

HUNTINGDON AND BROAD T. R. R. —SCHEDULE—THREE TABLES.—Express Train leaves Mt. Dallas at 1.30 p. m., and arrives at Huntingdon at 4.45 p. m.; leaves Huntingdon at 7.45 a. m., and arrives at Mt. Dallas at 10.30 a. m.  
Mail Train leaves Mt. Dallas at 6.10 a. m., arrives at Huntingdon at 9.10 a. m.; leaves Huntingdon at 6 p. m., and arrives at Mt. Dallas at 8.57 p. m.

The attention of Collectors is directed to a notice in our advertising column in to-day's paper.

ADVERTISING IS THE only which we tradesmen put in their lamps—that's all.

ARRIVAL OF THE GOVERNOR.—His Excellency, Governor Greig, arrived at the Springs, on Tuesday night last.

On the 21st of August next three of Jupiter's moons will be in eclipse. Jupiter has four moons. What a place for moonlight.

AT THE MENGE HOUSE.—Dr. Morrison, of Greensburg, and H. P. Laird, Esq., of the bar of that place, are at present stopping at the Mengel House.

AT THE SPRINGS.—Capt. Alex. Lloyd and Maj. Williams, of Hollidaysburg, have been staying at the Springs, for some weeks. Their friends will be glad to learn that their health is improving.

SOMEBODY says "a wife should be like a roasted lamb—tender and nicely dressed." So should husbands. And the place for them to get nicely dressed is at the fashionable Clothing Bazaar of R. W. Berkstresser & Co., in this place.

KILLED BY THE INDIANS.—Mr. Edward Dively, formerly a merchant at Grantsville, Allegany county, Md., but more recently a resident of Kansas, was lately murdered by the Cheyenne Indians, while traveling over the plains.

SNAILX.—The Bellefonte "Watchman" (extra) says that five rattlesnakes some of them containing twelve rattles, were killed at Walker's lumber camp, on Beech Creek, on Thursday last (the 27 ult.), and over twenty-five that had been reared from among the rocks got away.

SLIM.—But fifteen of the twenty four election districts were represented in the Radical B. H. County Convention held in this place, on the 4th inst. We are glad to note that some Republicans are unwilling to desecrate the anniversary of American Independence, by holding party conventions on that sacred day.

DULL TIMES, says the Penn Yan Express, are always the best for advertisers. Why? Because when money is tight and people are forced to economize, they always read the advertisements to ascertain who sells the cheapest, and where they can trade to the best advantage.

THE DEMOCRATIC PRESS.—The late Democratic Convention, at Harrisburg, recommended that all Democrats make vigorous efforts to increase the circulation of Democratic journals throughout the land, and also to give them their individual support and patronage, as the power and success of the Democratic party depends on the character and efficiency of the Democratic newspaper press.

BEDFORD SPRINGS.—Visitors are beginning to come in more rapidly at the Springs. There is prospect of a large attendance. The Springs are kept better this season than ever before, and visitors cannot fail to be pleased. The gentlemanly superintendent, C. O. Allen, and his assistants Messrs. Hoopes, Sanson and others, are determined to leave nothing undone to make their guests comfortable.

HARVEST.—The farmers of this section have been very busy harvesting their wheat crop during the past two weeks. They are now about finishing the work, and we hear from every quarter, that the yield of wheat is unprecedented. This will be good news to every body and especially to the laboring classes. Let us rejoice that another year of plenty has been vouchsafed us, and that not only has famine been averted from our land, but we are able to assist in feeding the poor and destitute of other countries.

The ancients proclaimed that Graces, Nymphs, Naiads, and the Graces, had long flowing tresses which made them envied by their sisters of earth. But they arose out of the sea foam or bathed in fountains reached by no mortal hands and kept their locks of dewy softness, dark and lustrous, and thus had no need of Ring's Vegetable Ambrosia which is doing the same thing for thousands of people in our day.

DEMOREST'S MONTHLY.—No other fashion and literary magazine in existence has made such rapid strides in popular favor as this. The current number now before us speaks for itself, as to the causes which have brought about such flattering results. It is full of fresh, attractive and useful matter, specially interesting to ladies and households. The fashion department is complete—three times as full as that of any other magazine—and contains abundance of sensible, practical information, invaluable to those living at a distance from the Metropolis. The illustrations are beautiful and numerous—the tone of the literary articles high—and, in fact, the entire contents are greatly above the average, from first to last. We do not wonder that ladies, generally, declare they "could not do without it." Three dollars per annum, with a premium. Address, W. JENKINGS DEMOREST, 473 Broadway, New York.

LAMENTABLE ACCIDENT ON THE FOURTH.—A most lamentable accident occurred here early on the morning of the Fourth. A number of our young men were engaged on Cemetery Hill in firing a salute, when the gun discharged prematurely, resulting in terrible injury to Mr. John Atwell, who was at the moment engaged in rammaging down the charge. His left hand was torn entirely from the arm, and his body thrown about eighteen feet from the muzzle of the gun, inflicting shocking bruises and burns. He was at once brought to town (to the residence of Mr. Jacob Sheads), and medical aid summoned. Drs. O'Neil, Hornor and Huber were promptly on the spot, and after examination and consultation, concluded to amputate the arm above the elbow, which was accordingly done. The injured man is now doing as well as could be expected, and is receiving every possible attention, Mr. Sheads and family, as well as citizens generally, manifesting the warmest solicitude for his comfort. Mr. Atwell has been among us for several years, and proven himself a correct, industrious and worthy young man. He is a marble cutter by trade, having recently finished a very creditable apprenticeship with Mr. Cannon. The case is one of the saddest, and we are glad to hear that a movement is on foot to manifest sympathy by more than mere words.

How it happened that the gun discharged prematurely is altogether a mystery. The piece was in most careful hands—never more so. They had nearly all served in the army, and engaged in cannon drill for several days before the Fourth, to avoid the possibility of accident. It is confidently thought that Mr. Atwell's vigorous constitution, and the careful nursing and attention he is receiving, will insure his recovery. Go grant it!—Gelsburg Compiler.

FOLLY.—To try to make a living by farming without the right kind of tools—to wait till your neighbor is done plowing to borrow or hire his plow—to wait till your neighbor has worked his corn, to borrow his shovel plow to cultivate your sickly crop, or what is greater folly than all, after preparing your ground, to depend on your neighbor for his drill, when every sensible farmer knows that the earlier grain is sown the better. Ours a drill yourself, even if you have to mortgage your farm to get it. It will clear itself in one year. More people are kept poor by being too stingy and too close and timid than by being extravagant. Whoever heard of the Sheriff selling out a man who owned a good grain drill? A Gum Roller Drill would bring more at sheriff's sale any how than the agents ask.

NOTICE TO OWNERS OF PIANOS!—Whereas, certain unreliable and unprincipled individuals have been visiting my patrons, representing themselves as partners of mine, or sent by me to tune pianos, I hereby give notice that all such are "unkers" and impostors. The undersigned will visit Bedford regularly, in the months of November, December, and June or July of each year, and endeavor to maintain his reputation in person. Those who may desire reference as to my capability in tuning and repairing pianos are referred to all of the celebrated piano manufacturers in the U. S.

JOHN PTASZYK,  
Harrisburg, Pa.  
Elbensburg Sentinel, Hol. Standard,  
Lewistown True Democrat, copy one time, and advertiser will call and settle.

THE following Cable telegram has just been forwarded from New York, to Messrs. Sumner & Co., of Pittsburgh.

PARIS, June 27, 1867.—At the Paris Exposition, the Wheeler & Wilson Sewing Machine has been awarded the only Gold Medal for general purposes, over eighty-two competitors. Howe received a Gold Medal as an inventor, not for machines. The sewing machine interest was fully represented at Paris, every machine of any promise being before the world being on exhibition, making this the greatest triumph ever achieved by any sewing machine, and certainly entitles the Wheeler & Wilson to the enviable position it has so long held, the best sewing machine in the world. Seadwell, in another column.

TO SAVE ICE.—A German chemist publishes the following simple method of preserving small quantities of ice, which he has practiced with success. Put the ice into a deep dish, cover it with a plate and place the dish on a pillow stuffed with feathers, and cover the top with another pillow carefully, by this means excluding the external air. Feathers are well known non-conductors of heat, and in consequence the ice is preserved from melting. A friend states that he has thus preserved six pounds of ice for eight days. The plan is simple and within the reach of every household.

CROUP.—As many children are troubled with croup, we publish the following remedy, which is said to be reliable: Wring a linen cloth—cotton will do but linen is preferable—out of cold water, fold it so as to make several thicknesses, and place it upon the child's throat and chest, then fold a dry flannel and wrap carefully over it. Warm the child's feet—with hot stones if necessary—cover with plenty of bed clothes, and let it go to sleep, you cannot perceive, when it wakes, that it has even a cold. It acts like a charm.

In every daily walk of life, How many flies I see; They bother husband and wife, And also bother me. The day that flies were born to me—Oh, mercy me, what shall I do? Why, go to J. L. Lewis's drug store, get a sheet of "Fly Paper," which slays them, and right over their heads.

A WESTERN EDITOR has placed over his marriage a cut representing a large trap, sprung, with this motto—"The trap down—another ninyhammer caught!"

OUR readers know that the best machinery of the best manufacturers of this country is unsurpassed anywhere in the world. The genius of American inventors and mechanics produced the cotton-gin, the mechanical reaper and mower, the sewing machine, the best telegraphic instruments, and last, but not least, the wonderful machinery of the American Watch Company of Waltham, Mass., a mechanism that takes hold of the raw material—the brass and steel, and gold, and precious stones, and under competent direction turns out that daily wonder and necessity—a perfect time-keeper.

Beginning in 1850 in a very moderate way, but with the determination to make none but thoroughly good watches, the Company have continued to enlarge their works from year to year, (as they were unable to supply the demand,) until now they manufacture about one-half of all the watches sold in the United States. Their factory covers over three acres of ground, and as an illustration of its extent, we may mention that it is supplied with over sixty miles of iron pipes. These watches have proved so reliable that several of the railways of the country now furnish them as part of their equipment; and while recommending other lines to adopt the same precaution against accidents, the editor of the Boston Herald writes: "We have carried one of these watches for the past four years, and although it has had to submit to rough usage, and camp life, horse-back riding, and do not hesitate to say that it is the best time-keeper and less expensive to keep in order than any watch we ever carried." The Company's success has stimulated the manufacture and importance of many worthless counterfeiters, so that buyers should be careful to see that they obtain the genuine American watch made at Waltham.

MATRIMONIAL QUESTION.—A young man asked an old gentleman for his daughter in marriage. The answer was, go into the orchard and bring in a parcel of apples. Give me one-half of the whole number, and to the mother one-half of the balance and half an apple over, and to the daughter one-half of the remainder and half an apple over and have one left for yourself without cutting an apple, then if she is willing you can have her. He solved the question and how many did he bring?

BANKERS,  
AND DEALERS IN  
GOVERNMENT SECURITIES,  
No. 18 Nassau St.,  
NEW YORK.

HOCHARD-CORLEY on the 14th inst. at the residence of the bride's father, in Junius st., by Rev. N. H. Skyles, J. A. Hochard and L. E. Corley, both of Bedford county, Pa.

ELUKE-METZLER on the 14th inst. by Rev. A. R. Kramer, Mr. Oliver B. Fluke, of Woodbury, and Miss Mary A. Metzler, of vicinity of Waverly.

JOHN GRIFITH, Adm'r.

NOTICE TO COLLECTORS.—The Tax-Collectors of 1867 are requested to set up and pay off their duplicates by the 5th day of August next. All unsettled accounts for said year will be placed in the hands of the Sheriff at that time.

ADMINISTRATOR'S NOTICE.—Notice is hereby given that letters of administration have been granted to the undersigned by the Register of Bedford county, upon the estate of Matthias Otto, late of St. Clair township, dec'd. All persons having claims against said estate are requested to present them, properly authenticated, for settlement, and those indebted to the estate to make immediate payment.

NOTICE TO HUCKSTERS.—All persons huckstering in the county of Bedford are hereby notified that the Law relating to huckstering will be strictly enforced. The people are requested to return any found huckstering without license. GEORGE MARDORFF, Treasurer.

MERCANTILE LICENSES must be lifted and paid for by the 5th day of August next, and they will be left in the hands of an officer for collection. GEO. MARDORFF, Treasurer.

UNIONED STATES INTERNAL REVENUE NOTICE.—The annual Assessment for Bedford county, of all persons liable to tax on Income, Articles in Schedule A, and also of all persons required to pay Special Tax on Business, has been made by the Assessor, and given, that the Taxes aforesaid have become due and payable, and will be received at the office of J. W. Lingerfelt, in Bedford, on Tuesday and Wednesday, the 13th and 14th of August, or at any office prior to that date.

PENALTIES.—All persons who fail to pay their annual Tax prior to the 5th day of August, will be duly notified of their neglect, for which a fine of twenty (20) cents, and four cents for each mile traveled in serving notice, will be charged.

Persons doing business without having paid a Special Tax therefor, are liable to a penalty of three times the amount of said tax, a fine of Five Hundred Dollars and Imprisonment for two years.

THE SUPERIOR MERITS OF THE WHEELER & WILSON SEWING MACHINE over all others, for family use and general purposes, are so well established and so generally admitted, that an enumeration of their relative excellencies is no longer considered necessary. They are simple durable and beautiful.

EVERY BUSINESS MAN SHOULD TAKE IT.

Office 40 Park Row, New York.

TO CAPITALISTS.—I have for sale, on easy terms, over 200,000 acres of farming timber and mineral lands, situated in Bedford, Clearfield, Fulton, Huntington, Somerset, Tioga, and other counties, in Pennsylvania, which will be sold in tracts ranging from 100 to 10,000 acres.

FARMING LANDS—With limestone and red soil.

AGENTS AND FORGES, and sites for same, with large tracts of timber and iron ore, and WATER PRIVILEGES on never failing streams.

IRON ORES.—Big, Specular, Fossil and Hematite—Fossil vein from 3 to 5 feet thick, hematite from 10 to 40 feet thick.

COAL AND COLLIERIES—Collieries in full operation, with houses, shops, schools, tracks, etc. Undeveloped coal lands with a seam 20 feet thick. Also, gas, canal and anthracite coal lands.

TIMBER.—Large tracts covered with white and yellow pine, spruce and hemlock, red, white and red oak, chestnut, walnut, locust, cherry, poplar, etc. Also, Steam Saw Mills.

FIRE-CLAY, of superior quality, for making fire brick.

SAND-STONE, of pure quality, for making glass.

ALSO, farms, and farming, timber and mineral lands, in all Western, Southern and Pacific States, New Jersey, Delaware, Maryland, Pennsylvania, etc.

WILLIAM P. SCHELL,  
Attorney at Law, Bedford, Pa.

TO ADVERTISERS.

The facilities possessed by our firm for the transaction of the business of general advertising agents, are now generally admitted to be superior to those of any similar establishment in this country. Our special contracts with most of the leading newspapers throughout the Eastern, Middle and Western States, give us advantages over all other agents, not only in the price at which we are enabled to contract for, but the position we secure for our customers in the columns of the newspapers, and the promptness and care with which all our advertisements are inserted. Persons interested in advertising should make themselves acquainted with our facilities before contracting. We receive orders for all newspapers at the most favorable rates.
