BACKS OUT. In our issue of week before last, we

proposed that if the Radicals of this Representative district would nominate but one candidate for member of the Legislature, we would agree that no Democratic candidate should be placed in nomination for Poor Director. We made this proposition in good faith, in order to soothe the anxiety of the Bedford Inquirer as well in regard to Poor House affairs as to the incorruptibility of the next Legislature. But our very liberal offer has been rejected, and it becomes the painful duty of the Democracy to elect one of their own number as Poor Director, which they will now do by a larger majority than ever was given before to any candidate for that office. The Inquirer has acknowledged, time and again, that the Legislature needs reformation. But it is unwilling to permit Democrats to be elected for that purpose. Now, then, if Radicals only are to reform the Legislature, let us see that none but Democrats are elected to reform affairs at the Poor House. The Inquirer seems to be afraid that if it were to assent to our proposition, we might be chosen by our party to represent this district in the Legislature. On that point we can only say, that Radicalism has made the title of "Member of the Legislature" synonymous with Thief and Robber, and we choose to keep clear of such company. Until the Augean stables at Harrisburg are cleaned, we prefer the "private station." Besides, legislative life has not the attractions for us that it is, doubtless, supposed to have by the "standing candidate" of the Inquirer, who "measures our oats in his own half bushel." To him we say that whenever we fall so low, politically, that we can't carry a single district for a party nomination, or fail to receive a half dozen votes at our own poll for such nomination, we hope at least to have sense enough left not to say or do anything which would bring us into comparison with men who have been the chosen standard-bearers of their cans" had a majority in the Board of party, when the fight raged hottest and | Poor Directors, in the persons of Messrs. thickest, and in victory as well as in de-

MEXICO.

The struggle between the Imperial and Liberal parties in Mexico, has ended in the overthrow of the former, Maximilian and his lieutenants having surrendered unconditionally to Escobedo, the commander of the Juarez forces. The downfall of the ill-starred emperor has been evident ever since the withdrawal of the French troops. The Liberal army began to increase in numbers and efficiency just as soon as the last French bayonet disappeared from Mexican soil. It had been scattered into insignificant guerrilla parties, formidable only to travelers and unprotected trains, but from this condition it rallied, gained a few small successes over the Imperialists, recruited, won some important victories and finally hemmed in its enemy at Queretaro, which, under the command of Maximilian in person, made a brave and desperate resistance, only to become at last, the scene of the denouement of the Franco-Austrian-Mexican empire. It is said that Juarez has determined that Maximilian and his officers shall be shot. The sympathy of Americans has been with the Liberals in their struggle to drive Maximilian from the country, but if the restoration of that party is to be signalized by so barbarous an act as the execution of the Imperial leaders, we hardly know whether even the vindication of the Monroe Doctrine will justify us in continuing our good wishes for the "Patriot President."-Let us hope that no such tragedy will wind up the Franco-Austrian farce in Mexico, but that humanity, order and peace will mark the rule of the restored President.

All the former deprecatory acts of the man are wiped out.-Inquirer.

In the name of all the lexicographers that ever lived, what do you mean by "deprecatory acts?"

A TASTE OF THEIR OWN MEDICINE.

We see by a telegraphic report, that Gen. Swayne, one of the sub-satraps under the Reconstruction Law, cop1manding the post of Mobile, Ala., has suppressed the publication of the National Republican, a Radical Negro organ, on the ground that it has uttered "incendiary" matter. The article complained of was one instructing the negroes "when and how to use firearms." Now, we are for the freedom of the press all the time, no matter what cause the publisher may advocate. We deprecate the course of Gen. Swayne in regard to this Radical sheet just as much as we condemned the conduct of Lincoln's administration in closing the offices of the N. Y. Daybook and other Democratic journals throughout the North. Doubtless, the Negro organ at Mobile exceeded the bounds of law; but, then, its publisher could have been punished according to law, without forcibly stopping his press. The Radical party are now getting a taste of their own medicine. We sincerely hope it may cleanse their stomachs of the bile which has made them the scourge of the country.

THE Inquirer calls us a "periphery" and a "rhomboid," intending thereby to describe our "roundness." The angular trapeziums of that newspaperial parallellogram, grope about in the thick darkness of their trigonometrical ignorance, for hard names for us, who and lose themselves in the intricate mazes of the science of geometry. These miserable editorial parallellopipedons ought to have known that everything round, no matter how large or how small, has a "periphery," and that a "rhomboid" means something with angles and crooked corners like themselves, and not roundness and fatness resulting from a good stomach and a clear con- day, in a fit of passion, stabbed his science. We want to know what constitutes Treason in this country, or whether there is any such crime as Treason. If Mr. Davis is not tried, we shall be greatly disappointed. During that time the whole Poor House machine, Director, Treasurer, Steward, Clerk and all, were under the control of the "Republicans." DARAING ROBBERY.—On Friday morning last, between three and four o'clock, a safe in the drug store of John Read, of this place, was blown open with powder, by burglars. The thieves entered the store, by a back window, and finding the safe behind the counter, had drawn it out to the centre of the room, and placed powder in the key-hole. It is thought the safe expassing, the sound of which deadened the report. Money to the amount of about \$100 is thought to have been taken from it. The safe was completely bursted, which revealed the fact that it was a very unsafe affair at best, being bound with thin sheet iron lined with boards, and filled in with clay of a common kind. The thieves have not been arrested, and we would caution our people to beware of a repetition of such outrages, and advise them to leave as little money in their safes as possible.- Hunt. Globe.

The Negro Riot in Danville, Va...-The United States Burial Corps Attacked and Driven from their Works.--The "Loyal Colored Men" on the Rampage.

[From the Richmond Examiner, May 30.] On Monday afternoon last a party of sixty colored men, belonging to burial corps, stationed near Danville, went into the town for the avowed purpose of "setting the town to rights." Shortly after getting into the corporation, they met with a white citizen. with whom they got into an alterca-tion; very high words ensued, and threats of bodily violence were made towards him. About this time a colored man (living in Danville) came up and took up the quarrel of the white man. He was quickly reinforced by colored men, and quite a large number of them gathered on the ground. A melee ensued, pistols, stones, bricks, and other missiles were freely used on both sides. After a stubborn fight, the burial corps negroes were driven out of town, into their camp. Three or four of them were wounded quite seriously. Two of the resident negroes of Danville received wounds, but not of a serious character. The negroes connected with the burial corps were employed during the war, and since, for a short time, in guarding confederate prisoners, and have been very turbulent and disorderly since they have been in Dan-ville, and have been frequently engaged in disturbances with the colored people of the town. During the riot on Monday, Captain Taylor, of burial corps, was very energetic in his efforts to suppress it, and was promptly and efficiently seconded by the police force of the town. Everything that could be done by the authorities, military and civil, to stop it, was done, but without success, until the burial corps negroes were driven out of the town to their camp.
