1st, Scrofula,—This disease is hereditary and is transmitted from generation to generation. It is caused by a transgression of the laws of nature, both moral and physical; in other words, it is caused by vice. Acting as a latent poison, it reduces the vitality of the blood, and weakens the depurating organs, so that they fail to discharge or cast out the impurities that are continually generating in the system. A person physically pure acquires gonorhea, or some other secret disease; he undergoes a course of mercury, the disease is dried up, and the patient pronounced well. Vain delusion. The complaint is not cured, its channel is only diverted. Instead of making its appearance outwardly, it acts on the internal organs, and This excellent hotel is now prepared to accom-modate the public in the best manner and on the most liberal terms. Instead of making its appearance outwardly, it acts on the internal organs, and scrofula, which is bequeathed from father to son, is the result. Many persons who are perfectly free from all immorality and vice are afflicted with scrofula. They are suffering for the sins of their fathers and laboring under the curse inscribed inscribed in the Book of Books. "I will visit the iniquities of the fathers upon their children."

THE OLD GUARD, A MONTHLY MAGAZINE, DEVOTED TO

Literature, Science and Art, and the Political Principles of 1776 and 1787. C. CHAUNCEY BURR, EDITOR.

The success of THE OLD GUARD has been as It purifies the blood, it strengthens the internal organs and aids them to perform their natural functions, it is a stimulant and a tonic and it will remarkable as it ought to be gratifying to the friends of a true American literature. It has stead-ily doubled its circulation each year of its publi-cation, and its publishers have found it necessary functions, it is a stimulant and a tonic and it will cure Scrofula.

2d, Running Sores and Ulcers.—Running sores and ulcers invariably indicate a scrofulous taint. They are caused by the efforts of nature to discharge the impurities of the blood. Many persons afflicted with running sores and ulcers succeeded in drying them up and think they are cured when the skin grows over the sore. They are, however, "but making bad worse," for the impurities that were discharged from the system through the medium of the sore now act internally and cause innumerable diseases and often death. The only true and sure cure for all running sores and ulcers is Mishler's Bitters, a continued and persevering use of which will most certainly effect a permanent cure.

Internation the American Interactive. It has seed if you doubled its circulation each yar of its publishers have found it necessary to annually enlarge it, to meet the full expectations of its pations, as well as to realize their own cheal of a first-class Family and Literary Magazine, combined with sound political principles. To still farther earry out this design, The Old enlarged sixteen additional pages, making in all nearly for the low price of three dollars! Arrangements have also been made to secure the very best literary talent of the country. We will commence in the January number a thrilling Romance, written expects of the Romerican in the American JOSCELYN; A Tale of the Revolution;

3d. Salt Rheum.—Salt Rheum is a vague, indefinite, though, popular term given to almost all the non-febrile eruptions of the skin which afflict adults. It is generally an eruption of vesicles in small, distinct ulcers, accompanied with a smarting, tingling sensation, with a tendency to creeper spread over the adjoining surface. Mishler's bitters are a sure cure for this disease.

4th. Pimples and Blotches.—Pimples and Blotches on the skin are always a sure sign of impure blood. Although never dangerous, except in cases of carbuncles, they are very disagreeable.—Often we will see the most handsome features rendered hideous by great blotches and pimples, and instead of the pleasing look which should irradiate the human face we see nothing but the corrupt accumulations of the system expelled through the medium of the skin. The use of Mishler's Bitters will force these corruptions to be discharged through the medium of the skin. The use of Mishler's Bitters will force these corruptions to be discharged through the matural channels, and thus cures all kinds of pimples and blotches. Ladies who desire a fair complection, free from pimples should bear this fact in mind.

ELECTED FROM FOREIGN CURRENT LITERATURE Much of the best literature of the day is found in the English and Continental magazines and periodicals; and it is the design of the Publishers of this new journal to reproduce the choicest selections from these for American readers, in a form at once attractive and inexpensive. The publishers believe that such a journal, conducted upon the plan which they propose, will be not only entertaining and instanting in itself but interesting and valuable as

that such a journal, conducted upon the plan which they propose, will be not only entertaining and instructive in itself, but interesting and valuable as a reflex of foreign periodical literature of the better class.

EVERY SATURDAY is intended for town and country, for the fireside, the seaside, the railway and the stemmboat. Its plan embraces Incidents of Travel and Adventure, Essays Critical and Descriptive, Serial Tales, Short Stories, Poems, Biographies, Literary Intelligence, etc., in connection with judicious selections from the admirable popular papers on science which are constantly appearing in foreign periodicals. The value of these papers arises from the fact that scientific subjects, however harsh and dry in themselves, are here treated in so graphic and picturesque a style as to charm Serial Tales, Short Stories, Poems, Biographies, Literary Intelligence, etc., in connection with judicious selections from the admirable popular papers on science which are constantly appearing in foreign periodicals. The value of these papers arises from the fact that scientific subjects, however harsh and dry in themselves, are here treated in so graphic and picturesque a style as to charm the reader while instructing him.

It will be, in short, the aim of its publishers that EVERY SATURDAY shall commend itself by its freshness and variety to all classes of intelligent and cultivated readers.

EVERY SATURDAY will contain each week thirty two large octavo pages, handsomely printed in dou ble columns, with an engraved title.

REASONS WHY AMERICAN WATCH, MADE AT WALTHAM, MASS., IS THE BEST

IS THE BEST.

It is made on the best principle. It is composed of SOLID PLATES. No jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery, (itself famous for its novelty, as well as for its effectiveness,) and is therefore properly made. The watch is what all mechanism should be—Accurate, SIMPLE, STRONG AND ECO-Should be—ACCRATE, SINPLE, STROM AND LOW SOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "ancres," "lepines," and "English Patent Layers" are profectly well aware of the truth of Levers," are perfectly well aware of the truth of

At the beginning of our enterprise, more than ten years ago, it was our first object to make a thoroughly good low-priced watch for the million, to take the place of these foreign impositions, the refuse of foreign factories, which were entirely unsaleable at home and perfectly worthless everywhere.

where.

How well we have accomplished this may be understood from the fact that after so many years of public trial we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of ou; business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines of public trial we now make MORE THAN HALF OF this branch of our business, and have filed it with the best workmen in our service. New machines and appliances have been constructed, which per form their work with consummate delicacy and exactness. The choicest and most approved ma terials only are used, and we challenge comparison between this grade of our work and the finest im-ported chronemicters. We do not pretend to sell our watches for LESS MONEY than foreign watches but we do assert, without fear of contradiction, that for the same moner our product is incompably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good nted, and this warrantee is good nst us or our agents in all parts of CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

NOW POWDER.—Patented May 29, 1866. This is an article for washing without rubbing, except in very dirty places, which will require a very slight rate, and unlike other preparations offered for a like purpose, WILL NOT ROT the clothes, but will leave them much WHITER than ordinary methods, without the usual wear than ordinary methods, without the usual wear

than ordinary methods, without the usual wear and tear.

Irremoves grease spots as if by magic, and softens the dirt by soaking, so that rinsing will in ordinary cases entirely remove it.

This powder is prepared in accordance with chemical science, and upon a process peculiar to itself, which is secured by Letters Patent. It has been in use for more than a year, and has proved itself an universal favorite wherever it has been used. Among the advantages claimed are the following, viz:

It saves all the expense of soap usually used on otton and linen goods.

It saves most of the labor of rubbing, and wear

It saves most of the labor of rubbing, and wear and tear.

Also, for cleaning windows it is unsurpassed.—
With one quarter the time and labor usually required it imparts a beautiful gloss and lustre, much superior to any other mode. No water required except to moisten the powder.

Directions with each package.

And can be readily appreciated by a single trial. The cost of washing for a family of five or six persons will not exceed transec centre.

The manufacturers of this powder are aware that many useless compounds have been introduced to the public which have rotted the cloth, or failed in removing the dirt. but knowing the in trinsic excellence of this article, they confidently proclaim it as being adapted to meet a demand which has long existed, and which has heretofore remained unsupplied.

the beard to grow upon the smootness face in from five to eight weeks, or hair upon bald heads in from two to three months. A few ignorant practitioners have asserted that there is nothing that will force or hasten the growth of the hair or beard. Their assertions are false, as thousands of living witnesses (from their own experience) can bear witness. But many will say how are we to distinguish the genuine from the spurious? It certainly is difficult, as nine-tenths of the different preparations advertised for the hair and beard are entirely worthless, and you may have already thrown away large amounts in their purchase. To such we would say, try the Reparator Capilli; it will cost you nothing unless it fully comes up to our representations. If your druggist does not keep it, send us one dollar and we will forward it, postpaid, together with a receipt for the money, which will be returned you on application, provided entire satisfaction is not given.
