-"THE WORLD."-1867. The attention of the public is invited to the claims of "The World" as one of the leading public journals of the country. It is the chief organ of the Democratic Party of the United States, and the foremost advecate of the immediate restoration of the Union. Its highest merits consists in its character as an enterprising and trustworthy news-

paper.

The next year bids fair to be a more critical one in the history of our free institutions than even any eventful ones that have preceded it. The first requestee for an intelligent judgment of public affairs is a full and authentic account of facts as they transpire. These The World always aims to give with consciencious accuracy, and with equal fullness and fidelity, whether they make for or against its own views of public policy. Prompt activity in spreading before its readers every kind of news in which any part of the public takes an interst. If you want a good p'r Shoes, go to the Regulator in spreading before its readers every kind of news in which any part of the public takes an interst, is the first duty of a newspaper, and the facilities of The Worn. for discharging this obligation are unsurpassed by those of any journal in the United States. Whatever else it may fail in, it certainly will not fail to furnish the news, nor to supply it with such promptitude, spirit, freshness, abundance, variety, accuracy and candor, that no class of readers can miss anything of interest which of readers can miss anything of interest which they wish to find. The World will publish docaments and arguments prepared by political foes just as freely as those prepared by political friends; making its own comments on them, of course, but never suppressing or garbling them because they are calculated to damage its own party. Adverse arguments, which it cannot refute, it is content to leave to make their full investion. The Works Best quality Syrups and Molasses, at the lowes arguments, which it cannot refute, it is content to leave to make their full impression. The World acopts this rule because it believes no other is honest; because it conceives that its first duty to its readers is to keep them thoroughly informed on every passing subject of importance. In politics, The World will continue to be the bold advocate of a Liberal, Progressive Democracy. The unflinching champion of Freedom, Justice, Order and Constitutional Rights. The inspiration of its politics is Freedom restrained by Justice; or, to speak more strictly, Freedom pure and simple, in the largest collective measure; the office of justice being merely to protect freedom from encroachnarket prices, at "The Regulator's," No. 2 A. careful, reliable market reports, The World will continue to maintain its present high reputation. A paper published in the commercial metropolis is naturally looked to for authentic information relating to trade, commerce and finance; and this being a feature in which the The World prides itself, it boldly challenges comparison with every journal in the metropolis.
