

THE RESULT IN THE COUNTY.

The splendid victory achieved by the Democrats of Bedford county, at the late election, will inspire every friend of constitutional liberty within the bounds of the county, with renewed hope for the cause and renewed energy to prosecute the struggle for the redemption of the country from the clutches of the vampires that have fattened upon its blood.

Williams has 6,425 majority in Allegheny; 3,208 in Bradford; 1,898 in Chester; 1,401 in Dauphin; 1,967 in Erie; 5,324 in Lancaster; 1,547 in Lawrence; 1,124 in Lebanon; 1,215 in Somerset; 1,276 in Susquehanna; 2,655 in Tioga; and 1,050 in Delaware.

JUDGE SHARSWOOD'S real majority is upwards of 1,000, as the Philadelphia Return judges counted several hundred votes polled for Williams, by regulars at Fort Delaware. Even the Radical Act of Assembly permitting soldiers to vote outside of the State, does not provide for this. It provides only for the reception of votes cast by volunteers called into service by the President of the United States.

The defeat of Messrs. Schell and Findlay, our candidates for the legislature, is greatly to be regretted. In the midst of the general rejoicing, we must pause to express our sorrow for their fate. Bedford county did all that was expected of her. She gave Mr. Schell 534 majority and Mr. Findlay a gain of 100 over Sharswood. Little Fulton also did well. But Somerset is joined to her idols. She loves her politics better than her own material welfare. Well, if her people can stand that sort of business, we can.

As "Swan's militia" are about to invade Pennsylvania, ought not to "loyal people" at once to rush to the defence of the State? Let none wait for the editors of the Inquirer to "enlist." One of them has "varicose veins," and the other is singularly afflicted with periodical lameness during war times. Poor fellows! Nature has forbidden that they should enter the lists of martial glory.

"SCHULDER deine gewehr! Abs, peiff! Uhly, drum! Tamsparger, kumm!" Such is, doubtless, the battle cry of Bro. Scull, of the Somerset Herald, as he marshals the hosts of Somerset to defend the sacred soil of Pennsylvania against the threatened inroad of "Swan's militia." Hurry up your recruits, Ned! Pennsylvania must not be captured by 12,000 militia!

It is hinted in certain Radical quarters that there is to be a change in the editorship of the Inquirer, the elections having repeatedly demonstrated that the more violently a Democratic candidate is opposed by that sheet, the greater is sure to be his majority.

The laggards were taught a lesson at the late election, which they will not soon forget. They said to their neighbors, "Oh! it's of no use to go to the election! We'll be beaten any how!" They will know better hereafter.

JOHN CESSNA is a "buster." He stumped Franklin county this year—Result, 186 Democratic majority. Last year it gave Geary, 193.

THE Democrats gain a senator and Representative in the Huntingdon district. Farewell, Gerrymander.

VICTORY!

PENNSYLVANIA REDEEMED! OHIO REGENERATED! IOWA ON THE MEND!

Official returns from all the counties of this State show the election of HON. GEORGE SHARSWOOD to the office of Supreme Judge for the ensuing fifteen years, by a majority of 794. This makes the Democratic gain in the State since last year about 18,000, and since 1865, 23,500! The Legislature is close, but owing to the infamous apportionment under which the people labor, will be again in the hands of the Radicals. A number of Democratic candidates for the Legislature, were defeated by but a few votes. Another fire along the line, and the Legislature will also be Democratic.

In Ohio, the Democrats have carried both houses of the Legislature, securing the election of a Democratic U. S. Senator in place of Ben. Wade. The Governor is in doubt, the majority being but a few hundred either way. About 1,500 negroes voted for the Radical candidate, and the chances are that there will be a contested election. The Democratic gain in Ohio, since last year, is fully 40,000, and since 1863, 100,000! That will do for this time.

Iowa, also, has made large Democratic gains, probably about 20,000 since last year. Such is the story from every quarter, and it will be better still next year, if the Radicals do not repent of their sins, quit their agitation of the Negro question, and cease talking about impeachment, confiscation, agrarianism, and the rest of their deviltries.

THE RETURN JUDGES for this Representative district met in this place, on Tuesday last, and upon examination of the returns, it appeared that the vote for Representatives stood as follows:

Table with 3 columns: Name, Votes, Party. Includes Schell, Findlay, Weller, Richards, Bedford, Fulton, Somerset, and totals for Dem. Maj., Rad. Maj., and District.

Richardson over Schell, 301, over Findlay, 328. Weller over Schell, 349, over Findlay, 376. Enough Democratic votes remained at home in the district to have overcome these majorities by at least 200. How do you feel, laggards?

THE CONGRESSIONAL DISTRICT REDEEMED! The vote in this Congressional district stands:

Table with 3 columns: Name, Votes, Party. Includes Adams, Bedford, Franklin, Fulton, Somerset, and totals for Dem. Maj., Rad. Maj., and District.

JOHN I. NOBLE, the Democratic candidate for Poor Director, has 317 majority, 9 more than Sharswood. Thus have the people rebuked the vile calumnies heaped upon the late Treasurer of the Poor House, and manifested their utter contempt for the lying electioneering stories of the Bedford Inquirer.

DREADFUL! It appears that the people wanted "a District Attorney who drank toasts to Jeff. Davis during the war and proposed to raise the rebel flag in their midst!" The election of Kerr renders "another war" almost certain!

MR. KERR, the Democratic candidate for District Attorney, has 319 majority, 10 more than Sharswood. What a pity that he drank that "toast to Jeff. Davis!" There is no telling what might have been his majority, if he hadn't done that awful deed.

THE Inquirer is great on Mother Goose's Melodies. In its last issue it sang thus of its candidates:

"Little Bo-peep, He lost his sheep, And don't know where to find them. Let them alone, And they'll come home, With their little tails behind them!" And they did.

THE question is, was John Brown made drunk on "Copperhead whiskey?" A NUMBER of Democratic meetings were held, which were not reported in our paper, for the reason that we did not get an account of the proceedings until after the election.

OFFICIAL RETURNS OF THE ELECTION HELD IN BEDFORD COUNTY, OCT. 8, 1867.

Below will be found a full and accurate table of the returns of the late election for this county. It will be seen that Judge Sharswood's majority, is 339, a gain of 95 votes since last year. Nearly all the Democratic candidates for county offices run ahead of Sharswood. In justice to Capt. Swartz, it should be remembered that he declined the Radical nomination for Auditor, and was, therefore, no candidate.

SPECIAL mention must be made of the Democrats of Union, Snake Spring, C. Valley, Saxton, Liberty, M. Woodbury, Broad Top, Bloody Run, Monroe and Bedford borough, for the handsome gains they made over last year. Juniata, St. Clair and Colerain also did well, considering the removals of Democrats from those townships. Union, Snake Spring, Bloody Run and Bedford borough, increased their Democratic vote over last year.

TO CANDIDATES.—Our rule has always been to portion the cost of printing the tickets among the candidates. We make this notice, so that there will be no misapprehension upon this subject.

DEMOCRATIC REJOICINGS. ALBANY, N. Y., October 11.—The Democrats of the Knickerbocker City had a public rejoicing this evening over the result of the October elections. Salutes, torchlight processions, bands of music and a tumult generally expressed the satisfaction of the Albanians.

LOCKPORT, N. Y., October 10.—This city is illuminated, bonfires are burning and one hundred guns are being fired over the Democratic victories in Pennsylvania and Ohio.

WATERBURY, N. Y., October 10.—The late Democratic victories are being celebrated here by the firing of cannon. Bands of music are parading the streets and the Democrats are feeling very jubilant.

GENERAL BUTLER WILL NOT SACRIFICE HIS INDEPENDENCE TO BE PRESIDENT.—General Butler has published a letter in reply to friends who want to know if he would make a good candidate for the presidency, holding the views he does on financial and political questions. He says that his hopes or expectations of preference have nothing to do with his political views, and that he would not sacrifice his independence of thought and action to be President ten times over. He declares he will speak his thoughts and views, no matter what the consequence may be. This is rather spongy for Butler.

Connecticut.

The latest returns from Connecticut show that in the returns from 116 towns the Democrats have gained 3 and the Radicals have lost 33 members, and thus give a handsome majority to the Democrats on joint ballot in the next Legislature. New London, Stratford, Fairfield and Saybrook are among the towns gained by the Democrats.

THE OHIO ELECTION. The result of the Ohio election is as yet so far in doubt that it is thought nothing but the official count will determine the issue. Charges are made that negroes were permitted to vote, and in case the Radicals should make out a small majority, sufficient to have been made by these votes, the Radical party is to be contested. The Cincinnati Enquirer calls on the Democracy not to yield the governorship if negro votes can be proven to have been polled. In the legislature the Democrats have a majority of ten on joint ballot, a change from the Radical majority of the last body of forty-six.

IOWA ELECTION. In Iowa, Merrill (Rad.) is in all likelihood elected Governor, but returns so far show a Democratic gain in 31 counties of 5,838. Last year the Radical majority was 35,412. Sixty-nine counties are yet to hear from, and indications are that the Democratic gain will be very greatly increased.

INDIANA ELECTION. Scattering returns from Indiana show a Democratic gain of 1,232 on the Radical majority last year of 14,202. The eruption of Mount Hecla. The eruption of Mount Hecla has just returned to England from Iceland, and reports that his party ascended Mount Hecla on the 17th of August, but observed no indications of a coming eruption. A little smoke arose from the crater, but there was no symptom that the volcano was on the eve of breaking out. On the 27th of August the yacht was leaving Iceland, and when about two hundred miles distant from Mount Hecla, the brass mountings on board became suddenly discolored, and it was then conjectured that the volcano had burst forth. On arriving shortly afterwards at North Feroe, it was ascertained that the mail steamer, which had left Iceland later than the yacht, had brought intelligence of an eruption which had been so terrible in its nature, that the inhabitants of Hecla, living at a distance of about one hundred miles from Hecla, were nearly suffocated by the sulphurous fumes from the volcano.

FROM THE INDIAN COUNTRY. WASHINGTON, October 14.—The Indian bureau has reported the following despatch from superintendent Murguly of Indian Affairs in the West, dated 12th inst., at 60 miles south of Fort Larned: "I have been 12 days among the Indians and find them all anxious for peace. I had considerable trouble in getting a communication with the Cheyennes, but have succeeded. They promise that no more war parties shall go out, and agree to meet the commissioners. I can say that the Arapaho, Cheyenne, Apache, Kiowa, and Comanche will be fully represented here at the grand council. There are large numbers of these Indians here now, and others are coming in as fast as they can. If the Commissioners can get here sooner than full moon it would be better."

POOR STANTON.—Hon. Edwin M. Stanton was among the arrivals at the Commodore Hotel last night.—Philadelphia Press, October 8. There is a prevalent suspicion that the "Hon. Edwin M. Stanton" did not enjoy his visit in Philadelphia as much as he hoped to, especially when late in the evening the shouts over a Democratic victory greeted his ears. It is understood that he now entertains a deep sympathy for Cardinal Woolsey, and is about to devote the remainder of his days to the study of Shakespeare.—N. Y. World.

NEWS AND OTHER ITEMS. Over one hundred illegal slaves have been captured in the northern part of Philadelphia, where the rioters successfully, in two instances, drove off the officers. The last raid on these distilleries was supported by a force of United States marines with their muskets loaded. The revenue officers were, in consequence, permitted to carry off the stills they had seized without any further demonstrations than hisses and groans.

Mrs. Lincoln, the widow of President Lincoln, is selling her dresses and jewelry in New York and has given permission that the fact should be stated. She says she has but seventeen hundred dollars a year to live on. Having tasted of high life, she cannot return to her former simple style of living. The estimated value of all the articles offered for sale is twenty-four thousand dollars.

By the 1st of November the Union Pacific railroad will be completed as far as Cheyenne City, Dakota Territory, at the base of the Rocky mountains. This is the point of intersection of the Denver branch railroad—from which place it is distant one hundred and twelve miles—the distribution point for Colorado mines, and the general depot for all parts on the Fort Laramie, Fort Reno and Montana roads.

THE Montgomery (Ala.) Sentinel says: We regret to learn that a new and fatal disease has recently appeared in different parts of Montgomery county. Thus far it has baffled the utmost skill of the physicians. It begins with fever, and soon bloody discharges from the bladder ensue, which continue till a fatal termination within forty-eight hours. After death the corpse becomes extremely yellow. All the cases, so far, have resulted fatally. It is stated in a special despatch from Nashville to the Cincinnati Commercial that Brownlow will be elected United States Senator, in place of Senator Patterson, whose term expires on the 4th of March next.

A few evenings since, during the prevalence of a storm, a journeyman and an apprentice boy were at work in a carpenter's shop, the lightning entered in at the window, passed down a saw in the boy's hand, struck a plane which the journeyman was using, and passing down the bit set fire to the piece of lumber which the journeyman was dressing, leaving the boy and man unhurt.

THE PAPERS chronicle the death, in Brooklyn, of Mrs. Mary Arnold, aged one hundred and ten years. She used to visit General Washington when he lived in Pearl Street square, and during the war of 1812 assisted a noble band of women in throwing up the earthworks at Fort Greene. She has five children living, of whom the oldest is seventy years of age, and her descendants reach to the fifth generation.

MR. Charles A. Lane, of New York, proposes that the Loyal Leagues throughout the country shall contribute toward a purse of \$250,000 for Mrs. Lincoln, "not as a gift, but as a slight acknowledgment of the debt which the loyal people owe to the memory of the Great Emancipator."

GOVERNOR Fenton, of New York, refuses to pay over the appropriation made by the Legislature of that State in aid of the Antietam Cemetery until a commission presents a satisfactory report upon its past and present management. Governor Geary, of Pennsylvania, has also appointed a special commission for a like purpose.

THE next National Republican Convention, for the nomination of a President and Vice-President, will be held at Chicago. The members of the national executive committee have been corresponding on the subject, and a majority have expressed themselves in favor of Chicago. There was an extraordinary display of "Northern lights" at St. Paul, Minnesota, last Wednesday night.—The electrical illumination was quite brilliant, and so powerful was the magnetic effect that the telegraphic wires were rendered inoperative. The decrease of thirty-two millions in the import trade, and eleven and a half millions in the export trade of New York, since the 1st of January, indicates how far the wholesale business is behind this year.

A Texas paper says that there are now several thousand beavers in Williamson County, in that State, full, fat, and fine, and that the same may be said of almost any county. A little daughter of Mr. Buckle, near Bristol, Virginia, aged seven years, met a horrible death on Thursday. She was assisting in grinding sugar cane, when her head was caught in the machinery and so terribly crushed as to cause her death almost instantly.

THE New York Times speaks of the Democratic party as "a united and powerful enemy" to the Radicals. A little while ago the Times was ridiculing the Democratic party as defunct. A train on the Northwestern Railroad in the western part of Iowa, was a few days since delayed one hour and a quarter by grasshoppers, which covered the track so thick that the engine drivers slipped on the rails.

Gen. Joseph E. Johnson has resigned the presidency of the Alabama and Tennessee River railroad, from Selma to Dalton, and his place has been filled by the election of Franklin H. Deland, of New York.

THE temperature movement, it is announced, has, during the past twenty-five years, enrolled 1,500,000 members, and its societies now have 200,000 active members in North America. The thirteenth section of thirty miles of the Union Pacific railroad has been accepted. This section completes the road 455 miles west from Omaha, Nebraska. Nearly 14,000 acres of public lands were disposed of at the land offices at San Francisco and Stockton, Cal., during August. It is said that one-eighth of the iron and steel now made in the United States is from the iron ores of Lake Superior. The reciprocity treaty with the United States has passed the Sandwich Islands Legislature, and received the King's approval. The cultivation of sorghum, which was quite extensive in Wisconsin in 1865, has nearly ceased, the season proving too short for ripening it. A Women's Christian Association is to be established in Chicago. General Lee has 600 students at his college, against 400 last year. General Schenck is Wade's competitor for the Ohio Senatorship. There were several shocks of earthquakes in East Tennessee last week. FOR ACTS OF CHARITY AND BENEVOLENCE Philadelphia stands prominent among her sister cities. During the war she had our refreshment saloons where thousands were fed while on their way to the front, and now, in order that the good work may be continued, it is proposed to provide for the orphans of many of those brave heroes who fell in defense of the stars and stripes. For this purpose the Washington Library Company of Philadelphia was organized in aid of the Riverside Institute of New Jersey. Here the Orphans of Soldiers and Sailors in all parts of the country will be gratuitously educated and made useful members of society. The just and honorable plan adopted for raising the necessary funds for this charitable object has received the endorsement of every one. Read advertisement.

THE LADY'S FRIEND, FOR NOVEMBER.—This number is remarkably good. The Steel Engraving "Learning to Sew" is a sweet, quiet, home picture. The Fashion Plate is stylish and gay; nothing of the kind in the country is worth looking at compared with the elegant refinement of the fashions as shown by this magazine. The Wood Cuts lead off with some captivating skating costumes, and some illustrations of a novel and most convenient kind of hood; and include a wonderful variety of things interesting to ladies. There are two pages of Music—"The Pearly Stream Polka;" and the literary matter is uncommonly rich—August Bell, Elizabeth Prescott, Aunt Alice and Frank Lee Benedict have done their best.

Great inducements in the way of Premiums, &c., are promised to new subscribers, and our readers should send for a sample copy, containing all these liberal offers. —Since the year 1812 when the first load of anthracite coal was taken back to Philadelphia and given away, the production consequent upon an extended demand has increased with great regularity, and now it reaches from ten to twelve million tons a year. It is estimated that in ten years it will have reached the enormous annual production of twenty million tons.

SPECIAL NOTICES. THE GLORY OF MAN IS STRENGTH.—Therefore the nervous and debilitated should immediately use Helmbold's Extract Buchu.

DR. SCHENCK'S PULMONIC SYRUP. This great medicine cures Dr. J. H. Schenck, the proprietor, of Pulmonary Consumption, when it had assumed its most formidable aspect, and when speedy death appeared to be inevitable. His physicians pronounced his case incurable, when he commenced the use of this simple but powerful remedy. His health was restored in a very short time, and no return of the disease has been apprehended, for all the symptoms quickly disappeared, and his present weight is more than two hundred pounds. Since his recovery, he has devoted his attention exclusively to the cure of Consumption, and the diseases which are usually complicated with it, and the cures effected by his medicines have been very numerous and truly wonderful. Dr. Schenck makes professional visits to several of the larger cities weekly, where he has a large concourse of patients, and it is truly astonishing to see poor consumptives that have to be lifted out of their carrriages, and in a few months healthy, robust persons. Dr. Schenck's Pulmonic Syrup, Sea-Water Tonic, and MARIKAKI PILLS, are generally all required in curing Consumption. Full directions accompany each, so that any one can take them without seeing Dr. Schenck, but when it is convenient it is best to see him. He gives advice free, but for a thorough examination with his Respirometer his fee is three dollars. Please observe, when purchasing, that the two likenesses of the Doctor, one when in the last stage of consumption, and the other when in perfect health, are on the Government stamp.

Sold by all druggists and dealers; price \$1 50 per bottle, or \$7 50 the half dozen.
