JOHN W. BOWEN Esq., is a regularly authorized agent for this paper, and will visit our friends throughout the county, for the purpose of making collections and taking subscriptions.

ADVERTISING AND GRATITUDE.—A celebrated wholesale merchant in London, England, has presented the proprietors of the Telegraph with a printing press which cost \$25,000, as a token of appreciation.

PAPER PANTALONS.—Among the many new devices which distinguish our day, we notice first following in the wake of cuffs and collars—paper pantalons for ladies.

DRAFTED MEN.—A bill for the relief of certain drafted men was passed in the United States Senate, on last Wednesday. It provides that the Secretary of War shall pay to men who have put substitutes into the service, were again drafted and entered the service.

NEW COUNTERFEITS.—The following new Counterfeits have been put in circulation, and the public are cautioned to beware of them: The detectives of the Treasury Department have discovered a new counterfeit on the \$10 notes of the national bank currency.

AN IMPOSTER.—A man is now traveling through the Juniata Valley soliciting money on the representation that he is a minister of the Gospel. He has bogus recommendations from well known clergymen in this State, and as the rogue may come this way, the public should be on their guard for the scamp.

JUST SO.—Dill times are always the best for advertisers. Why? Because when money is tight, and people are forced to economize, they always read the advertisements to find out who sells cheapest, and where they can trade to the best advantage.

DUTY OF TOWNSHIP AUDITORS.—It may not be generally known that a general law of the last session of the Legislature, approved April 11, 1866, requires the bounty accounts of every district to be carefully audited by the Township Auditors, and "prepare a condensed statement of the condition of these finances, and publish the same, at the cost of the district for three successive weeks, in two papers."

"GOOD TEMPLAR to boot" is offered a reward for the half bushel in which he or she measures their neighbor's religion, temperance, &c. One important inquiry suggests itself, in the language of the poet:

"Who's boots are these?" and as a matter of encouragement in the language of another, equally immortal, "Go it boots!" but be sure the boot is on the right leg, and the next time measuring is to be done, be sure the good "breeding," "taste," "classics," &c., be well shaken down. ANOTHER GOOD TEMPLAR.

THE WHEELER AND WILSON SEWING MACHINE is the best in the world.—One of them saves half the time in a family, and two of them saves it all. Everybody should buy it and try it. When such a machine can be had for almost nothing, any man that will continue to use the old one (his wife), doesn't deserve a wife. Any one can see this machine and have its wonderful advantages explained by calling on Mrs. H. M. Ogle, the agent for this county, at the Telegraph Office, on Pitt street.

FARMING.—There is not only profound but concentrated wisdom in the apt remark of a noted and successful English farmer—which our Bedford county tillers of the soil may well heed and profit thereby—that he fed his land before it was hungry, rested it before it was weary, and weeded it before it was idle.

HONORABLE DISCHARGES.—We notice in the doings of our State Legislature, that Pennybacker, one of the members thereof, has presented a bill authorizing the Recorders of Deeds in the several counties in this Commonwealth, to record the discharges of all honorably discharged soldiers. This is a good plan, and ought to pass.

WAGES OF FARM LABORERS.—The report of the Commissioner of Agriculture for January, contains the elaborate compilation of the statistics of the wages of farm labor throughout the country.

It is based on the original return from every State in the Union, almost every county being represented in a portion of them. It also includes the territories. The average rate of wages for white labor without board is made \$28.00 per month; \$15.50 per month with board.
