MISHLER'S BITTERS

CURE ALL DISEASES OF THE SKIN! Diseases of the skin are numerous and, with but one or two exceptions, may all be traced to impurity of the blood. In many persons this impurity is born in the system; while others acquire it through improper treatment of scores of diseases. Under this head may be classed-

Ist, Scrofula.—This disease is hereditary and is transmitted from generation to generation. It is caused by a transgression of the laws of nature, both moral and physical; in other words, it is caused by vice. Acting as a latent poison, it reduces the vitality of the blood, and weakens the depurating organs, so that they fail to discharge or east out the impurities that are continually generating in the system. A person physically pure acquires gonorhoea, or some other secret disease; he undergoes a course of mercury, the disease is dried up, and the patient pronounced well. Vain delusion. The complaint is not cured, its channel is only diverted. Instead of making its appearance outwardly, it acts on the internal organs, and scrofula, which is bequeathed from father to son, as the result. Many persons who are perfectly free from all immorality and vice are afflicted with scrofula. They are suffering for the sins of their fathers and laboring under the curse inscribed insertibed in the Book of Books. "I will visit the iniquities of the fathers upon their children."

To cure this dreadful complain: it is necessary that the blood should be thoroughly purified, all the organs of the body broughtint oa healthy state of action, and the system braced up and strengthered by invisorating tonics. Look at the articles 1st, Scrofula,-This disease is hereditary and i

on, and the system braced up and strength of action, and the system oraced up and strength-ened by invigorating tonics. Look at the articles used in compounding Mishler's Bitters; see the ar-ray of purifying and invigorating medicaments, and say whether there is an article in the whole list of medicines that equals it. We here emphat-ically assert, without lear of contradiction, that

Mishler's Bitters will Cure all kinds of Scrofulous Diseases. It purifies the blood, it strengthens the internal organs and aids them to perform their natural functions, it is a stimulant and a tonic and it will

cure Scrofuls.

2d, Running 3ores and Ulcers.—Running sores and ulcers invariably indicate a scrofulous taint. They are caused by the efforts of nature to discharge the impurities of the blood. Many persons afflicted with running sores and ulcers succeeded in drying them up and think they are cured when the skin grows over the sore. They are, however, "but making bad worse," for the impurities that were discharged from the system through the medium of the sore now act internally and cause innumerable diseases and often death. The only true and sure cure for all running sores and ulcers is Mishler's Bitters, a continued and persevering use of which will most certainly effect a permanent and its publishers have found it necessary to annually enlarge it; to meet the full expectation, and its publishers have found it necessary to annually enlarge it; to meet the full expectation, and its publishers have found it necessary to annually enlarge it; to meet the full expectation, and its publishers have found it necessary to annually enlarge it; to meet the full expectation, and its publishers have found it necessary to annually enlarge it; to meet the full expectation, and its publishers have found it necessary to annually enlarge it; to meet the full expectation, and its publishers have found it necessary to annually enlarge it; to meet the full expectation, and its publishers have found it necessary to annually enlarge it; to meet the full expectation annually enlarge it; to meet the full expectation, and its publishers have found it necessary to annually enlarge it; to meet the full expectation, and its publishers have found it necessary to annually enlarge it; to meet the full expectation, and its publishers have found it necessary to annually enlarge it; to meet the full expectation, and its publishers have found it necessary to annually enlarge it openance it was the full expectation, and its publishers have found it necessary to annually enlarge it openance it was the full expectation.

SKIRT.

The wonderful flexibility and great comfort and pleasure to any lady wearing the DUPLEX ELLIPTIC SKIRT will be experienced particularly in crowded Assemblies. Operas, Carriages, Railroad Care, Church Pews, Arm Chairs, for Promenade and House Dress, as the Skirt can be folded when in use to occupy a small place as easily and conveniently as a silk or muslin dress, an invaluable quality in cripoline, not found in any single spring ity in crinoline, not found in any single spring

Skirt.

A lady having enjoyed the pleasure, comfort, and great convenience of wearing the Duplex Elliptic Steel Spring Skirt for a single day, will never afterwards willingly dispense with their use. For Children, Misses and Young Ladies they are superior to all others.

They will not bend or break like the single spring, but will preserve their perfect and graceful shape when three or four ordinary Skirts will have been thrown aside as useless. The Hoops are covered with double and twisted thread, and the bottom rods are not only double springs, but twice (or double) covered: preventing them from wearing out when dragging down stoops, stairs, &c.

The Duplex Elliptic is a great favorite with all ladies and is universally recommended by the Fashion Magazines as the Standard Skirt of the Fashion Magazines as the STANDARD SKIRT of the Fashionable World!

EVERY SATURDAY: A JOURNAL OF CHOICE READING, SELECTED FROM FOREIGN CURRENT LITERATURE

Much of the best literature of the day is found in the English and Continental magazines and periodicals; and it is the design of the Publishers of this new journal to reproduce the choicest selections from these for American readers, in a form at once attractive and inexpensive. The publishers believe that such a journal, conducted upon the plan which they propose, will be not only entertaining and instructive in itself, but interesting and valuable as a refex of foreign periodical literature of the better class.

EVERY SATURDAY is intended for town and country, for the fireside, the seaside, the railway and the steamboat. Its plan embraces incidents of Travel and Adventure, Essays Critical and Descriptive,

and Adventure, Essays Critical and Descriptive, Serial Tales, Short Stories, Poems, Biographies, Literary Intelligence, etc., in connection with ju-dicious selections from the admirable popular pa-pers on science which are constantly appearing in foreign periodicals. The value of these papers arises from the fact that scientific subjects, however harsh and dry in themselves, are here treated in so graphic and picturesque a style as to charm the reader while instructing him.

It will be, in short, the aim of its publishers that Every Saturday shall commend itself by its freshment of the state of the state

R E A S O N S W H Y AMERICAN WATCH, MADE AT WALTHAM, MASS., IS THE BEST.

It is made on the best principle. It is compo of solid plates. No jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery, (itself famous for its novelty, as well as for its effectiveness,) and is therefore properly made. The watch is what all mechanism should be—accurate, SIMPLE, STRONG AND ECONOMICS. Except some high grades, too costly for should be—ACCURATE, SIMPLE, STRONG AND ECO-NOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted to-gether, and require constant repairs to keep them in any kind of order. All persons who have car-ried "ancres," "lepines," and "English Patent Levers," are perfectly well aware of the truth of this statement.

At the beginning of our enterprise, more than ten earns ago, it was our first object to make a thoroughly good low-priced watch for the million, to take the place of these foreign impositions, the refuse of foreign factories, which were entirely un-saleable at home and perfectly worthless every-

of public trial we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of ou: business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequalled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines this branch of our business, and have lifted it with the best workmen in our service. New machines and appliances have been constructed, which per form their work with consummate delicacy and exactness. The choicest and most approved ma terials only are used, and we challenge comparison between this grade of our work and the finest im-ported chronometers. We do not pretend to sell our watches for LESS MODEL than roots that but we do assert, without fear of contradiction, that for the SAME MONEY our product is incompably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is at all times against us or our agents in all parts of the world. CAUTHON.—The public are cautioned to buy only of respectable dealers. All persons selling coun-

terfeits will be prosecuted. ROBBINS & APPLETON,

FROM THE LARGEST MANUFACTURING CHEMIST IN THE WORLD.

I am acquainted with H. T. Helmbold; he occupied the drug store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and

WM. WEIGHTMAN, (Firm of Powers & Weightman,) Manufacturing Chemists, Ninth and Brown Streets, Philadelphia.

From the Philad'a Evening Bulletin, Mar., 10.] We are gratified to hear of the continued success, in New York, of our townsman, Mr. H. T. Helmbold, Druggist. His store, next to the Metropolitan Hotel, is 28 feet front, 230 feet deep, and five stories in height. It is certainly a grand establishment, and speaks favorably of the merit of his articles. He retains his Office and Laboratory in this city, which are also model establishments

1867. "THE WORLD."-1867. The attention of the public is invited to the claims of "The World" as one of the leading public journals of the country. It is the chief organ of the Democratic Party of the United States, and the foremost advecate of the immediate restoration of the Union. Its highest merits consists in its character as an enterprising and trustworthy newspaper.

paper.

The next year bids fair to be a more critical one in the history of our free institutions than even The next year bids fair to be a more critical one in the history of our free institutions than even any eventful ones that have preceded it. The first requisite for an intelligent judgment of public affairs is a full and authentic account of facts as they with consciencious accuracy, and with equal fullness and fidelity, whether they make for or against its own views of public policy. Prompt activity in spreading before its readers every kind of news in which any part of the public takes an interst, is the first duty of a newspaper, and the facilities of The World for discharging this obligation are unsurpassed by those of any journal in the United States. Whatever else it may fail in, it certainly will not fail to furnish the news, nor to supply it with such promptitude, spirit, freshness, abundance, variety, accuracy and candor, that no class of readers can miss anything of interest which with such promptitude, spirit freshness, abundance, variety, accuracy and candor, that no class of readers can miss anything of interest which they wish to find. The World will publish documents and arguments prepared by political friends; making its own comments on them, of course, but never suppressing or garbling them because they are calculated to damage its own party. Adverse arguments, which it cannot refute, it is content to leave to make their full impression. The World adopts this rule because it believes no other is honest; because it conceives that its first duty to its readers is to keep them thoroughly informed on every passing subject of importance. In politics, The World will continue to be the bold advocate of a Liberal, Progressive Democracy. The unflinching champion of Freedom, Justice, Order and Constitutional Rights. The inspiration of its politics is Freedom restrained by Justice; or, to speak more strictly, Freedom pure and simple, in the largest collective mensure; the office of justice being merely to protect freedom from encroachments; Freedom of the individual citizen in his rights of thought, speech, religion and locomotion; in his Right to choose his own food and drink, in spite of meddlesome temperance laws: in his Right to make any money bargains he thinks proper, in spite of meddlesome temperance laws: in his Right to make any money bargains he thinks proper, in spite of unjust protective tariffs: in his Right to represent spite of foolish usury laws; in his Right to buy and sell in all markets, domestic and foreign, in spite of unjust protective tariffs; in his Right to representation in the legislative bodies which tax him, in spite of unconstitutional exclusions; Freedom of collective citizens to assemble for discussion of grievances; Freedom of all local communities to manage their local affairs without central interference; Freedom in every section of the country from the arrogant and unconstitutional domination of other sections; this large and comprehensive idea of Freedom sums up the politics of The World, which will never be found wanting to this capital interest of the country and of the human capital interest of the country and of the human

In its accurate Commercial Intelligence and careful, reliable market reports, THE WORLD will continue to maintain its present high reputation.

A paper published in the commercial metropolis is naturally looked to for authentic information relating to trade, commerce and finance; and this being a teature in which the The World prides itself, it boldly challenges comparison with every journal in the metropolis.

success since its union with the New York Argus has justified the most liberal expenditures, which will make it unrivalled in interest and value to farmers. Published Wednesday.

1. Its Market Reports embrace the New York, Albany, Brighton and Cambridge Live Stock Markets; the New York Country Produce and General Produce Markets; special and valuable Hop Intelligence; a department of Agricultural Reading; all together composing an unrivalled handbook of current information for the Farmer, Live Stock or Produce Dealer, Country Merchant, &c.

2. A page or more reserved for entertaining Fireside Reading for the Family circle, embracing the freshest and best Stories, Poetry, Religious Reading, etc., and a page for the Discussion of all Prominent Topics of general interest, political, agricultural, financial, literary, etc.

3. Its Digest of the News is not, like most weeklies, a mere waste-basket of the Daily; only matters of interest and importance are chosen from the Daily, while the mass of its contents are prepared especially for the Weekly.

In every postofice district there should be found some active, public spirited Democratic friends and making a determined effort to form as large a club as possible for the Weekly World.
