

MONSTROUS!

The hideous features of Congressional Reconstruction, are, at last, being unveiled. It is now certain that eleven States of this Union are placed under the absolute domination of the blacks.

These are Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Arkansas, Tennessee, Louisiana, and Texas. In these States there are ten millions of whites, and about four millions of blacks.

The Reconstruction Acts disfranchise at least three-fourths of the whites, whilst they enfranchise all the blacks. Thus four hundred millions of blacks are permitted, nay, compelled, by the Radical party to rule more than twice their number of whites.

This alone challenges the condemnation of every thinking mind, and stirs with indignation every patriotic heart. Nor is the monstrosity of this fact lessened by the reflection that an immense standing army, maintained at an estimated cost of two hundred millions of dollars, annually, to the people of the United States, is the engine with which this diabolical scheme is enforced.

But there is another consideration in connection with this subject, which increases and intensifies the disgust and indignation at this Radical plot which are now uppermost in the breasts of the Northern people.

It is this: Four hundred millions of Negroes, ignorant, degraded, semi-barbarous, not only rule ten millions of whites in the South, but are to overbalance, by representation in Congress, twelve millions of white people in the North.

To illustrate: The eleven States placed under Negro control, will have 60 Representatives and 22 Senators in Congress.

THAD. ON THE RAMPAGE.

We call attention to a letter of Thad. Stevens, written recently to one Pfeiffer, published in another column. Thad. says that Negro Suffrage must be enforced everywhere; that suffrage is an inalienable right, and, therefore, all men are entitled to its exercise, and no man can be deprived of it.

Below will be found the important part of a letter written by Thaddeus Stevens to M. D. G. Pfeiffer, a German scholar, who is said to have been in the habit of frequently consulting Mr. Stevens on public affairs for many years.

Whatever construction shall be given to the Constitution in its present condition by this Congress, and the nearest great events which have modified it, will be likely to be accepted, through future time, as its true meaning.

In the changed condition of our country and of that instrument, which, while it is, as to the old States, may not be perverted, is not so inflexible as to be incapable of yielding to the changing necessities of humanity.

Before the constitution was amended, I do not agree with some of my learned friends that Congress could intermeddle with State laws relative to the elective franchise in the United States.

Radical Reconstruction will give the eleven Southern States, controlled by Negro votes, 60 Representatives and 22 Senators in the next Congress.

THADDEUS STEVENS' LAST LETTER.

high heaven and longer deny to God's immortal beings the high, the inalienable, the God-granted rights which his immortal Father gave them. Let no one in the past or in any future age attempt to palliate his offence, either before an earthly tribunal, which he has established between God's creatures, or who is to plead his cause at the bar of a higher tribunal, venture to insult Divine Justice by longer pleading his inability to execute that justice.

We must remember that most of us are separated from the dread tribunal occupied by a Judge who cannot be deceived by the narrowest isthmus that ever divided time from eternity.

If every citizen of any State is entitled to all the inalienable rights, privileges, and immunities of this Government, and if one of those inalienable rights is the right to the ballot for election, it is the duty of the Government, show me the man who is so impudent as to deny that suffrage by the ballot is due to every being within this realm to whom God has given immortality.

Before the constitution was amended, I do not agree with some of my learned friends that Congress could intermeddle with State laws relative to the elective franchise in the United States.

Special correspondence of the Baltimore Gazette. Radical Programme of Territorial Absorption—Grant Jubilant over the Ohio and Pennsylvania Elections—The Forty-First Congress.

WASHINGTON, October 30, 1867. The fact has for a year past been notorious, that the Radical program embraced for the future the incorporation of Hayti into the "Union," the absorption of Cuba by invasion of negro filibusters, and the settlement of the "Alabama claims" by the purchase of Jamaica from England.

It is understood that a proposition for annexing Hayti was made to Mr. Sumner, Chairman of the Senate Committee on Foreign Affairs, last winter, by the Diplomatic agent of that Government, but at the instance of Republican politicians of more prudent instincts, the project was laid aside until after the recent Presidential election.

I sorely believe that the visit of Mr. Seward to San Domingo was intended to be in furtherance of this programme. On the contrary, I have reason to believe that the Conservative Secretary rather favored a postponement, at least for the present, of the Radical calculation that upon a renewal of their lease of power of four more years under the very moderate and "conservative" administration of General Grant, that three Republican States may be carved out of Hayti, five out of Cuba and one of the West Indies.
