The Bedford Gazette. It is not only akin to, but it is identi- AFRICANS MAKING STATE CONSTITU-

tution of the United States. Whether SPEECH OF SENATOR DOLITTLE. Senator Doolittle, of Wisconsin, delivered a speech in the City Hall, Milwaukee, on the evening of the 28th ult. The following is a report of his remarks:-Mr. President and Fellow Citizens: For some months past I have been absent from my native land. I have been removed from the exciting scenes of political strife. I have hardly read the political newspapers of my own country, but during these months I have had leisure to reflect much upon the situation of our beloved country. From all the reflection and thought which I could bring to bear upon it, I have been confirmed in the belief, which was forced upon me more than two years ago, namely, that the policy which was then proposed by Mr. Lincoln immediately upon the surrender of the armies of the Rebellion, to recognize at once the States of the South, to have them restored to all their con-CLOTHING-Men's and boys' coats, pants and stitutional rights, and to their repre sentation in the Union, was the only just, the only wise, the only constitutional policy (Applause.) From that time forward I have struggled to carry that policy into effect. I believed then, and I am now more than ever firm in the opinion, that if, two years ago, immediately upon the surrender of the armies of the Rebellion, the States of the South had been recognized with their constitutional rights, and admitted to their representation in the 10 per cent. saved in buying your goods for cash, at J. He would like to know whether Grant was "for Johnmaintaining that idea of the supremacy son or for Congress, or what the devil he was for." When he (Wade) endeavored to elicit from Grant his views upon political subjects, he turned the conversation to horses! "Conservative devils" is the complimentary phrase Mr. Wade applies to those who cannot "jump forward" as far as himself. "We'll give them (the Southern States) a republican form of government in spite of the devil and all his angels, including Andy Johnson." We suggest to the party of progress, among their other side issues, to put a prohibitory plank in their platform against Benjamin Wade, and other radicals of profanity, for their fine "moral ideas" lose much of their weight when set of the secessionists, viz., the Constituforth by their leading official functiontion is no longer the supreme law of aries with so many "damns" and "dev-

A SHREWD WAY OF CATCHING THIEVES.—The Paris papers reveal elers are losers. The thief enters the shop of a dealer in diamonds and pearls, and asks to see some small unset stones. He is well dressed and wears colored spectacles. The stones are laid before him, spread on a paper. Being very near-sighted, as his glasses prove, he is obliged to bring his eyes so near to the gems that he can pick them up with the tip of his tongue, and he keeps them in his mouth until out of the shop. If he fears detection, which seldom occurs, he swallows his treasure-whence the slang name "swallow it raw" given to this class by the thieves' fraterniity. One of them was caught the othday. The diamond merchant, put upon his guard, said he had no small stones, but would have a large supply the next day. > How Napoleon Travels .-- The special train in which the Emperor Napoleon went with hissuite from Paris to Saltzburg, is described as exceeding in comfort and elegance anything of the kind that has hitherto been known. The train consisting of nine carriages, communicated with each other by tastefully decorated bridges. In the middle was a handsome sitting room, furnished with chairs, ottomans, sofas, mirrors, pictures, clocks and chandelier. On one side of the room was the dining-room, and on the other the Emperor's study. In the middle of the dining-room there was a table, capable of being extended or contracted at pleasure, with easy chairs placed parallel to the sides of the carriage .-The Emperor's study contained an

legant writing table, a clock in the style of the renascence, a thermometer, Analysis of Food.—It is stated a barometer, and a telegraphic commu-
