would not use them until he was told of what they are composed, since which he is never without them. He has over 20 running 1000s in his charge, and for the last three years he has used no other medicine for them. He has kind'y permitted me to refer any one to him. Over 1,000 bottles of Tobias' Condition Powders, sold by Druggists and Saddlers. Price 25 cents per box. Depot, 55 Cortlandt Street, New York. nov2067
