> Goop HAMS - After hams have been smoked, take them down, thoroughly rub the flesh part with molasses, then immediately apply ground or powdered pepper, by sprinkling on as much as will stick to the molasses, when they must be hung up again to dry. Hams treated in this manner will keep perfeetly sweet for two or three years. This must be done before the fly deposits its eggs, for after that is done, nothing will stop their ravages. The above has been practiced in our section for more than twenty years. No soaking is necessary. One pint of molasses and one and a half or two pounds of black pepper are sufficient for any ordina y family. Try this plan, if you want good sweet hams.-Cor. Rural American.
