MISHLER'S BITTERS

CURE ALL DISEASES OF THE SKIN! inform the public that he has leased the hotel lately kept by Mr. S. Crissman, St. Clairsville, Pa.,
where he will accommodate all who may favor
him with their custom. Diseases of the skin are numerous and, with but one or two exceptions, may all be traced to impurity of the blood. In many persons this impurity is born in the system; while others acquire it through improper treatment of scores of diseases. Under this head may be classed-

1st. Scrofula,-This disease is hereditary and in Ist. Scrolula,—This disease is hereditary and is ransmitted from generation to generation. It is caused by a transgression of the laws of nature, both moral and physical; in other words, it is caused by vice. Acting as a latent poison, it reluces the vitality of the blood, and weakens the caused by vice. Acting as a latent poison, it reduces the vitality of the blood, and weakens the depurating organs, so that they fail to discharge or cast out the impurities that are continually generating in the system. A person physically pure acquires gonorhea, or some other secret disease; he undergoes a course of mercury, the disease is dried up, and the patient pronounced well. Vain delusion. The complaint is not cured, its channel is only diverted. Instead of making its appearance outwardly, it acts on the internal organs, and scrofula, which is bequeathed from father to son, is the result. Many persons who are perfectly free from ell immorality and vice are afflicted with scrofula. They are suffering for the sins of their fathers and laboring under the curse inscribed inscribed in the Book of Books. "I will visit the iniquities of the fathers upon their children."

To cure this dreadful complaint it is necessary that the blood should be thoroughly purified, all the organs of the body brought into a healthy state of action, and the system braced up and strengthened by invigorating tonics. Look at the articles used in compounding Mishler's Bitters; see the array of purifying and invigorating medicaments, and say whether there is an article in the whole list of medicines that equals it. We here emphatically assert without over 6 contradiction that \$1,500 PER YEAR! We want agents every where to sell our IMPROVED \$20 Sewing Machines. Three new kinds. Under and upper feed. They are caused by the efforts of nature to discharge the impurities of the blood. Many persons afflicted with running sores and ulcers succeeded in drying them up and think they are cured when the skin grows over the sore. They are, however, "but making bad worse," for the impurities that were discharged from the system through the medium of the sore now act internally and cause innumerable diseases and often death. The only true and sure cure for all running sores and ulcers is Mishler's Bitters, a continued and persevering This Lecture with the AND THOUSANDS.

Bloody Run, March 15, '66 Often we will see the most handsome features rendered hideous by great blotches and pimples, and instead of the pleasing look which should irradiate the human face we see nothing but disgussing corruption; for pimples and blotches are nothing but the corrupt accumulations of the system expelled through the medium of the skin. The use of Mishler's Bitters will force these corruptions to be discharged through the natural channels, and thus cures all kinds of pimples and blotches. The success of THE OLD GUARD has been as remarkable as it ought to be gratifying to the friends of a true American literature. It has stead ily doubled its circulation each year of its publication, and its publishers have found it necessary to annually enlarge it, to meet the full expectations of its patrons, as well as to realize their own ideal of a first-class Family and Literary Magazine, combined with sound political principles.

To still farther carry out this design, The Old Guard for 1887 will be printed on new type, and enlarged sixteen additional pages, making in all nearly One Thousand Pages of reading matter yearly for the low price of three dollars! REASONS WHY AMERICAN WATCH, MADE AT WALTHAM, MASS.

IS THE BEST. It is made on the best principle. It is composite of solid plates. No jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery, (itself famous for its novelty, as well as for its effectiveness,) and is therefore properly made. The watch is what all mechanism should be accordant survey. properly made. The watch is what all mechanism should be—accurate, simple, strong and economical. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, serewad and riveted together, and require constant vepairs to keep them in any kind of order. All persons who have carried "ancres," "lepines," and "English Patent Levers," are perfectly well aware of the truth of this statement.

At the beginning of our enterprise, more than ten years ago, it was our first object to make a thoroughly good low-priced watch for the million, to take the place of these foreign impositions, the refuse of foreign factories, which were entirely unsaleable at home and perfectly worthless everywhere.

where.

How well we have accomplished this may be understood from the fact that after so many years of public trial we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of ou: business is continued with increased facilities for perfect work we are at present energed in the manness is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very highest Grade
KNOWN TO CHRONOMETRY, unequaled by anything
hitherto made by ourselves, and unsurpassed by
anything made in the world. For this purpose
we have the amplest facilities. We have erected
an addition to our main building expressly for
this branch of our business, and have filled it with that for the SAME MONEY our product is incomp. bly superior. All our watches, of whatever grad are fully warranted, and this warrantee at all times against us or our agents in all parts of Caurion.—The public are cautioned to buy only of respectable dealers. NOW POWDER .- Patented May 29, 1856. This is an article for washing without rubbing, except in very dirty places, which will require a very slight rub, and unlike other preparations offered for a like purpose, WILL NOT ROT the clothes, but will leave them much WHITER than ordinary methods, without the usual wear

It removes grease spots as if by magic, and sof-tens the dirt by soaking, so that rinsing will in or-dinary cases entirely remove it. This powder is prepared in accordance with chemical science, and upon a process peculiar to itself, which is secured by Letters Patent. It has been in use for more than a year, and has proved itself an universal favorite wherever it has been used. Among the advantages claimed are the following vity. lowing, viz:

It saves all the expense of soap usually used on cotton and linen goods.

It saves most of the labor of rubbing, and wear
